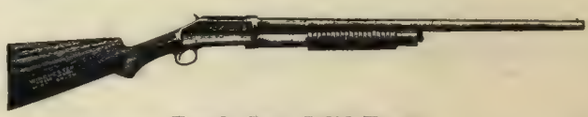
Can Furnish Model 1897 with Model 1893 Stock, 13 in. Long by 2¾ in. at Heel and 1¾ in. at Comb.



Brush Gun, Solid Frame.

Stock 13 1/16 in. Long, 2 5/16 in. Drop at Heel and 1⅝ in. Drop at Comb.

Side Ejecting, Plain Pistol Grip, Walnut Stock, Barrel Cylinder Bored, Chambered for 2¾ in. Shells, Holds 5 Shots.

	Each
No. 160—12 Gauge, 26 in. Rolled Steel Barrel, Weight About 7 Lbs.	**$37.50**

The Winchester "Brush" Gun, as its name implies, is designed expressly for bird shooting in field and cover. It is particularly desirable for this kind of shooting, owing to its light weight and strong shooting qualities.

The magazine is shorter than that of the regular Model 1897 Shotgun, holding four instead of five cartridges.

Take Down, Brush Gun.

Stock 13 1/16 in. Long, 2 5/16 in. Drop at Heel and 1⅝ in. Drop at Comb.

Side Ejecting, Pistol Grip, Walnut Stock, Barrel Cylinder Bored, Chambered for 2¾ in. Shells, Holds 6 Shots.

	Each
No. 68—12 Gauge, 26 in. Rolled Steel Barrel, Weight About 7¼ Lbs.	**$40.50**

The "Take Down" "Brush" Gun is made according to the same specifications as the regular "Brush" Gun, except it has a full length magazine, which increases the weight slightly.

Take Down, Trap Gun.

Side Ejecting, Straight Checkered Grip, Selected Walnut Stock, Matted Barrel, Rubber Butt Plate, Barrel Choke Bored, Chambered for 2¾ in. Shells, Holds 6 Shots.

	Each
No. 162—12 Gauge, 30 in. Rolled Steel Barrel, Weight About 7¾ Lbs.	**$77.95**

The Standard Style Stock of No. 162 Trap Gun is 13¾ in. Long, has a Drop of 1 5/16 in. at Heel and 1 13/16 in. at Comb. Any Length or Drop furnished to order from factory without extra charge.

No Readjustment Required for Different Loads—The Winchester Self-Loading Shot Gun will operate with complete certainty and safety with any properly loaded paper shell, from a "blank" to the maximum 12 gauge loads, either smokeless or black powder, such as loaded by this company, without the slightest change or adjustment. It requires no extra oiling to make it work with light loads nor the use of any additional parts to have it operate with heavy loads. It is a gun that requires no favoring. As it is often desirable to shift instantly from a heavy to a light load, sportsmen will welcome a recoil-operated shot gun with which this can be done without tinkering with the mechanism.

Nickel Steel Construction—The Barrel, Receiver, Magazine and all working parts of this gun throughout are made of Nickel Steel.

Repeating Rifles.

Magazines.

		Each
Extra Magazines—	Complete for 32 and 35 Caliber Self-Loading Rifles	**$2.25**

The Winchester Model 1905 Self-Loading Rifle is made with Blued Trimmings, and is fitted with Sporting Front and Rear Sights. The stock is 14 in. long and finished with a Rubber Butt Plate; drop at comb 1⅜ in., drop at heel 2¼ in., length over all 40 in.

The recoil of the exploded cartridge ejects the empty shell, cocks the hammer and feeds a fresh cartridge from the magazine into the chamber. The magazine is of the box type and holds five cartridges. By inserting a cartridge in the chamber before placing the loaded magazine in the gun, the operator can have six shots at his disposal. In using the Winchester Self-Loading Rifle it is absolutely necessary to pull the trigger for each shot, which places its operation as completely under the control of the operator as that of any repeating rifle.

Self-Loading Rifles.

WINCHESTER SELF-LOADING, MODEL 1907

"The Gun that Shoots Through Steel."

Take Down.

		Each
No. 5351	—351 Caliber High Power, 20 in. Round Nickel Steel Barrel, Plain Walnut Grip Stock and Fore-Arm, Not Checked, 6 Shots, Weight About 7¾ Lbs.....	**$42.00**

Magazines.

		Each
Extra Magazines—	For Model 1907 Self-Loading Rifles..	**$2.25**

The Winchester Model 1907 Self-Loading Rifle is equipped with Sporting Front and Rear Sights, but a Rear Peep Sight can also be used if desired. It measures in length over all 38 inches. The Pistol Grip Stock is finished with a Rubber Butt Plate, is 13⅞ inches long, and has a drop of 1¾ inches at the Comb and of 2¾ inches at the heel. Only 20 inch round nickel steel barrels can be furnished on these Rifles; but fancy Stocks, checked or unchecked, or Stocks of special dimensions, can be furnished at the same prices charged for such extras on other models.

The Mode of Operation is the same as that of the Model 1905.

The Rifle shoots a Cartridge of .351 Caliber, with 180 Grain Bullet, having a Muzzle Velocity of 1861 feet per second. It will penetrate a Steel Plate ¼ of an inch thick or twenty-six ⅞ inch dry Pine Boards, when used with Metal Patched Bullets; and thirteen ⅞ inch dry Pine Boards, when used with Soft Point Bullets.

WINCHESTER SELF-LOADING, MODEL 1910

Take Down.

		Each
No. 5401	—401 Caliber, 20 in. Round Nickel Steel Barrel, Plain Walnut Pistol Grip Stock and Fore-Arm, Not Checked, 5 Shots, Weight About 8¼ Lbs.....	**$44.95**

Magazines.

		Each
Extra Magazines—	For Model 1910 Self-Loading Rifles..	**$2.25**

The Winchester Model 1910 Self-Loading Rifle is equipped with Sporting Front and Rear Sights. It measures in length over all 38 inches. The Pistol Grip Stock, finished with a Rubber Butt Plate, is 13⅞ inches long and has a drop of 1¾ inches at the comb and of 2¾ inches at the heel. Only 20 inch Round Nickel Steel Barrels can be furnished on these Rifles, but fancy stocks, checked or unchecked, or stocks of special dimensions can be furnished at the same list price charged for such extras on other models.

The Model 1910 Rifle is loaded by recoil, it being only necessary to pull the trigger for each shot. The recoil of the exploded cartridge ejects the empty shell, cocks the hammer and feeds a fresh cartridge from the magazine into the chamber. This places the complete control of the rifle under the trigger and finger and makes it unnecessary to take the eye off the sights when shooting rapidly. A positive trigger lock, conveniently located in the trigger guard permits carrying the rifle at full cock with safety. The position of this lock can be readily determined either by sight or feeling. When the lock is off, it shows a red band as a warning.

Autoloading Rifles.

REMINGTON AUTOLOADING, MODEL 8

The Solid Breech which Guarantees Perfect Safety.

Take Down, Hammerless.

Box Magazine, Solid Breech, Straight Grip, Plain Walnut Stock, Shot Gun Butt, Rubber Butt Plate, Blued Finish.

	Each
No. 625—(Factory No. 8A), 25 Remington Autoloading Cartridge, 22 in. Round Barrel, 5 Shots, Weight About 7¾ Lbs.	**$51.10**
No. 630—(Factory No. 8A), 30 Remington Autoloading Cartridge, 22 in. Round Barrel, 5 Shots, Weight About 7¾ Lbs.	**51.10**
No. 632—(Factory No. 8A), 32 Remington Autoloading Cartridge, 22 in. Round Barrel, 5 Shots, Weight About 7¾ Lbs.	**51.10**
No. 635—(Factory No. 8A), 35 Remington Autoloading Cartridge, 22 in. Round Barrel, 5 Shots, Weight About 7¾ Lbs.	**51.10**

Note—Made with 22 in. Barrel Only.

This Rifle has a Box Magazine and is loaded with a Clip, the same as Modern Military Arms. The Magazine can also be loaded without Clip, and, unlike other automatically loaded Rifles, the Magazine does not have a strong spring, thereby making it easy and quick to load either with or without Clip. The empty shells are ejected from top of receiver by a spring, throwing them out softly and surely. After the last Cartridge has been fired the Bolt remains open ready to receive another Clip.

The Breech is Locked by a Turning Bolt which Locks close up against the Head of the Cartridge and remains Locked until the Recoil is Spent. The Breech is then automatically unlocked, the Empty Shell is Ejected and the Gun Reloaded, as in the latest designs of Military Rifles. This **reduces the Liability of Breaking Shells,** when firing, to a minimum, and gives great strength and security. Furthermore, this **Locked Breech allows the use of High Power Cartridges with perfect safety,** and this advantage over the other automatically loaded Rifles in which the **Breech Block is not Locked** at all, is at once apparent.

One of the most attractive features of this Rifle is that it is so designed that the Magazine can be charged by use of a Cartridge Clip. Each Clip holds five Cartridges, and as many as desired can be carried in the pocket, practically occupying no more space than the ammunition itself.

Cartridges in Clip.

CLIPS

	Each
Extra Clips	**$0.16**

The Clip is filled by inserting each cartridge separately in either end of Clip, at the same time pressing spring to allow flange on sides of clip to intersect the groove in head of cartridge. The cartridges are slid into the clip until full. Three clips are supplied with each Rifle without charge.

ROSS, HIGH VELOCITY, MODEL 10

Scotch Deer-Stalking Pattern.

Straight Pull, High Velocity, Solid Breech, Full Checkered Pistol Grip, Selected Italian Walnut Stock, Ross Silver Bead Fore Sight, Single Leaf Rear Sight, Capacity of Magazine Four Cartridges.

Each

No. M10—.280 Caliber, 26 or 28 in. Steel Barrel, 4 Shots, Weight About 7 Lbs. 8 Oz..... **$95.50**

Note—In Ordering, be Sure to Specify Length of Barrel Desired.

Per 100

.280 Caliber, Copper Tube Expanding Bullet Cartridges, for Use with No. M10 Ross Rifles..... **$15.55**

.280 Caliber, Hard Nose Target Cartridges, for Use with No. M10 Ross Rifles..... **15.55**

The muzzle velocity of the Ross Rifle is over 3,100 feet per second, the bore is .280.

This Rifle embodies the greatest advance ever made at one step in increase of velocities. Experience shows that with the resulting flatness of trajectory it is unnecessary to judge the distance so long as you can see the animal clearly enough to aim at.

The killing-power is very great, greater than any other sporting or military rifle known, the muzzle energy being in point of fact over 3,150 foot pounds. The largest deer drop to the shot or become anchored no matter where they are hit.

Repeating Rifles

SAVAGE FEATHERWEIGHT, MODEL 1899. THE IMP

Take Down, Hammerless.

Solid Breech Bolt, High Pressure Steel Barrel, Shot Gun Style Stock, Rubber Butt Plate, with Wind Gauge Sight.

Each

No. 518-S—22 Caliber High Power Center Fire Cartridge, Round Tapered Barrel, 6 Shots, Weight About 6¼ Lbs. **$44.95**

The Velocity (2800 Feet Per Second) is 100 Feet Per Second Higher than the Velocity of the United States Springfield Magazine Rifle.

Its Trajectory is so Flat that it may be shot accurately up to 350 yards without changing from the point-blank adjustment of sights.

Marble's Game Getter Guns.

TARGET RIFLE OR PISTOL

Each

No. A—22 Caliber Rim Fire and 44 Caliber Center Fire Cartridges, 12 in. Round Blued Barrels, Drop Forged Blued Frame, Single Trigger, Rubber Grips, Nickeled Steel Tubing Stock, Weight 2¼ Lbs., Equipped with Marble's Flexible Rear Sight, Lock Leaf Sight and Ivory Bead Sight, Finest Case Leather Holster.....**$30.00**

No. B—As Above, without Flexible Rear Sight, but with Blank **25.00**

Construction and Uses.

Marble's Game Getter gun can be opened as quick as a wink, but never accidentally.

Either barrel is used without any change of sight or adjustment.

The Striker on Hammer is quickly set with the thumb for either barrel or at **Safe.** The Folding Stock locks automatically at any drop for which it is set. Is easily removed.

With the Holster hung over shoulder and under coat the **Game Getter** is invisible, but can be speedily drawn and very handily used in one hand with stock hanging down or thrown to position. In either place the stock only aids in the balance of the gun.

Marble's Game Getter is the ideal arm for Fisherman, Motorist and Vacationist, and all classes of people whose business or pleasure calls them to the woods, fields or waters.

Target Rifles.

SAVAGE, JUNIOR MODEL 1904, SINGLE SHOT

Take Down.

LYMAN RECEIVER

For Auto-Loading Rifles.

Each

No. 41—Lyman Receiver Rear Sights, for Winchester Models 1905, 1907 and 1910 and Remington Auto Loading Rifles $6.40

LYMAN RECEIVER

Each

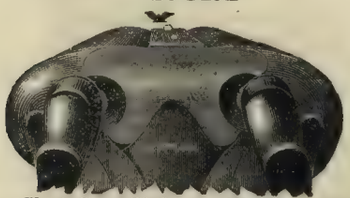
No. 21—Lyman Receiver Rear Sights $5.00

The Lyman Receiver Sight is intended for Rifles having a long firing bolt, like the Model 1895 Winchester, which prevents the use of the Combination Rear Sight. Can furnish this Sight for Models '86, '92, '94 and '95 Winchester, and Model '93 and '95 Marlin Rifles.

When Ordering Sights, Mention Make, Model, Caliber of Rifle, and whether Rifle has Straight or Pistol Grip.

Shot Gun Sights.

IVORY

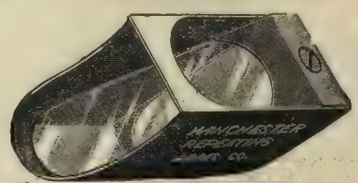


Per Set

No. 9—Ivory Shot Gun Sights, with Reamers..... $1.45

The engraving gives the appearance of the sights when aiming at a straight-way bird. The elevation of the gun is right, but the rear sight shows that the gun is out of line, which would not be discovered if these sights were not used. This system is a great help both in field and at the trap.

Barrel Reflectors.



Each

No. 100—Barrel Reflector for Examining the Inside of Gun Barrels $1.00

Directions: Withdraw the Breech-Block. Place the glass on top of the Carrier, the Mirror toward the Chamber. Hold the Muzzle of the Gun toward the light, and the inside of the Barrel will be seen reflected in the Mirror. Also adapted to the Springfield Musket. Not adapted to Model 1890 Winchester Rifles. **When ordering specify Model of Rifle.**

25 and 50 Pounds in a Box.

Dynamite and Powder can be shipped together, but under no circumstances can they be shipped with Dynamite Caps, Electrical Fuzes or any other goods. Dynamite and Powder cannot be shipped by Express or Boat. Dynamite takes Double First-Class Rates. Dynamite in Lots of 200 Pounds and Over will be shipped Freight Prepaid; Less than 200 Pounds, F. O. B. nearest distributing point.

Can ship Dynamite from Romeo, Ill., Ladysmith, Wis., Fond du Lac, Wis., Green Bay, Wis., Grand Rapids, Wis., Barksdale, Wis., Rice Lake, Wis., Hurley, Wis., Minneapolis, Minn., Duluth, Minn., Monroe, Mich., Saginaw, Mich., Iron Mountain, Mich., Marquette, Mich.

Dynamite Caps.

	Per 100
No. XXXXX—Dynamite Caps.	$14.90
No. XXXXXX—Dynamite Caps.	17.35

100 in a Metal Box.

Electrical Fuzes.

Length Wire, Feet	4	6	8	10	12
No. 6—Double Strength. Per 100,	$7.00	8.10	9.20	10.25	11.35
No. 7—Triple Strength. Per 100,	8.00	9.10	10.20	11.25	12.35

Dynamite Caps and Electrical Fuzes cannot be shipped with either Dynamite or Powder, nor with other Goods, but in all cases must be shipped alone by Freight. This frequently is the cause that our customers receive a shipment of Dynamite one day and the Dynamite Caps 2 or 3 days later, but same cannot be avoided.

Electrical Fuzes and Dynamite Caps take Double First-Class Rate in Lots less than 100 Pounds. Can ship from Romeo, Ill., Ladysmith, Wis., Fond du Lac, Wis., Grand Rapids, Wis., Barksdale, Wis., Minneapolis, Minn., Monroe, Mich., Grand Rapids, Mich.

Reloading Tools.

IDEAL BULLET MOULD

	Each
No. 10—Ideal Bullet Moulds, Grooved, Wood Handle, All Calibers	$1.60

When Ordering, Always Specify Caliber of Cartridge for which it is wanted.

Bullet Moulds are Shipped F. O. B. Factory.

IDEAL

	Per Set
No. 1—Ideal, Nickel Plated, with Cap Extractor, and Charge Cup	$3.25

Suitable for the Following Cartridges:

32 Short.
32 Long U. M. C. and Colt's.
32 S. & W. Short.
32 Extra Long.
38 Short.
38 Long, Outside Lubricant.
38 Extra Long.
38 S. & W.
41 Short Colts, D. A.
41 Long Colts, D. A.

This is a light, compact and complete little Tool, designed especially for loading the smaller Pistol Cartridges, and is capable of performing all the operations required in reloading. As constructed, it moulds the bullet, expels the exploded primer, reseats the new one, forces the bullet to place and crimps the shell upon it, leaving the cartridge ready for use.

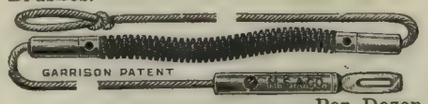
No. 3—U. S. Government Rifle Cleaners, Bristle Brush and Slotted Wiper, with Detachable Cord and Weight..**$4.45**

When Ordering, State Caliber Wanted.

Consists of a Bristle Brush and Slotted Wiper, with Detachable Cord and Weight for dropping through Barrel. A separate Slotted Wiper is furnished for drawing through a dry cloth and for oiling purposes.

Weight Per Dozen About 4 Pounds.

Can be used with Nos. 246 and 246B Brushes.



Per Dozen

No. 10—Marble's Field Cleaners, Detachable Cord and Weight.**$13.35**

When Ordering, State Caliber Wanted.

This Field Cleaner is built on the same general lines as the No. 8 Rifle Cleaner. It is designed to be carried in the pocket for use on the field.

Weight Per Dozen About 1 Pound.

Per Dozen

No. 8—Marble's Rifle Cleaners..$8.90

When Ordering, State Caliber Wanted.

Consists of a spirally-bent spring tempered wire with sections of very soft brass wire gauze washers separated by soft metal washers. The brass gauze brushes are a little smaller than the bore of the rifle they are intended to clean, and in pushing the cleaner through the barrel the spring of the wire core forces the brass gauze brushes firmly against the entire circumference of the bore of rifle, thus removing spots of lead, burnt powder, or rust.

Weight Per Dozen About 1 Pound.

Revolver Cleaners.

Per Dozen

No. 9—Bristle Revolver Brushes, for 22, 32, 38 and 44 Caliber.**$0.60**

Weight Per Dozen About ½ Pound.

Marble's Anti-Rust Ropes.

Anti-Rust Rope for Shot Guns.

Each

Marble's Anti-Rust Ropes—For Shotguns and Rifles.....**$0.80**

When saturated with oil these "Ropes" exclude all air and moisture and make it impossible for the barrels to rust.

Weight Per Dozen About 2 Pounds.

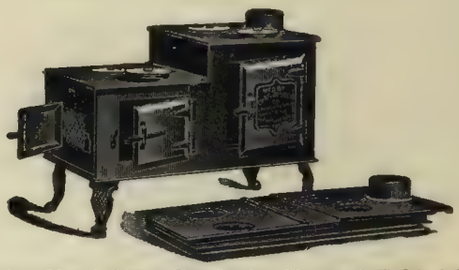
THE SPORTSMAN'S FRIEND



Cut Showing No. 1 Stove Ready for Use and Folded Ready for Traveling.

20 Gauge Sheet Steel. Each

No. 1—Folding, 29 in. Long, 17 in. Wide, 16 in. High, 7 in. Long Back Legs, Stove 23 in. High Overall when in Use, 5 in. Pipe Hole, 5 in. Cooking Hole, Oven 11 in. High, 10 in. Wide, 17 in. Deep $22.25

No. 10—Not Folding, Otherwise Same as No. 1, Weight Each About 38 Lbs 17.75

Damper—The Damper Attachment regulates the heat by three movements. By pulling the Damper out as far as it will come will cause the heat to come around over the top of the Oven, so you can cook and fry on the four holes. By pushing the Damper in half way it will give uniform heat at the top and bottom of the oven. By pushing the Damper as far as it will go it will cause the entire heat to go around the bottom and rear of Oven, which will heat the Oven for baking or roasting.

For Prospectors, Miners, Woodsmen, Sportsmen, Jockeys, Circuses, Picnic Parties, Private Families, Summer Kitchens, Tents, and for all kinds of other uses these Stoves are just what you want.

Shipped Only from Factory, F. O. B. Chicago.

Revere Automobile Tires.

Sectional View Showing "R" Straight Side Tire.

Sectional View Showing "R" Quick Detachable Clincher.

Sectional View Showing Plain Tread Quick Detachable Clincher.

THE "R" NON-SKID TIRE.

The "R" Non-Skid Tire is an exceptional tire and the price is but a slight increase above the cost of the Plain Tread Tire. It is a very fine tire in appearance and is bound to have wearing qualities because of the bulk of real rubber which is in the tread. Note the rib in the center of the tire and the outline of the letters "R" showing the depth of the rubber which forms them and you will appreciate the strength which is built right into that thread. It is an attractive tire to the eye, and efficient Non-Skid, the curves and angles formed by the letters "R" preventing side-slipping and skidding, and, moreover, not only will it give exceptionally good mileage because of the extra rubber in the tread, but also on account of the excellence of the whole tire itself. The fabric, cushion stock, breaker strip and the tread rubber are of the very finest materials obtainable. The process of manufacture is of the very latest, inspected rigidly at every step in its progress through one of the finest tire factories in the world, it is a tire of long endurance and easy riding qualities and gives to the motorist a feeling of security from skidding which no one can afford to be without.

THE REVERE PLAIN TREAD TIRE.

The Revere Plain Tread Tire is just as carefully made as the "R" Tread. A tire of sterling worth, nothing but the finest materials being used in its manufacture, thoroughly guaranteed and sold at a moderate price. There can be no better tire obtained for the price asked for the Revere Plain Tread.

GUARANTEE ON REVERE TIRES.

All Revere Pneumatic Automobile Tires bearing U. S. name and serial number are guaranteed to be free from imperfections in material and workmanship. Tires returned for consideration under this guarantee will be accepted only when all transportation charges are prepaid. If, upon examination, it is our judgment that Tires are defective, they will be repaired or replaced at our option.

When Tires are replaced by us, charges will be made to owners at the time new Tires are delivered, for such amounts as in our judgment will compensate for the service rendered by such replaced Tires.

Tires worn out in usual or unusual service, abused knowingly or unknowingly, misused, injured through accident or design, are not covered by this guarantee.

Revere Pneumatic Automobile Tires are not guaranteed to give any definite miles of service, and any and all guarantees are expressly waived by any purchaser of these Tires who uses them under weights in excess of those for which the various Tires are recommended, or who does not keep Tires inflated to the pressures recommended by us.

INFLATION TABLE.

Following is a table of proper air pressures for different sizes of tires:

3 inch tires	60 pounds.
3½ inch tires	70 pounds.
4 inch tires	80 pounds.
4½ inch tires	90 pounds.
5 inch tires	100 pounds.
5½ inch tires	110 pounds.
6 inch tires	120 pounds.

A simple way to remember these pressures is this: Twenty pounds of pressure to an inch of tire.

WEIGHT SCHEDULE.

The following table will act as a guide to the proper size of tire which should be equipped to your machine, cars to be weighed without passengers or luggage.

	Rear Weight per Wheel	Front Weight per Wheel
28x3	350 lbs.	425 lbs.
30x3	375 lbs.	450 lbs.
30x3½	450 lbs.	550 lbs.
31x3½	475 lbs.	575 lbs.
32x3½	500 lbs.	600 lbs.
34x3½	550 lbs.	650 lbs.
31x4	635 lbs.	775 lbs.
32x4	650 lbs.	800 lbs.
33x4	675 lbs.	850 lbs.
34x4	700 lbs.	875 lbs.
35x4	735 lbs.	885 lbs.
36x4	750 lbs.	900 lbs.
34x4½	900 lbs.	1125 lbs.
35x4½	935 lbs.	1175 lbs.
36x4½	975 lbs.	1225 lbs.
37x4½	1010 lbs.	1260 lbs.
35x5	1000 lbs.	1250 lbs.
36x5	1050 lbs.	1300 lbs.
37x5	1100 lbs.	1350 lbs.

Automobile Inner Tubes

REVERE

Cut Shows Grey Tube.

Cut Shows Red Tube.

Much of the endurance virtues of a tire depends upon the construction of the tube. Revere Tubes are of a light, buoyant, resilient rubber of great strength and are carefully manufactured. They do not lose any of their elasticity with age and the length of service obtained from them is remarkable. Like Revere Tires their quality is unsurpassed.

Revere Grey Rubber Inner Tubes.

Size, Inches	28x3	30x3	30x3½	31x3½	32x3½	34x3½	31x4	32x4	33x4	34x4

Automobile Tire Reliners.

White Duck Lining.

Made of High Grade Fabric and a Special Friction, Extra Coating of Cement on Outside when Dampened with Gasoline Makes Them Adhere to Casing, Coated with Special Quality Red Cement.

Nos.	V1	V2	V3	V4	V5
Size, Inches	32x3	34x3	30x3½	32x3½	33x4
No. of Ply	3	3	3	3	4
Weight Each About, Lbs.	3	3¼	3¼	3½	4
Each	$3.75	3.75	4.10	4.10	5.45

Nos.	V6	V7	V8	V9	V10
Size, Inches	34x4	36x4	34x4½	36x4½	37x5
No. of Ply	4	4	4	4	4
Weight Each About, Lbs.	4¼	4½	4½	4¾	5½
Each	$5.45	5.75	6.10	6.10	6.70

One in a Box.

White Duck Lining.

Made of Good Grade Fabric, Extra Coating of Red Cement on Outside when Dampened with Gasoline Makes Them Adhere to Casing.

Nos.	M11	M12	M13	M14	M15	M16	M17
Size, Inches	30x3	30x3½	34x3½	34x4	36x4	36x4½	37x5
Weight Each About, Lbs.	2	2½	3½	4	4½	4¾	5½
Each	$2.60	3.20	3.25	4.25	4.40	5.00	6.10

One in a Box.

Blow-Out Patches.

INSIDE

Continental-Erie.

High Quality, Strong Friction Fabric, Fits Any Tire, Flaps on Side are Held Between Beads of Casing and Rim to Prevent Creeping.

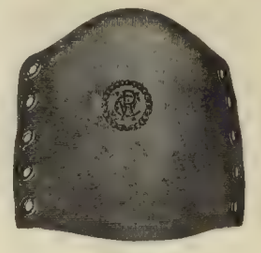
Nos.	33	23	44	55
For Tires, Inches	2½–3	3–3½	3½–4	4½–5
No. of Ply	4	5	6	7
Wt. Each About, Oz.	6	8	12	18
Each	$0.45	.55	.65	.90

Strong Friction Fabric, Same Construction as Above, but Lighter Material.

Nos.	M25	M26	M27	M28	M29
For Tires, Inches	3	3½	4	4½	5
Wt. Each About, Oz.	6	7	8	10	13
Each	$0.45	.45	.55	.55	.65

One in a Box.

OUTSIDE



Continental-Erie.

Tough Tread, Strong Fabric, Reinforced Eyelets, Used on Outside of Automobile Casings in Weak Places or where a Blowout has Occurred, with Rawhide Lace.

Nos.	5	10	15
For Tires, Inches	2½–3	3½–4	4½–5
Weight Each About, Oz.	13	18	25
Each	$1.30	1.55	1.90

One in a Box.

Blow-Out Patches.

OUTSIDE HOOK-ON

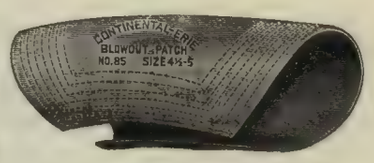
Continental-Erie.

Heavy Rubber Fabric, Stamped Steel Hooks, Securely Riveted. To be Hooked to Rim on Outside of Casing in Weak Spots or where a Blow-Out has occurred.

Nos.	160	170	180	190	210
For Tires, Inches	3	3½	4	4½	5
Wt. Each About, Oz	10	12	14	16	19
Each	$1.00	1.20	1.30	1.55	1.85

One in a Box.

INSIDE



Continental-Erie.

Strong Rubber Fabric. To be Used on Inside of Casing.

Nos.	36	*37	38	39

Bolt Cutters

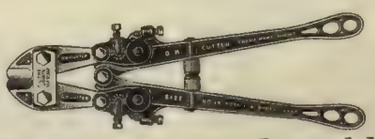
Tempered Steel Clipper Cut Jaws, Japanned Malleable Iron Frame, Interchangeable Parts.

Each

No. 10—10 in. Long, Cuts 3/16 in. Annealed Bolts in the Thread or 3/16 in. Soft Rivets, Weight Per Pair About 1½ Lbs. $2.00

Open Stock.

O. K.



Tempered Steel Clipper Cut Jaws, Japanned Malleable Iron Frame, Interchangeable Parts.

Each

No. 14—14 in. Long, Cuts ¼ in. Annealed Bolts in the Thread or ¼ in. Soft Rivets, Weight Per Pair About 2 Lbs. 5 Oz. $2.50

Open Stock.

Vises.

YANKEE

With Swivel Base.

4½ in. Diameter Cast Iron Swivel Base, Three Bosses on Under Side Give a Level Bearing on Bench, Vise Part Can be Quickly Detached for Use on Drill Press, Etc., Body and Sliding Jaw of Vise are Cast Iron with Hardened Steel Faces.

Each

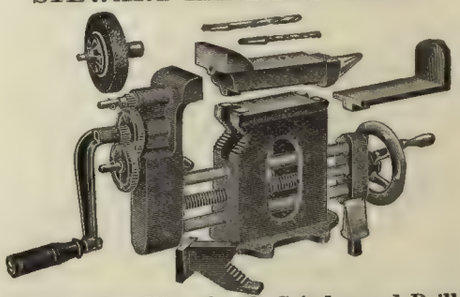
No. 1993—Yankee, 2¾ in. Vise Jaws, 1⅞ in. Deep, Opens 3⅛ in., Extreme Height with Base 5¾ in., Length Over All 8¾ in., Upper Part of Swivel has a Taper Piece to Receive Taper End of Sliding Jaw with Set Screw in One End to Force Tapers into Position, thus Clamping Vise and Base Perfectly Rigid. $6.70

Weight Each About 13½ Pounds.

One in a Box.

Combination Vises.

STEWART HANDY WORKER



Combination Vise, Anvil, Grinder and Drill.

Cast Iron Body, Blue Japanned, Gearing and Drills Cut from Solid Steel Bar, Combines Vise, Pipe Vise, Anvil, Steel Cutting Hardie, Drill Press with Two Drills and Rest, and Carborundum Grinding Wheel with Three Speeds: Direct, 4 to 1 and 16 to 1.

Each

No. 444—Stewart Handy Worker, 4 in. Vise Jaw, Opens 4¼ in., Pipe Vise Holds Pipe up to 1½ in. Diameter, Drill Press Can be Operated at Two Speeds, Driving Mechanism Used for Grinding and Drilling Can Also be Used to Drive Such Extra Attachments as Buffing Wheel, Scratch Brush, Small Circular Saw, Etc. $19.45

Weight Each Boxed About 100 Pounds.

One in a Box.

Cotter Pin Tool.

No. 179.

Tool Steel, Nickel Plated.

Per Dozen

No. 179—5/16 in. Square, 7 in. Long, One End Used for Pulling Cotter Pins and the Other for Spreading Same. $3.35

Weight Per Dozen About 2 Pounds.

One Dozen in a Box.

Spring Cotters.

Steel, Assorted Sizes.

Per Box

No. 40—Each Box Contains 120 Assorted Sizes Spring Cotters. $0.15

Twenty Boxes in a Carton.

Weight Per Box About ¼ Pound.

Taper Pins.

Steel, Assorted Sizes.

Per Box

No. 41—Each Box Contains 40 Taper Pins in Assorted Sizes from 0x1 to 5x2¾, High Grade, Turned $0.65

Twelve Boxes in a Carton.

Weight Per Box About ¾ Pound.

Lock Washers.

Per Box

No. 10—Assortment, Contains 42 Assorted Automobile Sizes of Lock Washers, in Screw Top Tin Box $0.60

Weight Per Box About ¼ Pound.

500 in a Box.

Cap Screws.

HEXAGON

Assorted Sizes.

Each Box Contains 12 Screws, Two Each ¼ in. Bolt, 1 and 1¼ in. Long; Two Each 5/16 in. Bolt, 1 and 1¼ in. Long; Two Each ⅜ in. Bolt, 1¼ and 1½ in. Long.

	Per Box
No. 42—U. S. Standard Thread	$0.44
No. 43—A. L. A. M. Thread	.55

Weight Per Box About ¾ Pound.

Set Screws.

Assorted Sizes.

Each Box Contains 14 Screws, Two Each ¼ in., ½ and ¾ in. Long; Two Each 5/16 in., ⅝, ⅞ and 1¼ in. Long; Two Each ⅜ in., 1 and 1½ in. Long.

	Per Box
No. 44—Square Head, Cup Point	$0.30

Weight Per Box About ½ Pound.

Hexagon Nuts.

Semi-Finished, Assorted Sizes.

Each Box Contains 24 Nuts, Eight Each ¼, 5/16 and ⅜ in. Holes.

	Per Box
No. 45—U. S. Standard Thread	$0.40
No. 46—A. L. A. M. Thread	.40

Weight Per Box About ¾ Pound.

Castellated Nuts.

Assorted Sizes.

High Grade, Turned from Bar, Case Hardened.

Each Box Contains 15 Nuts, Four Each 5/16 and ⅜ in.; Three 7/16 in.; Two Each ½ and ⅝ in. Holes.

	Per Box
No. 47—A. L. A. M. Thread	$0.55

Weight Per Box About ¾ Pound.

Oilers.

COPPER PLATED STEEL

Large Mouth, Cold Rolled Steel Body, Clock Spring Steel Bottom, Heavily Electro Plated, Spout Connection Turned from Solid Brass Bar Containing Cut Threads.

With Straight Spout.

Capacity of Can, Gallons	1	½	¼
Number of Cans in Case	6	12	24
Per Case	$7.25	8.35	11.15

Automobile Oils.

"NORTHLAND" HIGH GRADE PENNSYLVANIA

Fully Guaranteed.

Nos. 1 and C1 Extra Pale Auto Oil—A highly filtered Pennsylvania Oil with very high fire test and with practically no free carbon. Used most successfully on fast running expensive cars with close fitting bearings. If bearings are not perfectly ground will burn up quickly without residue. Not recommended for the ordinary class of car.

Nos. 2 and C2 Special Oil—The very best filtered, pale Pennsylvania Oil possible to buy at any price, and suitable for any make of water-cooled car. There is no better auto lubricant made regardless of name or price. A better oil cannot be made out of petroleum.

Nos. 3 and C3 Crystalline—A very heavy white oil, especially adapted for motors having the new long stroke engine. It will not smoke and has a low cold test. This is the fanciest oil made. Will lubricate any make of water-cooled or air-cooled motor.

Nos. 4 and C4 Heavy Auto—A strong bodied Pennsylvania filtered oil with very high fire test. For motors needing a heavy oil, also for air-cooled cars. Splendid for motorcycles.

In Barrels.

Nos.	1	2	3	4	6	8	9
Per Gallon	$1.25	.78	1.25	.90	.75	.65	.75

About 50 Gallons in a Barrel.

Nos. 6 and C6 Combination—An excellent Pennsylvania filtered oil, with a little stronger body than the Special, but not quite so light in color. Contains very little carbon.

Nos. 8 and C8 Bartles Mobiline Auto Oil—This is a medium bodied oil, filtered, and is strongly recommended as a combination oil which a dealer can handle and sell for automobiles, gas engines, power separators, dynamos, ordinary machinery, and medium sized engines. It contains very little free carbon, has good body and high fire test. Its cold test is about 15 above zero.

Nos. 9 and C9 Transmission Oil—A heavy black Pennsylvania Stock oil with a very high fire test. Suitable in the transmissions of automobiles where the bearings are tight enough to hold it. It takes the place of transmission grease and is a very much better lubricant.

In One Gallon Cans.

Nos.	C1	C2	C3	C4	C6	C8	C9
Per Case of Six	$9.80	7.15	9.80	7.80	7.00	6.35	7.00

Prices Quoted on Gasoline and Kerosene do not include the Steel Drum. Steel Drums can be returned to the Bartles-Maguire Oil Co., Milwaukee, Wis., they paying the **return freight** charges and when received we will credit amount as originally charged for same.

NOTE—Kerosene can be shipped by Rail to **Wisconsin Points Only.** Lake Steamers will not accept same. Gasoline can be shipped by Rail only.

Cup and Transmission Grease.

"NORTHLAND," HIGH GRADE

No. 3, Medium; No. 4, Hard.

Greases are made from light oils and should never be used when oil itself can be held. The transmission greases are free flowing and the cup greases are hard. Fibre grease is best used for transmissions and differentials on account of its tendency to cling, also on account of its higher melting point. All our greases are high grade and should not be confused with the cheap greases. They are made from strong bodied oils and compounded with animal oils to maintain their lubricating qualities when melted.

CUP GREASE

	Per Pound
In Wooden Barrels, Containing About 450 Lbs	$0.11
In Wooden ½ Barrels, Containing About 280 Lbs	.12
	Per Pail
In Wooden Pails, Containing 28 Lbs. Net	$4.70

Linseed Oil Soap

"NORTHLAND," FOR HIGHLY POLISHED SURFACES

A soft neutral soap made to clean highly polished surfaces when mixed with water to the extent of making suds. Cold water should always be used. Will cut all grease and not mar the finest surface. Used almost without exception by all parties cleaning automobiles. Also used for all kinds of general cleaning on account of its properties and on account of its purity.

	Per Pound
In Wooden Barrels, Containing About 430 Lbs	$0.11
In Wooden Half Barrels, Containing About 220 Lbs	.12
	Per Pail
In Wooden Pails, Containing 33 Lbs. Net	$5.90

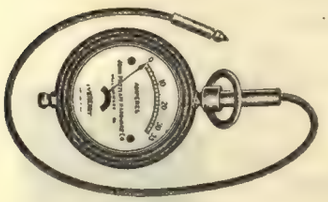
Pocket Ammeters



No. 1002.

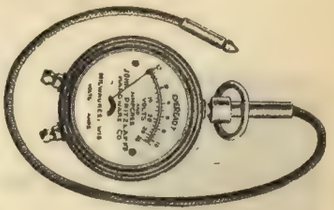
Each

No. 1002—2 in. Diameter, ½ in. Thick, Range of Ammeter is 0 to 35 Amperes, Nickel Plated, Hardened and Polished Pivots, Flexible Cord Attached to Upper Contact.....**$1.40**
Weight Each About ½ Pound.
One in a Carton.

Each

No. 1003—2 in. Diameter, ½ in. Thick, Range of Volt-Ammeter is 0 to 35 Amperes and 0 to 10 Volts, Nickel Plated, Hardened and Polished Pivots, Flexible Cord Attached to Upper Contact **$1.70**
Weight Each About ½ Pound.
One in a Carton.

Pocket Volt Ammeters



No. 1003.

Battery and Bulb Testers

EVER READY

No. 6291.

Each

No. 6291—5 in. Diameter, for Testing Flashlight Bulbs and Batteries, with 4 Pieces of 11 in. Wire Cord.....**$1.00**
Weight Each About 1 Pound.

Insulated Wire

No. 18.

Per Pound

No. 18—In 1 Lb. Coils.....**$0.80**
No. 18—On 6 to 8 Lb. Spools.....**.78**

Battery Connectors.

QUICK ACTION

Per 100

No. 1—⅜x4 in., Soft Copper, Insulated, Open Ends.....$1.75

Weight Per 100, ¾ Pound.
100 in a Box.

PERFECTION

Per 100

No. 25—5¼ in. Long, Brass Spring End Clips.....$4.50

Weight Per Box 2 Pounds.
100 in a Box.

BULL DOG

Per Box

No. 1026—4¼ in. Long, Extra Heavy, Brass Spring End Clips.....$0.80

10 in a Box. Weight Per Box ⅛ Pound.

To attach, take off the screws of the binding posts and slip the connection over. This cannot jar loose, yet can be changed in an instant.

Storage Batteries

RADIUM

For Starting, Lighting and Ignition.

The case containing the jars is hardwood, ¾ and ⅞ in. thick, boiled in paraffine and tarred to withstand the action of the solution and the gases. Jars are made of the best grade hard rubber, ⅛ in. stock. Staggered design plates, allowing free expansion and contraction. Separators are of the most approved type, allowing free circulation of the fluid. Top connections and plates are cast in one piece out of chemically pure lead, specially prepared for battery use and for this reason there is no corrosion to short circuit the battery or cause trouble. The connections are also brought out to the top so that the individual cells can be tested when desired. The two terminal nuts are hard rubber, ¾ in. diameter, large enough so that they can be fastened down by hand without the use of pliers. Handles are of the sliding type and can be pushed out of the way when not wanted.

Battery Syringe Hydrometers

For Testing Strength of Storage Batteries.

Each

No. 17—10½ in. Long Over All, Red Rubber Bulb and Base, Glass Center, 4¾ in. Inside Hydrometer with Specific Gravity Readings from 1100 to 1300, Shot Weighted $1.10

To take a gravity reading squeeze the rubber bulb and insert the tip of syringe into the cell. Release pressure on the bulb until enough acid has been drawn up into the tube to freely float the hydrometer. The mark on the hydrometer which is in line with the surface of the liquid is the specific gravity reading.

One in a Box, Complete with Directions.

Acetylene Lamp Burners

Busterer, Lava.

For All Sizes Gas Lamps.

Per Dozen

No. 90—Standard ⅝ and 1 ft. $1.10

One Dozen in a Box.

Alco, Imported Lava.

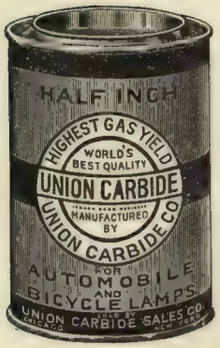
For All Sizes Gas Lamps.

Per Dozen

No. 100—Standard ¾ ft. $3.00

One Dozen in a Box.

Calcium Carbide.



Specially Prepared for Acetylene Gas Automobile and Bicycle Lamps.

Per Dozen Cans

Calcium Carbide—Size ½ in., in 2 Lb. Cans.....**$4.50**

Per Case

Calcium Carbide—Size ½ in., in 2 Lb. Cans, in Case Lots (24 Cans)....**$8.00**

Per Can

Calcium Carbide—Size ½ in. and 1 in., in 10 Lb. Cans.....**$1.56**

For Automobile Lamps.

Per Case

Calcium Carbide—Auto Brand, Size ½ and 1 in., in Case Lots, Six 10 Lb. Cans.....**$8.70**

Calcium Carbide—Miners' Lamp Carbide, in 10 Lb. Cans.....**$1.56**

Fire Extinguishers.

Included in the List of Approved Fire Appliances Issued by the National Board of Fire Underwriters.

PYRENE

Will put out every kind of a fire in its incipient state, no matter how it starts or what is burning. Operated by pumping handle.

Each

No. 1—Brass, 14 in. Long, 3 in. Diameter, Weight Filled Ready for Use 6 Lbs.....**$12.50**

No. 2—Nickel Plated, 14 in. Long, 3 in. Diameter, Weight Filled Ready for Use 6 Lbs.....**14.25**

J. M.

Simple and reliable, no pumping while aiming, which leaves both hands free to direct stream. Combines advantages of both pump and air compression type of extinguishers.

Each

No. 800—14½ in. Long, 3 in. Diameter, Heavy Brass Tubing, Nickel Plated with Black Enameled Bracket Complete with Screws for Fastening to Wall or Attaching to Automobile or Motor Boat, Weight Each Filled Ready for Use 7 Lbs.....**$13.35**

EVERKEEN

Constructed from best grade of copper and lined with non-corrosive metal, polished copper finish. Furnished complete with hook for hanging and chemical charge. Throws a stream of chemical 50 feet when tipped over.

Each

No. 50—23½ in. High, 7 in. Diameter, Tested to 350 Lbs. Pressure, Are Ready for Use After Being Filled with Water, Weight Each Empty 17 Lbs.....**$20.35**

Dry Fire Extinguishers.

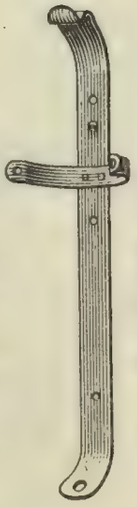
MITCHELL

Consists of a metallic tube, filled with a dry chemical powder having the power of liberating an enormous quantity of Carbon Di-Oxide Gas when subjected to heat. Opening in tube is closed with a friction cap fitted with a ring for hanging. When suspended from hook, a downward jerk is sufficient to pull out cap, which makes extinguisher ready for use.

Per Dozen

No. 55—22 in. Long, 2 in. Diameter, Weight Each About 4 Lbs..**$16.65**

Fire Extinguisher Brackets.



WALL

For Use on Wall with Pyrene Fire Extinguishers.

Each

No. 10—Black Enameled.....**$0.45**

No. 11—Brass Plated.....**.90**

No. 12—Nickel Plated.....**1.35**

VEHICLE

For Use on Motor Cars or Other Vehicles with Pyrene Fire Extinguishers.

Each

No. 20—Black Enameled.....**$0.90**

No. 21—Brass.....**1.35**

No. 22—Nickel Plated.....**1.80**

Fire Extinguisher Liquid.

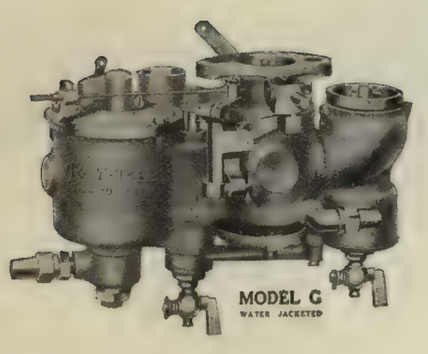
PYRENE

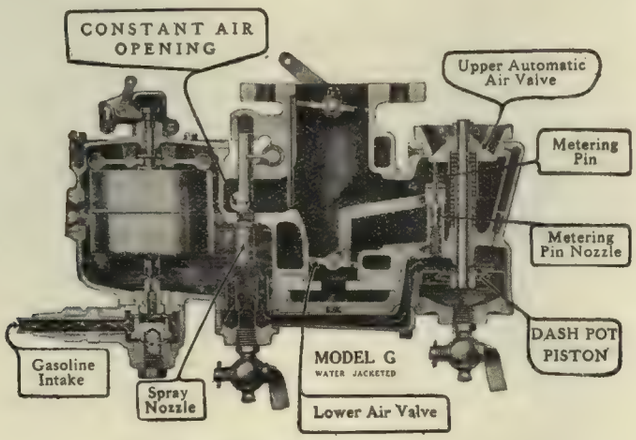
Per Can

One Quart Cans—20 Cans in a Case.....**$1.80**
Half Gallon Cans— 8 Cans in a Crate.....**4.00**
One Gallon Cans— 4 Cans in a Crate.....**7.10**

Carburetors

RAYFIELD





Sectional View of Model "G."

Model "G," Water Jacketed.

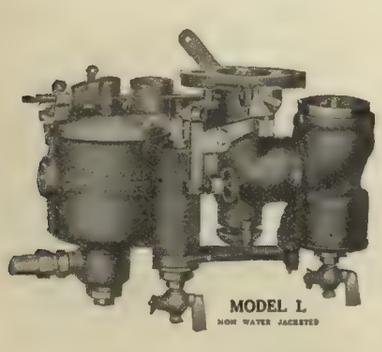
Cast Bronze Case, All Working Parts Polished Brass, with Dash or Steering Post Control.

The Model "G," like all Rayfield Carburetors, is constructed along characteristic lines. It is like no other carburetor in design, construction, operation or results. There are but two simple and easy adjustments—one for low and the other for high speed—both controlling the supply of gasoline.

There are three air intakes: The constant, or fixed air opening, and two automatically controlled air valves. These air valves are inter-connected and operate together in accordance with the suction of the motor.

Fuel is supplied through two nozzles. One supplies all the gasoline required when motor is idling. The additional gasoline required for higher speeds is furnished by a nozzle which is controlled by a tapered metering pin located under the automatic air valve. As the air valve is drawn open, admitting more air, it operates the metering pin, which gradually opens the nozzle, supplying additional gasoline in correct proportion to the air. A piston attached to the upper automatic air valve operates in a cylinder of gasoline, which offers resistance to the piston; thus preventing fluttering of air valves and creating a strong suction on both nozzles when throttle is opened suddenly; and also forces gasoline through the metering pin. These features, combined, give a remarkably fast getaway.

	Each
Model G3 —For 1¼ in. Standard Pipe, Weight Each About 10 Lbs.	$30.00
Model GL2A—Special Assembly Complete with Fittings for Model D45, 1916 Buick "Little Six"	27.35
Model GL3A—Special Assembly Complete with Fittings for Model D55, 1916 Buick "Big Six"	32.60



Model "L," Non-Water Jacketed.

With Dash or Steering Post Control.

The Model "L" Rayfield is a non-water-jacketed carburetor of the same design, construction and operation as the Model "G." It should be used only on Thermo-Syphon and air-cooled motors, and where the water-jacketed carburetor cannot be used.

Heat must be applied to the carburetor to properly vaporize the low grade fuel now used.

The Rayfield Hot Air Outfit consists of a stove or housing, which is clamped around the exhaust manifold or pipe, and the heat is transferred by means of flexible tubing attached to the fixed air intake. The use of a hot air outfit is recommended in connection with all Rayfield Carburetors, but particularly when a non-water-jacketed carburetor is used. The hot air outfit is sold separate. See page 1930.

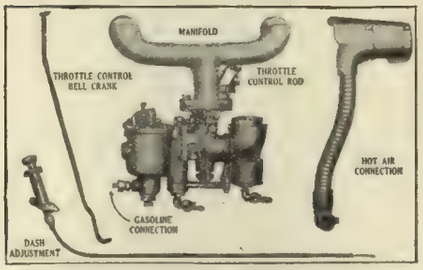
	Each
Model "L2"—For 1 in. Standard Pipe, Weight Each About 9 Lbs.	$20.00

DASH OR STEERING POST CONTROL

A Dash or Steering Post Control is furnished with all Rayfield Carburetors. This control raises the low speed adjusting needle, supplying a richer mixture for starting purposes, and to take care of cold motor and cold weather conditions.

Carburetors.

RAYFIELD FORD ASSEMBLY



For Ford Cars.

The complete Ford Assembly, as shown in illustration, consists of an 1 in. Model L Non-Water Jacketed Carburetor, a Specially Designed Ford Manifold, Hot Air Fitting, Throttle Control Bell Crank, Throttle Control Rod, Special Gasoline Connection and a Dash Adjustment.

Each

Model AL2—Complete Assembly for Ford Car, Packed One in a Box, Complete with All Fittings Necessary for Installation $23.00

This Assembly is made to supply the great demand for Rayfield Carburetor equipment on Model "T" Ford Cars. A Rayfield Carburetor on a Ford Car assures greater efficiency in the production of more power, more speed, greater flexibility, easier starting, and less carbon.

With Rayfield equipment, a Ford starts easily in cold weather, develops greater speed, throttles down to a walk, climbs hills with ease and the gasoline consumption is reduced to a minimum.

It can be installed in two hours by an ordinary mechanic.

Piston Rings.

BURD HIGH COMPRESSION

Each Ring Cast Singly of Best Quality Gray Iron.

Skin of Casting is Left on Inside as a B inder and to Insure Resiliency. A Metal Guard Closes the Opening in the Rings without Use of Springs and Makes Rings Leak Proof.

	Each
Diameter 2½ in. and Under	$1.00
Diameter 3½ in. and Under to 2½ in.	1.25
Diameter 4½ in. and Under to 3½ in.	1.50
Diameter 5½ in. and Under to 4½ in.	1.75
Diameter 6½ in. and Under to 5½ in.	2.00
Diameter 7½ in. and Under to 6½ in.	2.25
In Quantities of 1 to 11 Rings	Discount %
In Quantities of 12 to 71 Rings	Discount %
In Quantities of 72 Rings and Over	Discount %

The Ring Ends are formed to support the Metal Guard and also retain it on the under side to produce a light, velvety contact of the guard against the cylinder wall. Instantly removable—slight relaxation when cold for easy cranking—a tight joint allowing a free, elastic expansion. Helps to prevent accumulation of carbon in cylinder by forming a continuous metal piston packing.

When Ordering Burd High Compression Piston Rings, Mention Name, Model and Year of Car or Size of Ring Wanted. We Can Furnish Any Size Ring.

ANTI-LEAK

Special Metal.

Tapered Seats Allow the Top Ring to Conform to the Walls of Cylinder, Knurling on Both Sections Hold Them in Position and Prevents Turning, Very Strong and Flexible.

Sheet Packing.

PERMANITE

An Asbestos Packing Especially Adapted Against Extreme Heat, Such as Exhaust from Automobile Engines, Extremely Light in Weight and Need be Used in Thicknesses Only About One-half of those Necessary in Rubber and Soft Sheets. Does not Deteriorate in Years.

	Per Pound
No. 5—1/32 in. Thick	$2.25
No. 10—1/16 in. Thick	2.25

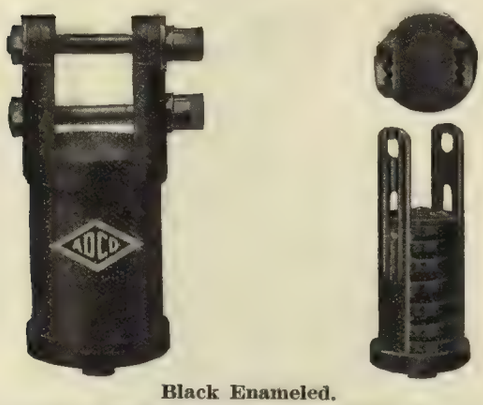
SEIGELITE

A Fibrous Packing that Becomes Tougher when Subjected to the Action of Oil, Grease, Gasoline and Water. Especially Economical for Making Gaskets in the Above Conditions.

	Per Square Yard
No. 15—1/32 in. Thick	$2.00
No. 20—1/16 in. Thick	4.20

Shock Absorbers.

ADCO



Black Enameled.

Fitted with a Specially Designed Square Coil Spring Made of Crucible Analysis Steel and so Constructed as not to "Take a Set," but Give a Proper and Permanent Spring Action.

Per Set of Two

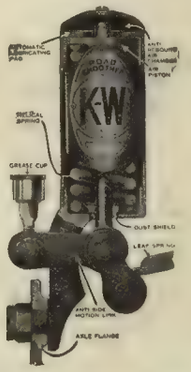
No. 10—For Cars Weighing up to 3500 Lbs.....**$26.65**
No. 11—For Cars Weighing 3500 Lbs. or Over..... **26.65**

Weight Per Set About 10 Pounds.

When ordering specify: Name, Model and Year of Car, Width of Rear Spring, Diameter of Spring Bolt and Type of Body.

One Set in a Box.

K. W.



For Ford Cars, Black Enameled.

Electric Smelted Chrome Vanadium Steel Helical Spring, Anti-Rebound Air Chamber Acts Like a Door Check and Gently "Eases off" the Rebound of the Spring, Highest Grade Heat Treated Drop Forged Anti-Side Motion Links, Prevent Car from Pitching or Swaying, All Phosphor Bronze Bearings Throughout.

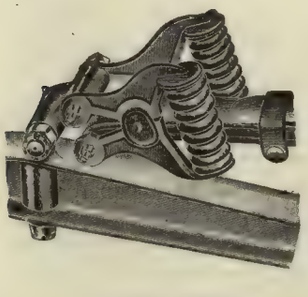
Per Set of Four

No. 3—For Touring Cars.....**$25.00**
No. 4—For Roadsters **25.00**

Weight Per Set About 19 Pounds.

One Set in a Box.

BEST AUTOMATIC



For Ford Cars.

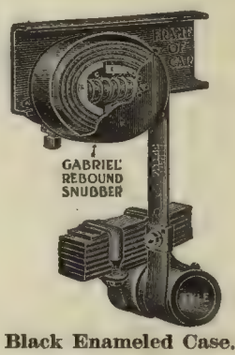
Finest Malleable Iron Castings, with Hollow Bolts and Oil Cups, Two Dependable Compression Springs Form a Perfect Pneumatic Cushion for Each of Four Corners of the Car, so Constructed that if any Spring Developes a Break in Service the Running Gear is Still Hooked up, Thus Guaranteeing Absolute Safety.

Per Set of Four

Best—Black Enameled, Weight Per Set 17 Lbs.....**$7.75**

One Set in a Box.

GABRIEL REBOUND SNUBBER



Black Enameled Case.

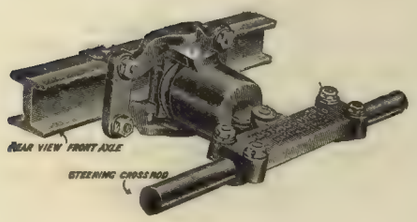
Fabric Belting, Best Quality Steel Springs Protect the Car by Eliminating Vibration, They Prolong the Life of Tires by Keeping the Wheels on the Ground and Giving Perfect Traction.

Per Set of Four

No. 1—1½x4⅞ in. Cup, for Cars Weighing Less than 2200 Lbs., Weight Per Set About 18 Lbs.....**$25.00**
No. 2—1½x5⅝ in. Cup, for Cars Weighing 2200 to 3500 Lbs., Weight Per Set About 20 Lbs..... **33.30**
No. 3—1¾x5⅝ in. Cup, for Cars Weighing More than 3500 Lbs., Also for Light Delivery Trucks, Weight Per Set About 22 Lbs..... **41.65**

When ordering specify: Name, Model and Year of Car. We can furnish above in sets of two at half the above cost. When ordering sets of two, mention whether front or rear are wanted.

One Set in a Box.



Hasting's Stabilizer.

For Ford Cars.

Insures Safe and Steady Steering.

Finest Spring Steel Spring Entirely Enclosed in Mud and Dirt Proof Casing, Malleable Iron Castings.

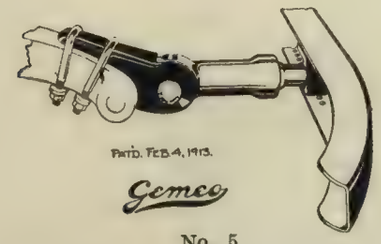
Each

No. 10—Black Enameled, Weight Each About 4 Lbs.....**$5.00**

A very simple device attached to the front axle and steering rod of car. It works on a simple oscillating spring principle. Adds resistance in the steering wheel that the driver ordinarily provides when driving his car without it. Keeps car in road until it can be stopped, if steering device should break.

Automobile Bumpers

GEMCO UNIVERSAL



No. 5.

Nos. 11 and 14.

For All Cars.

Easily and Quickly Attached to Car by Clamping the Arms to Front Hanger or Spring of Car, no Special Tools or Drilling of Holes Necessary, Black Enameled Frame Casting, Adjustable Tooth Clutch Joints, Extra Heavy High Grade Steel Bar.

Channel Bar.

	Each
No. 5—2 in. Channel Bar, Nickel Plated, Weight Each About 21 Lbs.	**$10.90**

Diamond Bar.

	Each
No. 11—1¾ in. Diamond Bar, Nickel Plated, Weight Each About 23 Lbs.	**$14.45**
No. 14—1¼ in. Diamond Bar, Nickel Plated, Weight Each About 16 Lbs.	**10.90**

The Gemco Universal Bumpers abut against the End or Nose of Frame. The Thrust of any shock is received at the Most Rigid Point of the Car. The Frame Yokes regularly supplied are 1⅝ in. wide and are readily adjustable on most Standard Frames. For **Buick, Overland Sixes, Studebakers** and others which have a little wider Frame, we can furnish a 2 in. Yoke. **If Extra Wide Yokes are Required be Sure to Specify.**

One Complete in a Box.

GEMCO CLAMP-ON

No. 37.

High Grade Steel Bar.

Designed to Fit on the Top of the Frame and Can be Adjusted Backward or Forward to Accommodate the Requirements of the Particular Car on which it is to be Used. By the Use of a Tooth Clutch Jaw Any Horizontal Adjustment Can be Made.

	Each
No. 31—1¾ in. **Channel Bar**, Nickel Plated, Weight Each About 15 Lbs.	**$8.30**
No. 37—1¼ in. **Diamond Bar**, Nickel Plated, Weight Each About 13 Lbs.	**9.90**

One Complete in a Box.

GEMCO OVERLAND

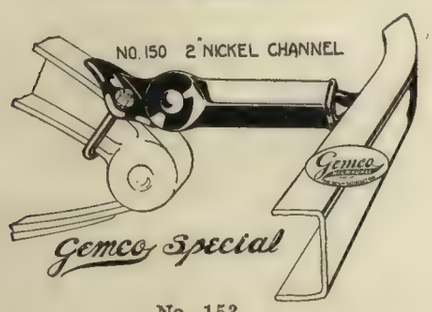
For Overland Cars.

The Frame Casting and Spring Housing are Integral, Two Strong Yokes are Used to Secure it to the Frame, High Grade Steel Bar.

	Each
No. 46—2 in. **Channel Bar**, Nickel Plated, Weight Each About 20 Lbs.	**$9.45**
No. 49—1¾ in. **Channel Bar**, Nickel Plated, Weight Each About 17 Lbs.	**8.30**
No. 55—1¼ in. **Diamond Bar**, Nickel Plated, Weight Each About 15 Lbs.	**9.90**

One Complete in a Box.

GEMCO SPECIAL



No. 153.

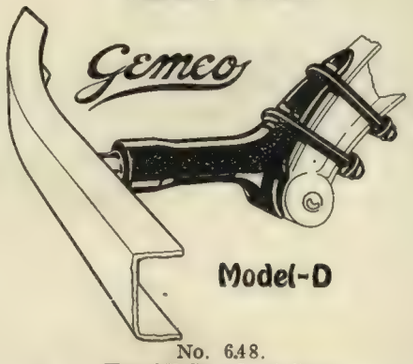
For All Standard Cars.

Clamp-On has an Adjustable Clutch which Enables the Bar to be Raised or Lowered to Meet Any Desired Angle, Black Enameled Castings, Heavy High Grade Steel Bar.

	Each
No. 153—1¾ in. **Channel Bar**, Nickel Plated, Weight Each About 17 Lbs.	**$7.20**
No. 159—1¼ in. **Diamond Bar**, Nickel Plated, Weight Each About 15 Lbs.	**7.75**

One Complete in a Box.

GEMCO IDEAL



No. 648.

For All Standard Cars.

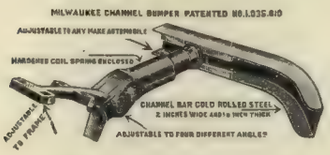
Two Strong Yokes Used to Secure to Frame, Black Enameled Castings, High Grade Steel Bars, the Strain of Any Shock or Thrust is Directly on the Car Frame.

	Each
No. 648—2 in. **Channel Bar**, Nickel Plated, Weight Each About 20 Lbs.	**$ 9.45**
No. 654—1¾ in. **Diamond Bar**, Nickel Plated, Weight Each About 18 Lbs.	**12.20**
No. 657—1¼ in. **Diamond Bar**, Nickel Plated, Weight Each About 15 Lbs.	**9.90**

One Complete in a Box.

Automobile Bumpers.

MILWAUKEE



For Any Standard Car.

Can be attached without drilling holes in frame. Each Bracket can be fastened onto the frame members independently. After both Brackets are properly fitted the Cross Bar can be slid into place and tightened by turning the hexagon part of the arms clockwise. The Arms are adjustable to four different angles which make possible a perfect horizontal adjustment of the bar in every case.

Each

No. GC52½—Very Best Cold Rolled Steel **Channel** Bar, 62 in. Long, 2 in. Wide, 1½ in. Deep and ⅛ in. Thick, Black Enameled Brackets, Nickel Plated Bar.....**$13.30**
Weight Each About 22 Pounds.
One Complete in a Box.

CONQUEROR

For Any Standard Car.

Can be attached without drilling holes in frame. Castings which support the Cross Bar are bolted to the frame castings and are provided with notches which admit a perfectly horizontal adjustment of the Cross Bar in all cases. Can also be used in the rear of most cars, providing the springs are not more than 1¾ in. deep.

Each

No. C44—Very Best Cold Rolled Steel **Channel** Bar, 62 in. Long, 2 in. Wide, 1 in. Deep and ⅛ in. Thick, Black Enameled Brackets, Nickel Plated Bar.....**$8.00**
Weight Each About 21 Pounds.

EXCEL

For Any Standard Car.

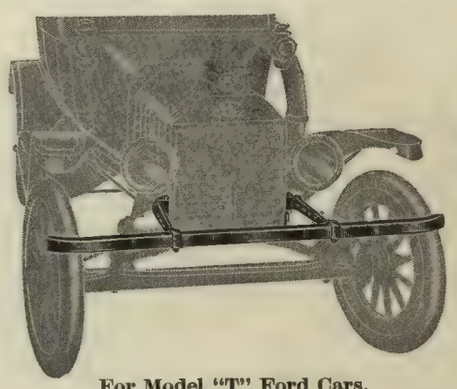
Can be attached without drilling holes in frame. Castings which support the Cross Bar are bolted to the Frame Castings and are provided with notches which admits a perfectly horizontal adjustment of the Cross Bar in all cases. Can also be used in the rear of most cars, providing the springs are not more than 1¾ in. deep.

Each

No. C41—**Channel** Bar 62 in. Long, 2 in. Wide, 1½ in. Deep, Black Enameled Brackets, Nickel Plated Bar, Cross Bar is Attached Like that on No. GC52½ Milwaukee Bumper.....**$9.75**

Weight Each About 21 Pounds.

MILWAUKEE, FOR FORD CAR



For Model "T" Ford Cars.

Easily Attached, Cold Rolled Steel Bar with Curved Ends.

Each

No. F100—62 in. **Channel Bar,** All Black Enameled Hard Rubber Finish **$7.20**
No. F101—62 in. **Channel Bar,** Black Enameled Brackets, Nickel Plated Bar..... **7.75**
Weight Each About 18 Pounds.

Order Springs by Stock Number Given Opposite Name and Model of Car in Above List. We Can Also Furnish Springs for Any Car Not Listed Above when Name, Model and Year of Car is Given.

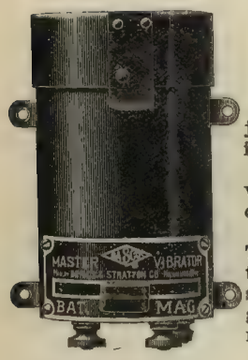
Specialties for Ford Cars

MASTER VIBRATORS

BRIGGS & STRATTON

Especially Adapted for Ford Cars.



Cut Shows No. 3 with Kick Switch.

The Master Vibrator is not a substitute for the dash coil but is used in conjunction with it, simply replacing the individual vibrators with which the dash coil is equipped.

The advantage of the Master Vibrator is that it is more sensitive than the coil vibrators and produces sparks of exactly the same intensity for each of the various cylinders of the engine.

The coil is of the double pole type and this accounts for its extreme sensitiveness. The construction is such that the vibrator will respond to very weak currents from the Ford magneto, **making starting on the magneto very easy**, nor will the vibrator suffer injury or become unbalanced at high speeds when an excessive current is generated. The contact points are of such liberal dimensions that adjustment is very rarely necessary.

Cut Shows No. 5 with Lock Switch.

With Kick Switch.

Each

No. 3—With Kick Switch, 4¼ in. High, 2½ in. Diameter, Round Metal Case, Black Enameled, Brass Brackets and Working Parts, Weight Each About 1¾ Lbs. **$10.00**

With Lock Switch.

Each

No. 4—With Lock Switch, 8 in. High, 4 in. Wide, 3 in. Deep, Switch is Operated by Pressure on One of Three Buttons, When in "Off" Position the Switch Can be Locked by Means of a Genuine Yale Pin Tumbler Cylinder Lock Thereby Insuring Against Theft of Car, Put up in Handsome Mahogany Finish Dash Box, with Two Gold Plated Corrugated Steel Keys, Weight Each About 3½ Lbs. **$16.30**

K. W.

Especially Adapted for Ford Cars.

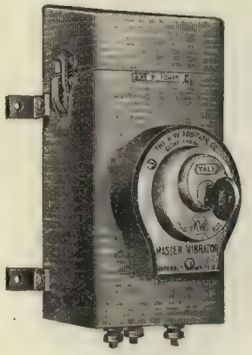
Cut Shows No. 5 with Kick Switch.

Takes the place of the Separate Vibrators on Coils, doing away with the Separate Vibrator Adjustments and giving one good Fast Vibrator and Powerful Condenser for all of them, thus giving absolute synchronism with a smoother running engine and more power. It will operate in connection with either Battery or Low Tension Magneto, or both, with any make of coil, by short circuiting the vibrators and letting the K. W. Master Vibrator work for all cylinders.

With Kick Switch.

Each

No. 5—With Kick Switch, 8 in. High, 4 in. Wide, 3 in. Deep, All Exposed Metal Parts are Made of Brass, Has Plug in Side which Can be Removed to Prevent Tampering with Machine When Not in Use, Mounted in a Handsome Mahogany Dash Box, Weight Each About 3¾ Lbs. **$25.00**



Cut Shows No. 10 with Auto Lock Switch.

With Auto Lock Switch.

Each

No. 10—With Auto Lock Switch, 8 in. High, 4 in. Wide, 3 in. Deep, Switch is Operated by Regular Yale Cylinder Lock and Key, All Exposed Metal Parts are Made of Brass, Mounted in a Handsome Mahogany Dash Box, Weight Each About 4 Lbs. **$26.65**

The K. W. Master Vibrator will cause every cylinder to fire its charge in exactly the same angular position of the crank shaft, thus making all cylinders act in unison with increased speed, and prevents them from operating against each other and losing power, as is the case when a separate vibrating coil is used for each cylinder. Is also an Auto-Synchronous Magnetic Circuit Breaker which times the spark more accurately, and when used with the Ford Magneto, gives a hotter spark than a high tension magneto.

Lock Switches

K. W.

For Ford Cars.

To Replace Kick Switch on Coil Box of Ford Cars, Enabling Owner to Lock His Car to Prevent Theft.

Each

No. 15—Brass, Yale Pin Tumbler Cylinder Lock, Two Keys **$5.75**

Weight Each About ½ Pound.

Specialties for Ford Cars.

TIMERS

MILWAUKEE

Designed for the Model T Ford Car and Will Fit the Late 1912, the 1913, 1914, 1915 and 1916 Cars.

The main case or cover is a one-piece aluminum casting, lathe turned to fit the counterbore of the engine gear cover. The contact surfaces are ground and insulated with the highest grade gray fibre, carrier is a bronze casting fitted with a wide, hardened tool steel roller.

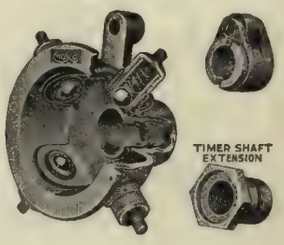
Each

No. FT18—Furnished without Oil Cup and Terminal Screws as These Parts Can be Taken from Old Timers, Weight Each About 12 Oz.....**$2.45**

No. FT19—Extra Brush Assemblies for Use with No. FT18 Milwaukee Timers..... .90

One in a Box.

BEMUS



Designed to Fit All 1912, 1913, 1914, 1915 and 1916 Model T Ford Cars.

Main case or cover is molded in one piece of an insulating material of great strength and toughness, impervious to any amount of heat, cold, moisture or grease. Into this insulator shell the four contact sockets are threaded and held firmly in place with lock washers. Contact is made by hardened tool steel brush engaging steel balls with short glancing impacts, both the brush and the balls turning each time so that fresh contacting surfaces are continually engaged. Mounting is direct on the time shaft by means of an extension piece.

Each

No. 20—Weight Each About 8 Oz.....**$3.30**

One in a Box.

GASOLINE GAUGES

For Ford Cars.

Numerals showing amount of gasoline are marked on an aluminum rod carried by a cork float, when locking lever on filler cap is released the float comes to the surface of the liquid, forcing the indicator rod through the cap. The numeral exposed at the filler cap shows the number of gallons in the tank.

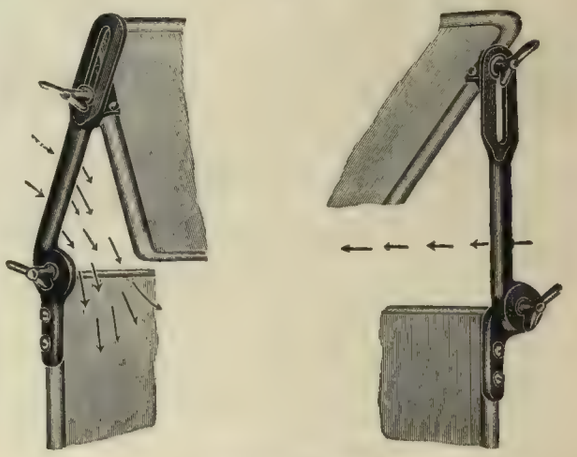
Each

No. 2—10½ in. Long, Weight Each About 3½ Oz.....**$1.00**

One in a Box.

WIND SHIELD BRACKETS

J. M.



For Ford Cars.

Converts a Standard Ford Wind Shield into one that may be easily and quickly adjusted. Affords perfect rain vision and ventilation in all weathers. Will fit any model car.

Per Pair

No. 67—14 in. Long Over All, Pressed Steel, Black Enameled **$4.45**

Weight Per Pair About 4 Pounds.

One Pair in a Box.

Specialties for Ford Cars.

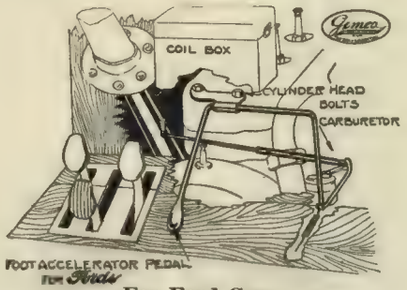
CUT-OUT OUTFITS

For Ford Cars.

Consists of cut-out bored to the proper size with 2 in. exhaust opening, spring, pulley, four feet of cable and a foot pedal.

	Each
No. 1—Outfit Complete as Described Above, with Foot Pedal No. 1	**$0.90**
No. 2—Outfit Complete as Described Above, with Foot Pedal No. 2	**1.00**

FOOT ACCELERATORS



For Ford Cars.

Is connected to the carburetor and can be operated perfectly independent of the hand control. Is attached by two of the cylinder head bolts and can be applied in a few minutes.

	Each
No. 725—Complete Ready to Install	**$1.55**

EXHAUST DEFLECTORS

For Ford Cars.

The position of the muffler exhaust on Ford cars is such that when spare tires are carried in the rear of the car, if not properly guarded against, the exhaust gases will strike the tire. The Exhaust Deflector attached to the end of exhaust pipe will deflect the gases downward or sideways away from the tire.

	Each
No. 57—Steel, Weight Each About ½ Lb	**$0.33**

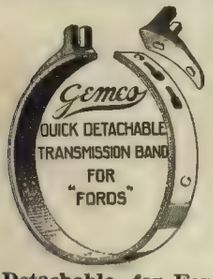
MUFFLERS

For Ford Cars.

Made entirely of pressed steel, electrically welded throughout. Interior construction is simple but absolutely effective. Has no back pressure effect on the motor.

	Each
No. 60—Complete with Steel Supporting Brackets, Ready for Attaching to Exhaust Pipe	**$3.80**

TRANSMISSION BANDS



Quick Detachable, for Ford Cars.

Made of heavy spring steel, lined with the very best grade of transmission brake lining, attached to spring bands are two drop forged ears, one of which is detachable and can be quickly removed.

	Each
No. 100—Quick Detachable, Saves Time in Changing Brake Band	**$2.20**

FORD VALVES

Electric Welded, Grey Iron Heads, Ground Seat, Nickel Steel Stem.

	Each
No. 3052—5 in. Long, Weight Each ¼ Lb	**$0.24**

HUB BRAKE SHOES

For Ford Cars.

	Each
No. 2566—Gray Iron	**$0.45**
No. B2566—Gray Iron, with Brake Lining	**1.20**

Weight Each About 2¼ Pounds.

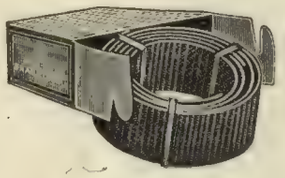
FORD SPRING HANGERS

Made from Best Material Obtainable, Carefully Carbonized and Accurately Machined.

	Each
No. 3813—Front Hanger	**$0.55**
No. 3840—Rear Hanger	**.55**

Weight Each About ¼ Pound.

BRAKE LINING



For Ford Cars.

	Per Box
J. M. Ford Special—1⅛ in. Wide, Woven from Specially Prepared Cotton Fabric, Each Box Contains Three Pieces 1⅛ in. Wide and 23 in. Long, with Brass Rivets, Enough to Reline All Brakes on Ford Car, Weight Per Box About 1 Lb.	**$1.80**
	Per Foot
J. M. Ford Special—1⅛ in. Wide, Any Length	**$0.22**
	Per Box
Raybestos Friction Facing—Asbestos Fabric, Each Box Contains 3 Pieces 1⅛ in. Wide, 23 in. Long, with Brass Rivets, Enough to Reline All Brakes on Ford Car, Weight Per Box About 1 Lb.	**$1.10**
	Per Foot
Raybestos Friction Facing—1⅛ in. Wide, Any Length	**$0.18**

Specialties for Ford Cars.

FORD CRANK CASE OIL GAUGE

Brass Top and Base, Iron Pipe Extension.

	Each
No. 139 —⅝ in. Glass	$0.30
No. 139A—¾ in. Glass	.40

Weight Each About 4 Ounces.

BREATHER AND OIL FILLER

Steel Case, Hinged Cover with Spring Fastener, Brass Sieve.

	Each
No. 177—6 in. Long, Black Japanned	$0.90

Weight Each About 1¼ Pounds.

FORD SPRING OIL CUP

Open.

Brass.

	Per 100
No. 2715—¾ in. Long, All Brass, Knurled Head	$10.00

IGNITION HARNESS

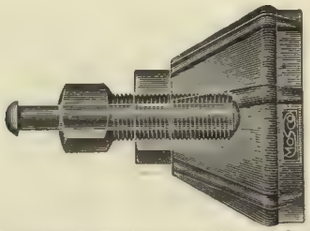
Cable Manifolds for Wiring Ford Cars.

	Per Set
No. 158—American Cable, Furnished Complete in Rubber Tipped Loom with Vari-Colored Cables and Terminals, All Cables Correct Lengths	$0.90

Weight Per Set About 8 Ounces.

WHEEL PULLERS

MOSCO

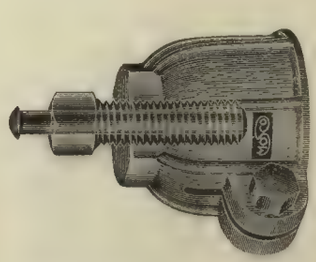


For Overland, Buick and Maxwell Cars.

Made of Semi-Steel, Ribbed Construction, Black Japanned, Loose Plunger Extends Through Center of Screw which Affords a Means of Starting a Wheel which Comes off Hard or is Frozen to the Axle.

	Each
No. 3—For Overland Cars, Models 60F and 60T, 1912; Models 69R, 69RE, 69F, 69T and 69TE, 1913; Models 79R, 79RE, 79T and 79TE, 1914; Models 80RE, 80TE, 81RE, 81TE, 75, 83T, 83R, 83 Delivery, 1915	$1.65
No. 4—For Buick Cars, Models 10, 32, 33, 34, 35, 36, 26, 27, 24, 25, B24, B25, C24 and C25	1.65
No. 5—For Buick Cars, Models 16, 17, 19, 21, 28, 29, 30, 31, 41, B36, B37, B38, C36 and C37	1.85
No. 6—For Maxwell Cars, Models 25, 1914 and 1915	1.65
No. 7—For Maxwell Cars, Model 25, 1916	1.65

Weight Each About 3 Pounds.



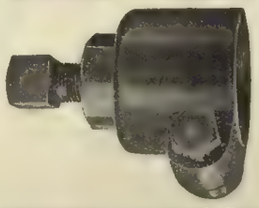
Adjustable, for Ford Cars.

Made of Semi-Steel, Ribbed Construction, Black Japanned, Loose Plunger Extends Through Center of Screw which Affords a Means of Starting a Wheel which Comes off Hard or is Frozen to the Axle.

	Each
No. 2—For Ford Cars, Fits All Cars Equipped with Tapered Rear Axles, Adjustable to Any Hub Thread	$1.00

Weight Each About 1½ Pounds.

WHEEL PULLERS



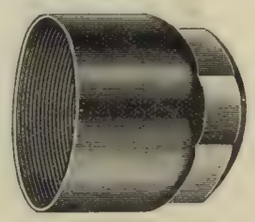
Adjustable, for Ford Cars.

Malleable Iron, Black Japanned.

	Each
No. 137—For Ford Cars, Adjustable to Any Hub Thread	$0.65

Weight Each About 1½ Pounds.

FORD HUB CAPS



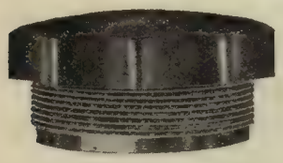
Polished Brass.

	Each
No. 133—Plain	$0.32

Weight Each About 3 Ounces.

Specialties for Ford Cars

FORD RADIATOR CAPS

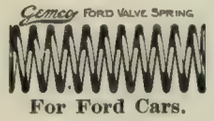


For Ford Cars.

	Each
No. 143B—Brass, Hard Black Rubber Top	$0.40

Weight Each About 4 Ounces.

VALVE SPRINGS



For Ford Cars.

Made in Exact Accordance with the Regular Ford Specifications and are Interchangeable with the Standard Spring.

	Per 100
No. 12—2⅞ in. Long, No. 12 Gauge Best Quality Oil Tempered Wire	$7.20

VALVE LIFTERS

Malleable Iron and Steel Construction, Black Enameled.

	Each
Radium Valve Lifters—8½ in. Long, Jaws 1½ in. Wide	$1.30

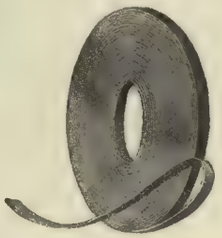
Weight Each About 1 Pound.
One in a Box.

FAN BELTS

Made from Selected Hides, Specially Treated, Water, Oil and Heat Proof, Lap Stitched.

	Each
No. 5—For Ford Cars	$0.45
No. 10—For Overland Cars	.55

FAN BELTING



Made from Selected Hides, Specially Treated, Water, Oil and Heat Proof.

	Per Foot
No. 15—1 in. Wide	$0.22

BELT FASTENERS

	Per 100 Inches
No. A1—1 in. Wide, Bright Steel	$1.65

FAN BELT GUIDES

For Ford Cars.

A Very Useful Device, Providing a Safeguard Against the Trouble of Belt Slipping on Greasy Fan Pulleys, Readily Attached to Side of Timer Gear Housing, without Extra Hole or Bolt.

	Each
No. 25—For 1 in. Belt, Entire Length 2½ in., Semi-Steel	$0.30

Weight Each About 4 Ounces.

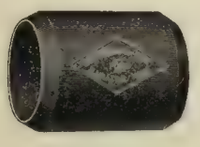
RADIUS RODS

For Ford Cars.

Auxiliary Front, For Reinforcing Regular Rods, One End Fastens to the V Shaped Stud Near the Ball Socket, Other End to Lower Side of Axle, Keeps Axle True and Makes Steering Easier.

	Each
No. 701—Made from Strong Steel	$2.80

RADIATOR HOSE



For Ford Cars.

3 Ply, with Capped and Beveled Ends.

Diameter, Inches	1¾	2
Length, Inches	2¾	3¼
Each	$0.17	.20

3 Ply, Square Cut Ends.

Diameter, Inches	1¾	2
Length, Inches	2¾	3¼
Each	$0.13	.17

RADIATOR HOSE CLAMPS

For Ford Radiator Hose.

Sherardized Iron.

	Each
No. 70—2⅛ in., for Inlet	$0.05

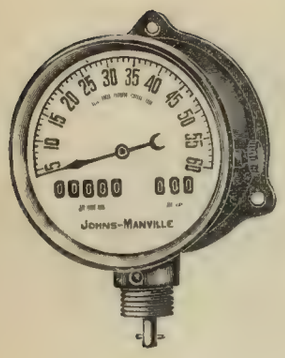
No. 101-N—Black Hard Rubber Finish, Nickel Plated Rim **3.65**
Weight Each About 2¼ Pounds.

Speedometers

J. M.

For Ford Cars.



Speed Scale 5 to 60 Miles, the Speed Hand Cannot Interfere with the Trip or Season Odometer Readings. The Speed of Car Can be Read at a Glance by Noting the Angle of the Hand. Self-Enclosed Odometer Registers Cumulative Season's Mileage up to 100,000 Miles, and Trip Mileage (Miles and Tenths up to 10 Miles) Tenths in Red Figures. Trip Mileage May be Reset to Any Figure Desired by Revolving the Reset Knob on Side of Instrument. This Feature Enables the Determination of Trip Runs without Disturbing Total Mileage.

Each

J. M. Ford Speedometers—3¼ in. Standard White Dial, Complete with All Fittings, Weight Each About 6 Lbs. **$13.30**

The J. M. Speedometer is the last word in simplicity, for the number of parts has been reduced to a minimum; there are no hair springs or magnets or delicate parts that severe jolting and rough riding can put out of order.

The parts comprise merely a governor shaft, a worm drive, an odometer movement, and a small section for operating the indicating hand.

Automobile Clocks

DUANE

One Day, Stem Wind and Set.

To be Fastened to Dash or Cowl-Board with Screws.

Each

No. 10—3½ in. High, 2⅞ in. Wide, Seamless Brass Case, Heavily Nickel Plated, Watch May be Removed from Case and Carried in Pocket. . . . **$3.10**

Per Dozen

No. 4—6 in. Barrel, Well Made.....**$2.25**

Weight Per Dozen About 1⅜ Pounds.

Pump Connections.

HAND

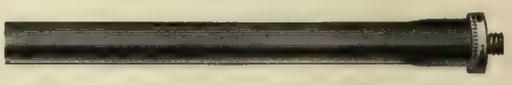
Per Dozen

No. 3—For Regular Style Hand Pumps.....**$0.70**

No. 7—For No. 35 Telescopic Pumps..... **1.45**

Weight Per Dozen About ½ Pound.

FOOT



Per Dozen

No. 8—18 in. Long, for Shop Pump, Fitted with Connections **$3.35**

No. 18—12 in. Long, for Regular Foot Pumps, Fitted with Connections **1.70**

Weight Per Dozen About ¾ Pound.

Pump Hose Couplings.

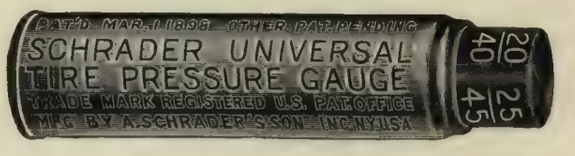
For Foot Pumps.

Per Dozen

Keno—Steel Threaded Part, Absolutely Airtight, Indestructible..... .....**$2.50**

Weight Per Dozen About ½ Pound.

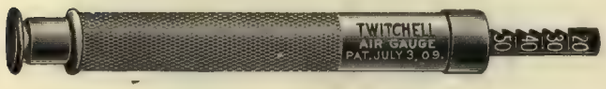
Tire Pressure Gauges.

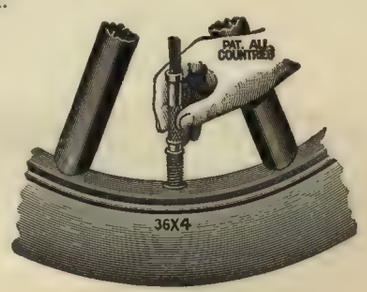


Each

Schrader Universal—For Ascertaining the Exact Pressure in Automobile Tires **$1.70**

Weight Each About $\frac{3}{16}$ Pound.





Each

Twitchell—Pencil Type Gauge, Positive Lock Stop, for Ascertaining the Exact Pressure in Automobile Tires.....**$1.70**

Weight Each About ⅛ Pound.

Bicycle Cyclometers.

Veeder Regular.

Bicycle Cyclometer Bracket.

Spoke Pin.

Veeder Trip.

Regular, for Bicycles.

	Each
Veeder—Nickel Plated, Registers up to 10,000 Miles and then Automatically Repeats. Weight Each About $\frac{3}{16}$ Pound.	**$1.30**

For Bicycles.

	Each
Veeder Trip—Nickel Plated, Large Dial Registers up to 10,000 Miles, Small Dial Registers Trip Mileage up to 100 Miles. Weight Each About ¼ Pound.	**$2.80**

	Each
Extra Cyclometer Brackets—For Veeder Regular and Veeder Trip Cyclometers	**$0.30**
Extra Cyclometer Spoke Pins—For Veeder Regular and Veeder Trip Cyclometers	**.30**

Motorcycle Cyclometers.

Cyclometer Bracket.

Spoke Pin.

For Motorcycles.

	Each
Veeder Motorcycle Trip—Nickel Plated, Large Dial Registers up to 10,000 Miles, Small Dial Registers Trip Mileage up to 100 Miles, Weight Each About ½ Lb.	**$4.20**
Extra Cyclometer Bracket—For Veeder Motorcycle Trip Cyclometer	**.70**
Extra Spoke Pins—For Veeder Motorcycle Trip Cyclometer	**.45**

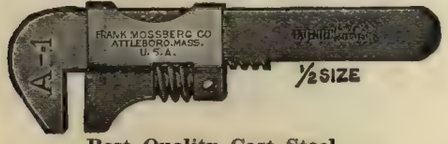
Bicycle Oilers.

Star.

	Per Dozen
No. 10—Nickel Plated, Very Strong Spring	**$1.00**

Weight Per Dozen About ⅜ Pound.

Bicycle Wrenches.



Best Quality Cast Steel.

	Per Dozen
No. A1—Dull Finished, Hardened Jaws, Length 5 in., Thickness of Jaws $\frac{5}{16}$ in., Opens 1¼ in.	**$2.00**

Weight Per Dozen About 3¼ Pounds.

Diamond.

	Per Dozen
No. 10—Best Quality Tool Steel, Hardened Jaws, Nickel Plated, Length 5 in., Thickness of Jaws $\frac{5}{16}$ in., Opens 1¼ in.	**$3.35**

Weight Per Dozen About 3¼ Pounds.

Rubber Cements

Rubber Cement for Tires.
Best Quality.

Per Dozen
No. 10—4x¾ in. Collapsible Metal Tubes **$0.67**

Weight Per Dozen About 1 Pound.

Rubber Cement for Tires.
Best Quality.

Per Dozen
No. 16—4 Oz. Tin Cans, Weight Per Dozen About 3⅝ Lbs.. **$1.80**
No. 20—½ Pt. Tin Cans, Weight Per Dozen About 6½ Lbs.. **3.35**
No. 25—1 Pt. Tin Cans, Weight Per Dozen About 11½ Lbs. **6.15**

Rim Cement.

Rim Para Shellac for Rims.

Extra Heavy Consistency.

Per Dozen
No. 5—2 Oz. Square Bottles, with Swab **$2.25**

For fastening bicycle tires to rims, and grips to handle bars. Does not evaporate. Dries gummy and elastic.
Weight Per Dozen About 4¾ Pounds.

Wood Rim Cements.

Per Dozen
No. 30—4x¾ in. Collapsible Metal Tubes **$0.67**

Weight Per Dozen About 1 Pound.

Per Dozen
No. 35—4 Oz. Tin Cans, Weight Per Dozen About 3⅝ Lbs.. **$1.35**
No. 40—1 Pint Cans, Weight Per Dozen About 11¾ Lbs..... **3.90**
No. 45—1 Quart Cans, Weight Per Dozen About 25¼ Lbs.. **6.70**
One Dozen in a Box.

Per Dozen
No. 50—2 Oz. Bottles, Cork with Swab **$1.15**

Weight Per Dozen About 4¼ Pounds.

Hard Tire Cement.

For Fastening Tires on Wood or Steel Rims the First Time.

Per Pound
No. 01—In 1 Lb. Cakes..... **$0.40**

Per Dozen
No. 04—In 4 Oz. Cartons..... **$1.70**

Weight Per Dozen About 3½ Pounds.

Pritzlaff Quick Repair.

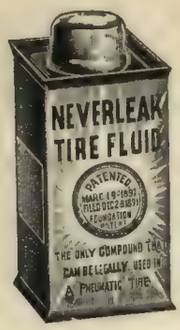
For Repairing Single Tube Tires.

Per Dozen
Quick Repair—4x¾ in. Collapsible Tubes..... **$1.35**

Weight Per Dozen About 1⅛ Pounds.

One Dozen in a Box.

Neverleak Tire Fluid.



For Injecting Into Pneumatic Tires Making Same Leak Proof.

Per Dozen
No. 100—4 Oz. Tubes.....**$3.90**

Weight Per Dozen About 5¾ Pounds.

One Dozen in a Box.

Each
No. 102—1 Gallon Cans.....**$5.60**

Weight Each About 11½ Pounds.

Per Assortment
Tip Top Assortment—Consisting of 1 Gross 4 Oz. Tubes, Packed with 24 Premium Certificates **$43.35**

Weight Each About 77 Pounds.

Tire Balm.

Heals Punctures and Leaks in Pneumatic Tires.

Per Dozen
No. 50—4 Oz. Tubes.....**$1.80**
Weight Per Dozen About 5 Pounds.

Each
No. 75—1 Gallon Cans.....**$2.80**
Weight Each About 11½ Pounds.

Chain Lubricant.

Per Dozen
No. 25—Black, ⅞x2½ in.....**$0.45**

Weight Per Dozen About ¾ Pound.

Soapstone.

Per Dozen
Soapstone—In 1 Lb. Paper Boxes, with Sifter Top **$1.56**

Used to prevent Inner Tubes from sticking to the inside of Outer Casing.

Weight Per Dozen About 12½ Pounds.

Bicycle Enamel.

Best Quality, ¼ Pint Cans.

Per Dozen
No. 1—Black **$1.56**

No. 2—White, Blue, Green and Maroon..... **2.00**
Weight Per Dozen About 5½ Pounds.

Bicycle Oil.

Per Dozen
No. 15—In 2 Oz. Bottles **$0.80**

Weight Per Dozen About 3¾ Pounds.

REEL SEATS

Handy, Self-Adjusting, Nickel Plated.

Per Dozen

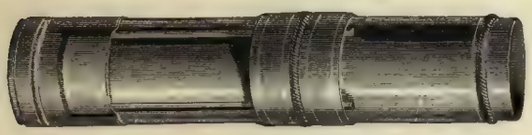
No. 1—6½ in. Long, for All Ordinary Rods..... $3.00

Weight Per Dozen About 1⅛ Pounds.

Can be applied to any size rod without cutting or fitting. Especially adapted for Calcutta and Bamboo Poles.

One Dozen in a Box.

REEL SEATS



No. 10—Above Hand, Solid Metal, Nickel Plated, for Bait Rods.

Size, Inches	¾	⅞	1
Full Length, Inches	4⅝	4⅝	5⅛
Per Dozen	$3.75	4.00	5.00

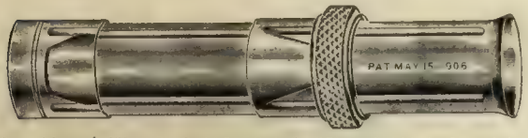
Approximate Weight Per Dozen About ¾ Pound.

No. 20—Below Hand, Solid Metal, Nickel Plated, for Fly Rods.

Size, Inches	¾	⅞
Full Length, Inches	4⅝	5
Per Dozen	$3.75	4.00

Approximate Weight Per Dozen About ¾ Pound.

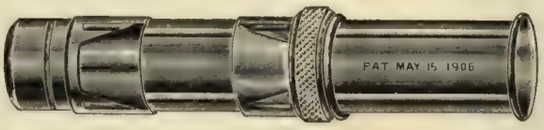
PATENT LOCKING BAND, REEL SEATS



No. 30—Above Hand, Solid Metal, Nickel Plated, with Taper Hood Attached for Bait Rods.

Size, Inches	¾	⅞
Full Length, Inches	6	6
Per Dozen	$12.00	14.00

Approximate Weight Per Dozen About ¾ Pound.



No. 40—Below Hand, Solid Metal, Nickel Plated, for Fly Rods.

Size, Inches	¾	⅞
Full Length, Inches	5½	6
Per Dozen	$12.00	14.00

Approximate Weight Per Dozen About ¾ Pound.

The Patent Locking Band locks the Reel to the Seat so it cannot work loose.

The Band Ring slides upon two raised ribs preventing "side play," and when turned slightly to right or left securely locks the Reel.

INSTRUCTIONS FOR USING PATENT LOCKING REEL SEAT

When these plates have been cut off to the length wanted, the **Hood** must be soldered water-tight to the plate.

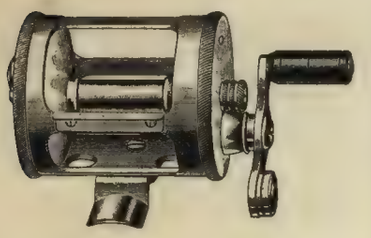
B. F. MEEK & SONS

IMPROVED "BLUE GRASS SIMPLEX"

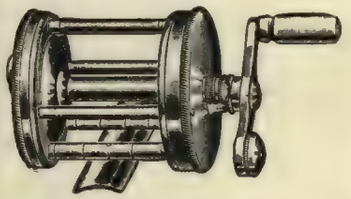


German Silver and Brass, Nickel Plated, One Piece Hard Drawn Brass Rod Gear, Stubs Steel Pinion, Cut on Rod Running through Spool, thus Making Pivots and Pinion One Solid Piece, Pivots are Tempered and Ground, Has **Scrolled Aluminum Thumb Rest,** Oil Tempered Steel, Back Sliding Click Drag.

Each

No. 33—Simplex, Capacity 120 Yards No. 5 Kingfisher Line, Diameter of Spool 1⅝ in., Length of Spool 1⅝ in., Outside of Frame 1¾ in., Weight Each About 9 Oz. **$12.25**

The Frame is made from one piece of seamless tubing, threaded on the interior. The Front Plate is rigidly fixed in Frame and carries bearing for both gears and front pivot of Spool.



German Silver, Imported Stubs' Steel Pinion and Gear Stud, Tempered, Ground and Polished, Oil Tempered Steel Spring and Back Sliding Click.

Each

No. 025—Simplex, Capacity 85 Yards No. 5 Kingfisher Line, Diameter of Spool 1⅜ in., Length of Spool 1½ in. Outside Diameter of Frame, 1 13/16 in., Weight Each About 9 Oz. **$16.70**

This Reel can be easily taken apart for cleaning and oiling, by unscrewing Cap at back end and Thumb Nut on front end of Reel. Back Cap has left hand thread to prevent unscrewing when casting.

The front plate is intended to remain in the frame permanently and it is not necessary to remove it to clean and oil the Reel.

Dry Flies.

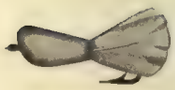
Per Dozen

Dry Flies—Tied on Nos. 12 and 14 Bronzed Pennell Turned Up Eye Sneck Hooks, **with or without** Gut Attached, **Mailed from Factory** **$1.80**

Can furnish Dry Flies in the following patterns: Black Gnat, Black Quill, Cow Dung, Coachman, Green Wells Glory, Grizzly King, Halford's Red Spinner, Golden Ribbed Hare's Ear, Golden Dun, Ginger Quill, Huffland's Fancy, March Brown, White Miller and Willow.

These Flies are made to closely represent the small insect found on the surface of the water. When lightly cast on not too rapidly running water, they will float naturally and results obtained are much better than with the sinkable fly.

Trout Flies.



Coaxer Floating.

Per Dozen

Coaxer—Cork Body, Tied on Nos. 7 or 10 Hollow Point Sproat Hooks.... **$4.50**

Prepared Shiners.

In Glass Jars. Per Dozen Jars

No. 21—Small Size, for Still Fishing, 1 Pint Jar Contains About 200 Minnows..... **$3.90**

No. 22—Medium Size, Mixed, for Still Fishing and Casting, 1 Pint Jar Contains About 150 Minnows **3.90**

No. 23—Large Size, for Casting, 1 Pint Jar Contains About 100 Minnows..... **3.90**

Always ready for the hook. They are just as shiny and plump as the day they were caught. You can carry them any distance without the sun or weather affecting them in the least. Pickerel and bass will snap at one the minute they see it, because they are enticing; just the same in color and shape as live shiners. Are put up in 1 pint jars, securely sealed. You can carry them in your grip or pocket.

Approx. Weight Per Dozen Jars 21 Pounds.

One Dozen in a Case.

Trout Baskets.

Nets.

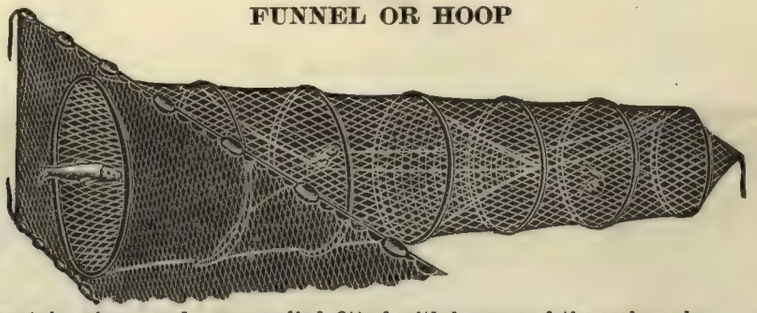
FUNNEL OR HOOP

Write for Discount.



Funnel Nets do not contain wings, and are supplied fitted with hoops and the webs only.

Fyke Nets are the same as Funnel Nets, but are fitted with a wing each side. These wings are hung on rope fitted with floats and sinkers.

When ordering it is necessary to state Number of the Net only, and specify if a Funnel Net or Fyke Net is wanted. These Nets will always be furnished in white, unless Tarred Nets are ordered.

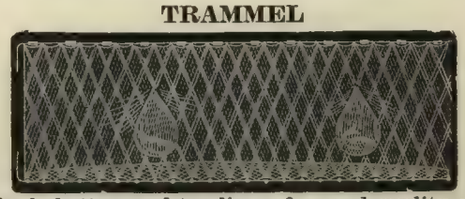
These Nets are Made to Order and Cannot be Exchanged.
All Tarred Work at Owner's Risk.

TRAMMEL



Our Trammel Nets are hung on a single bottom and top line, of a good quality of cotton rope. They have three nets: the two outside nets called walling have large mesh of cotton twine; the inside net is made in a small mesh and of good quality of Linen Thread. This inside netting is exactly one-half deeper than the outside walling, or depth of net, so that a net 5 ft. deep will have inside netting 7½ ft. deep hung measure, allowing 2½ ft. of extra netting to pocket the fish. When fish strike the net from either side they draw the inside netting through the large outside mesh or walling, thus forming a bag which holds the fish, from which they cannot escape. These nets, therefore, are all fitted with ample amount of inside netting assuring a large catch.

Fitted with Floats and Leads Complete, Price Per Yard.

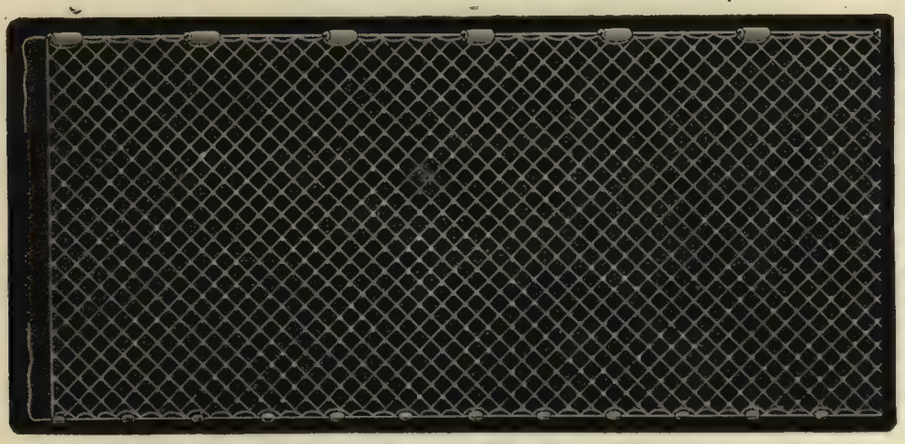
LINEN GILL OR SET



Hung Ready for Use.

These Nets are used for catching Whitefish, Trout, Pickerel, Bass, Ciscoes, Mullets, Perch, Suckers, Carp, etc. If you are not certain of exact size mesh necessary, write us what kind of fish, weight, etc., you intend to catch. These Nets are made of a fine **Linen Thread** which gills the fish, and has a single net hung on cotton lines, fitted with floats and leads complete.

These Nets are hung on ½ basis in length, which will gill the fish better than if hung on ⅓ basis. So that a Net of 100 yards long will have Netting 200 yards stretched hung into 100 yards on the line. This adds more in depth, so that it requires less number of mesh in depth than if estimated on ⅓ basis.

Price Per Running Yard, Hung Measure.

MINNOW, CREEK AND SMALL MESH

We wish to draw your attention to the size of mesh in our Minnow Seines, which are made exact size and not with a large size mesh as supplied by others. These Nets are made so that they will measure the required depth, and for ¼ inch mesh it requires 36 mesh for every foot or 144 mesh for 4 ft. deep, and for ⅜ inch mesh it requires 24 mesh for every foot or 96 mesh for 4 ft. deep.

We furnish the ¼ inch mesh made of 20/6 Cotton Cable Twine only, and not of a heavier twine nor a linen twine, although the ⅜ inch mesh can be supplied of 9 thread cotton twine at an advanced price.

These Nets are fitted with more floats and leads than formerly, as it is very important to have plenty of leads on same to keep the lead line snug on bottom.

Minnow Seines are hung on a good grade of Cotton Line with single top and single bottom lines, floats are spaced 2 ft. apart and leads 8 inches apart (one under each float and two between). The Creek Seines in ½ and ¾ inch mesh are hung on still heavier Cotton Lines, with larger floats spaced 2½ ft. apart and heavier leads, 15 inches apart.

MINNOW SEINES

Add for Tarring or Barking, 15% Extra.

Our Straight and Tapered Seines are hung on a good grade of Tarred Net Rope, with a single line at top and double lines at bottom. These bottom lines consist of one rope right lay, the other rope left lay, which prevents the bottom lines from rolling. The size of mesh in all our Nets will be exactly as specified and not ⅛ or ¼ inch larger, which some of the **dealers supply,** as it requires less amount of netting.

We hang our Seines on one-third basis which is necessary to allow ample amount of netting to fish successfully. As the Netting is hung on the customary diamond shape, it requires the following number of mesh to every foot, viz.: in 1 inch, square mesh, 9 meshes to a foot; 1½ inch, 6 meshes to a foot; 2 inch, 4½ meshes to a foot; 3 inch, 3 meshes to a foot, etc., so that a Seine 6 ft. in depth and 1 in. mesh will have 54 meshes in depth and a seine 6 ft. deep, 1½ in. mesh, will have 36 meshes in depth.

By following the above basis it is a very simple matter for you to determine the exact depth of Nets, also to satisfy yourself that you have the required number of meshes in depth.

All our Seines and Cotton Netting are made of the celebrated **Gold Medal Twine,** which is manufactured especially for fishing purposes. This is a very high grade of twine, made of a true ten-yarn twine of best quality of cotton. To determine the size of twine, simply unravel the strands and count the number of threads.

All Sizes of Mesh are Square Measurement.

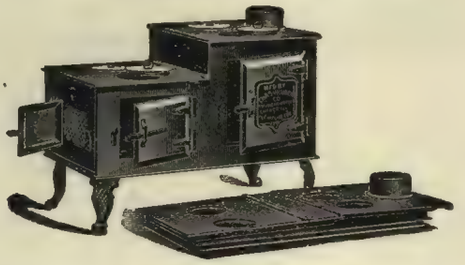
THE SPORTSMAN'S FRIEND



Cut Showing No. 1 Stove Ready for Use and Folded Ready for Traveling.

20 Gauge Sheet Steel.	Each
No. 1—Folding, 29 in. Long, 17 in. Wide, 16 in. High, 7 in. Long Back Legs, Stove 23 in. High Overall when in Use, 5 in. Pipe Hole, 5 in. Cooking Hole, Oven 11 in. High, 10 in. Wide, 17 in. Deep	**$22.25**
No. 10—Not Folding, Otherwise Same as No. 1, Weight Each About 38 Lbs	**17.75**

Damper—The Damper Attachment regulates the heat by three movements. By pulling the Damper out as far as it will come will cause the heat to come around over the top of the Oven, so you can cook and fry on the four holes. By pushing the Damper in half way it will give uniform heat at the top and bottom of the oven. By pushing the Damper as far as it will go it will cause the entire heat to go around the bottom and rear of Oven, which will heat the Oven for baking or roasting.

For Prospectors, Miners, Woodsmen, Sportsmen, Jockeys, Circuses, Picnic Parties, Private Families, Summer Kitchens, Tents, and for all kinds of other uses these Stoves are just what you want.

Shipped Only from Factory, F. O. B. Chicago.

Racine Spring Exercisers.

Nickel Plated Oil Tempered Spiral Springs, Suspended from a Steel Swivel Top, Steel Handles, with Ebony Finished Massage Roller Grips, Springs May be Extended 7 Feet.

	Per Set
No. 1—Light Tension, for Women and Children	$3.80
No. 2—Medium Tension, for Women and Men	4.50
No. 3—Strong Tension, for Athletes	5.25

Approximate Weight Per Set 2¼ Pounds.

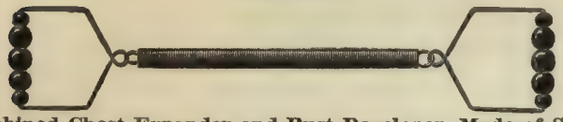
Above are complete with chart illustrating 42 different movements, and instructions in physical culture and deep breathing. The Racine Spring Exerciser is absolutely noiseless, and, if used as directed in our chart instructions, will last indefinitely. In our patent swivel top we have a feature not found in any other exerciser. A great variety of movements are possible and one may change from any position without releasing hold on handles.

The Racine Exerciser can be instantly changed from a down pull to an up pull and vice versa, and the springs may be quickly detached from the swivel top and attached to screw hooks at any other point, thereby getting pulls from many desired angles.

The handles can be detached from springs in an instant and attached to the ends of a single spring, making an ideal chest expander.

Chest Expanders.

RACINE



Combined Chest Expander and Bust Developer, Made of Same Material as Used in the Racine Spring Exerciser.

	Each
No. 1—Light Tension, for Women and Children	$2.25
No. 2—Medium Tension, for Women and Men	2.25
No. 3—Very Strong, for Athletes	2.25

Approx. Weight Each 1¼ Pounds.

Complete with Chart showing 47 movements and deep breathing instructions.

The exerciser is designed for those who do not desire a more expensive apparatus; it requires no fastenings to operate, and is therefore very convenient for travelers, being light and taking up very little space.

Massage Grips.

IDEAL

A Combined Grip Machine and Massage Roller, for Strengthening the Hands, Wrists and Forearms, and Massaging the Muscles, Abdomen and Stomach.

	Per Pair
No. 50—Music Wire Grips, Heavily Nickel Plated, Ebony Finished Handles, Complete with Instruction Sheet	$1.50

Approx. Weight Per Pair ½ Pound.

Specially beneficial to telegraph operators, pianists, bookkeepers and those who use the muscles of their hands and wrists in their daily toils.

Each

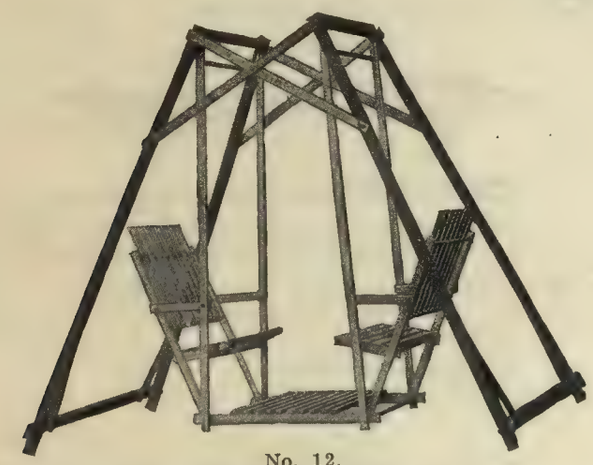
No. 8—Four Passengers, Width of Seats 32 in., Weight Each About 135 Lbs. **$10.00**

The above are first class Swings made from selected stock. Very strong and substantial. The braces supporting the Chairs extend down to the second round from the bottom and being out of the way of the occupants do not curtail the seat space. The Chairs have three adjustments, the Chair Backs always have the same relative position at the Seat Arm, where it is hinged, the adjustment being where the Seat rests on the round, thus never throwing the occupant forward between the swing bars. The foot rests can be raised level with the Seats to form a Hammock. To adapt the height of the Seat to children the Foot Rest can be raised to the second round from the bottom.

The Frames are painted in Bright Vermilion, the balance of the Swings are natural Wood Finish, Varnished.

MILWAUKEE



No. 12.

Hardwood, Bright Vermilion Frame, Balance Natural Finish and Varnished, Height 8 ft., Ground Space 8 ft. 8 in. by 5 ft. 8 in., Full Bolted. Each

No. 5B —Extra Bladders, for Nos. 10W, 15W, 20W, 30W and 40W Volley Balls..... **13.35**

This is a new game which can be played out of doors as well as in the gymnasium. Any number of persons can play the game. The play consists of keeping the ball in motion over a high net from one side to the other. Volley Ball has been adopted by the playground associations and school boards as a good game for the boys and girls.
Average Weight Each About 1½ Pounds.

We can furnish Reach Catalogs containing the Resale Prices on the above items.

HOW TO ORDER ROOFING AND SIDING **Prices on Application.**

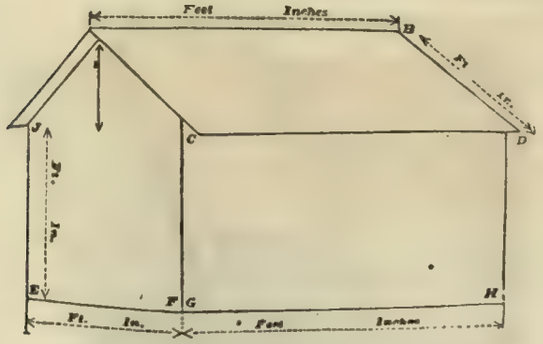

Fig. No. 55—For Ridge Roof Buildings.

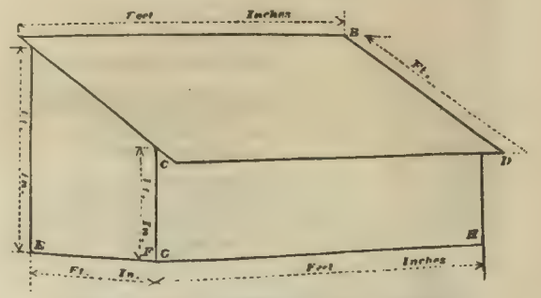

Fig. No. 56—For Shed Roof Buildings.

Allowing in above cases for necessary projection at eaves, ends, etc. Allow Corrugated Roofing 3 inches pitch, or more, to the foot.

Lead Washers.

Will Prevent Leaks in Roofing and Siding Walls When Used as Per Illustration.

Nos.	2	1
Diameter of Hole, Inches	⅝	½
Per Pound	$0.25	.25

No. 2 is the Standard Size, generally used with 1¾ inch Wire Nails. One Hundred Pounds in a Box.

These Washers make an Absolutely Water-Tight Joint on any surface, whether concave, convex or flat; they also prevent Rust and the head from cutting into the sheet, thus making a more durable job.

Roofing Cement.

PECORA

For Laying and Repairing All Kinds of Tin and Metal Roofs.

	Per Pound

Metal Corners are being very extensively used and are very popular with the carpenter. They take the place of cornerboards to finish the corner of the building when weatherboard or lap siding is used. Time and expense is saved because it is not necessary to mitre the Weatherboard siding. The mitre effect is perfect and the appearance superior to wood corner-board.

Metal Ceilings and Side Walls.

"Invisible Joint"

REPRESSED BEADS **DIE CUT NAIL HOLES**

"Invisible Joint" metal ceilings are furnished with repressed beads and die cut nail holes, thereby eliminating one-third of the cost of erection, as each plate fits perfectly, because made from dies milled to the 1/1000 part of an inch. The erector can give his customer a perfect fitting ceiling at a very low cost for erection. The punched nail holes eliminate the necessity of driving nails through four thicknesses of steel on the corners of the plates and save wear and tear. All plates are trimmed on four sides by an automatic process, which leaves the corners rounded instead of square, eliminating bending or turning in handling.

DIE CUT NAIL HOLES. REPRESSED BEADS.

"Invisible Joint" metal ceilings embody the best thought and skill of the most experienced designers and artisans in ornamental metal.

The designs represent the last word in metal ceiling manufacture and disclose at a glance the influence of a master mind and the touch of a master hand imbued with a full appreciation of the beautiful. We are continually adding new designs with up-to-the minute patterns and creations.

The "Invisible Joint" greatly simplifies the erection of steel ceilings and all joints are absolutely tight—no calking required. They can be applied to bare joists or over old plaster, without removing it, by furring with ⅞x1¼ in. strips for the lapping joints, or to solid wood sheathing without strips.

CLEAN CUT NAIL HOLES SAVE MECHANIC'S FINGERS

The Punched Nail Hole Means a Better Job at Lower Cost.

Complete Catalog will be Sent on Application.

Metal Ceilings.

"Invisible Joint"

STUCCO No. 2278

Cornice (9 in. Deep), No. 2231; Filler, No. 1743; Moulding No. 1925; Field, No. 2206.
This stucco plate offers unlimited possibilities of tasteful decoration.

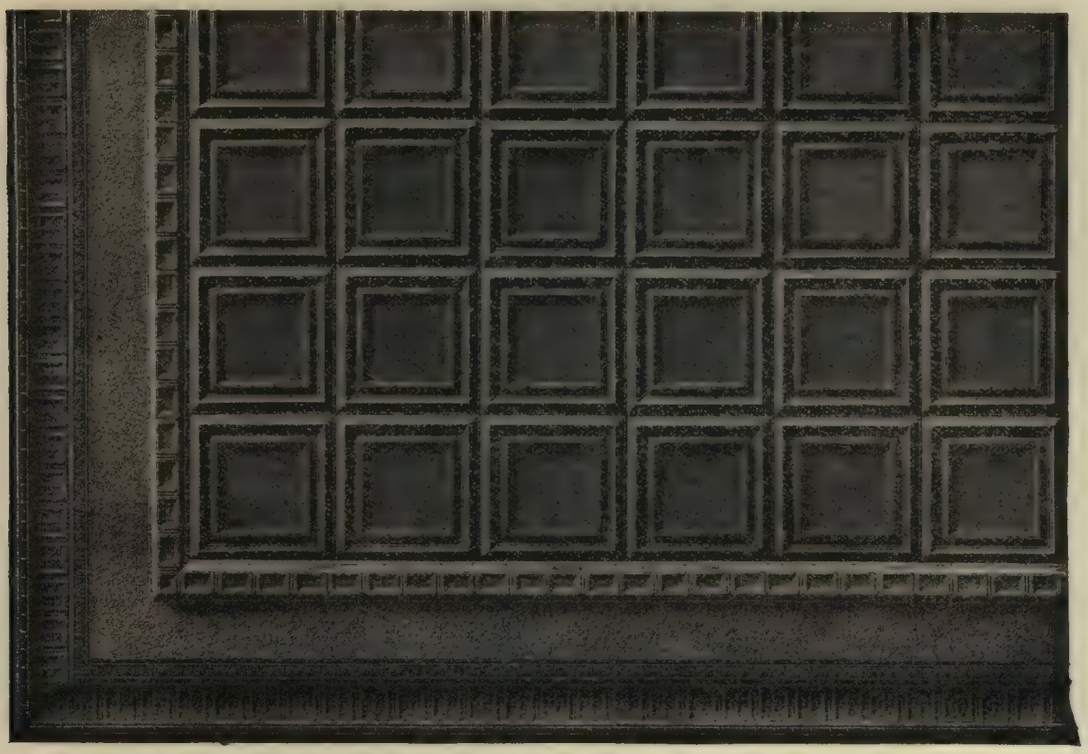
STUCCO No. 2277

Cornice (9 in. Deep), No. 2231; Filler, No. 1743; Moulding, No. 1925; Field, No. 2207.
The artistic value of this design needs no comment. It may be used in a room of any size or shape.
Complete Catalog will be Sent on Application.

Metal Ceilings.

"Invisible Joint"

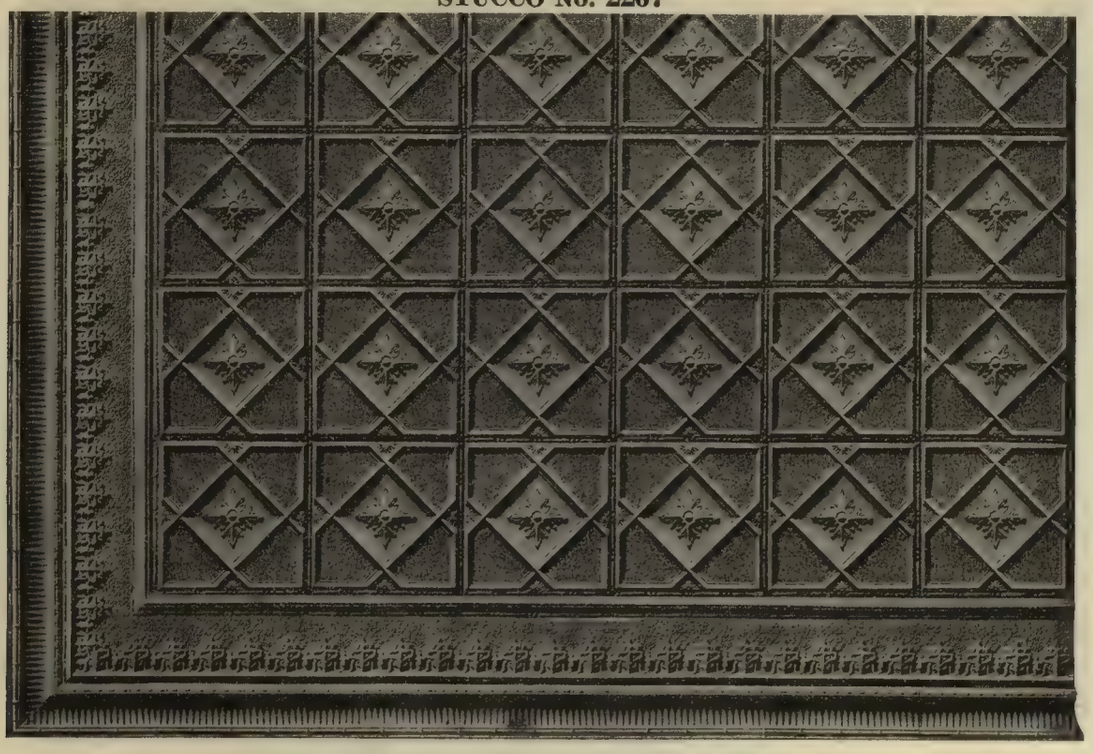
STUCCO No. 2276



Cornice (9 in. Deep), No. 2231; Filler, No. 1743; Moulding, No. 1925; Field, No. 2208.

This plain panel, which may be erected without the use of furring strips, fills a long felt want in the metal ceiling field. The narrow band of stipple around plate No. 2208 eliminates any possibility of buckling.

STUCCO No. 2267



Cornice (6 in.), No. 1932; Filler, No. 2141; Moulding, No. 2122; Field Plate, No. 2202.

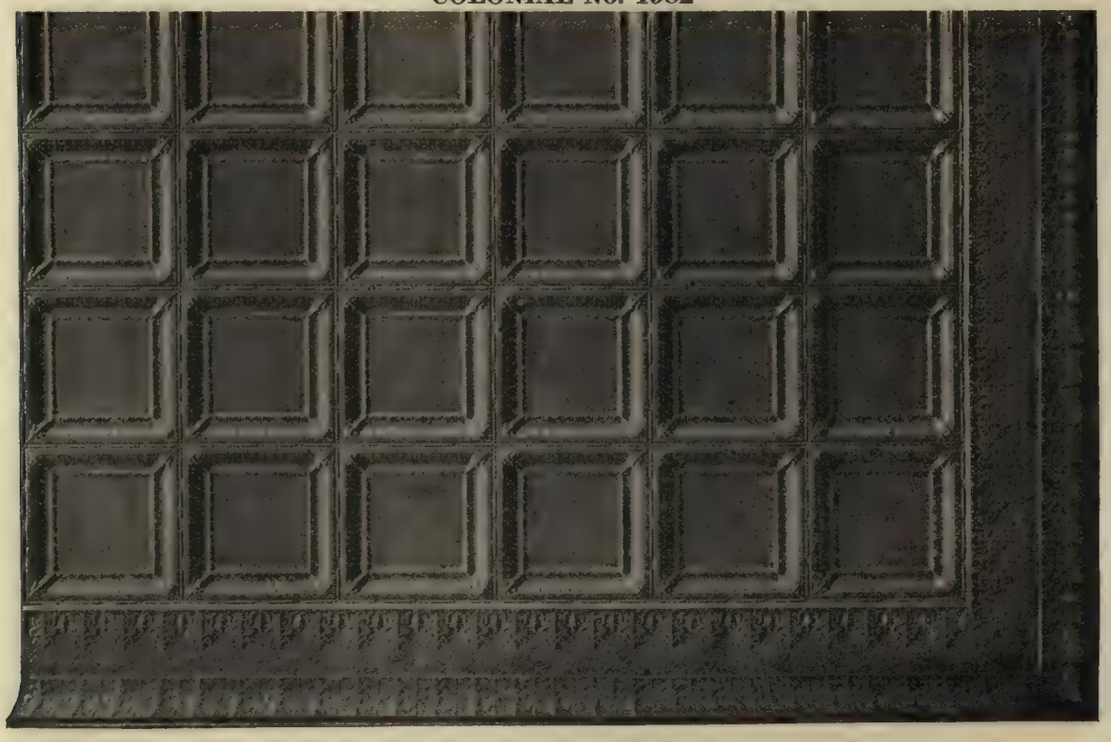
The diagonal effect produced by this plate is one of its many desirable qualities as a decorative agent. The enrichment shown in No. 2202 increases its beauty, yet preserves the straight line effect.

Complete Catalog will be Sent on Application.

Metal Ceilings.

"Invisible Joint" TRADE MARK

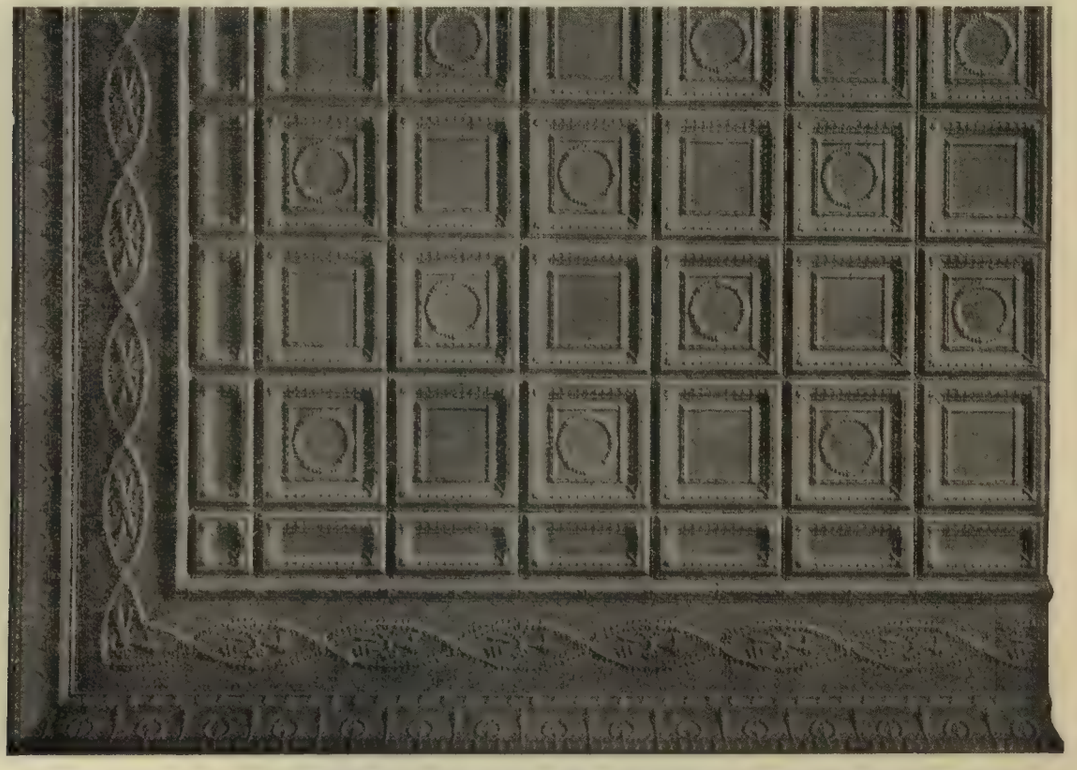
COLONIAL No. 1982



Cornice (6⅜ in.), No. 1833; Filler, No. 2141; Panel, 1¼ in. Deep, No. 1907.

In this design we have arranged a deep and handsome plate with filler and cornice only, resulting in a low list price and producing a combination that can be erected at a minimum cost. 1x1¼ in. furring strips are required for plate No. 1907.

COLONIAL No. 1975



Cornice (9 in.), No. 1931; Filler, No. 1940; Moulding, No. 1921; Panels, Nos. 1910 and 1911.

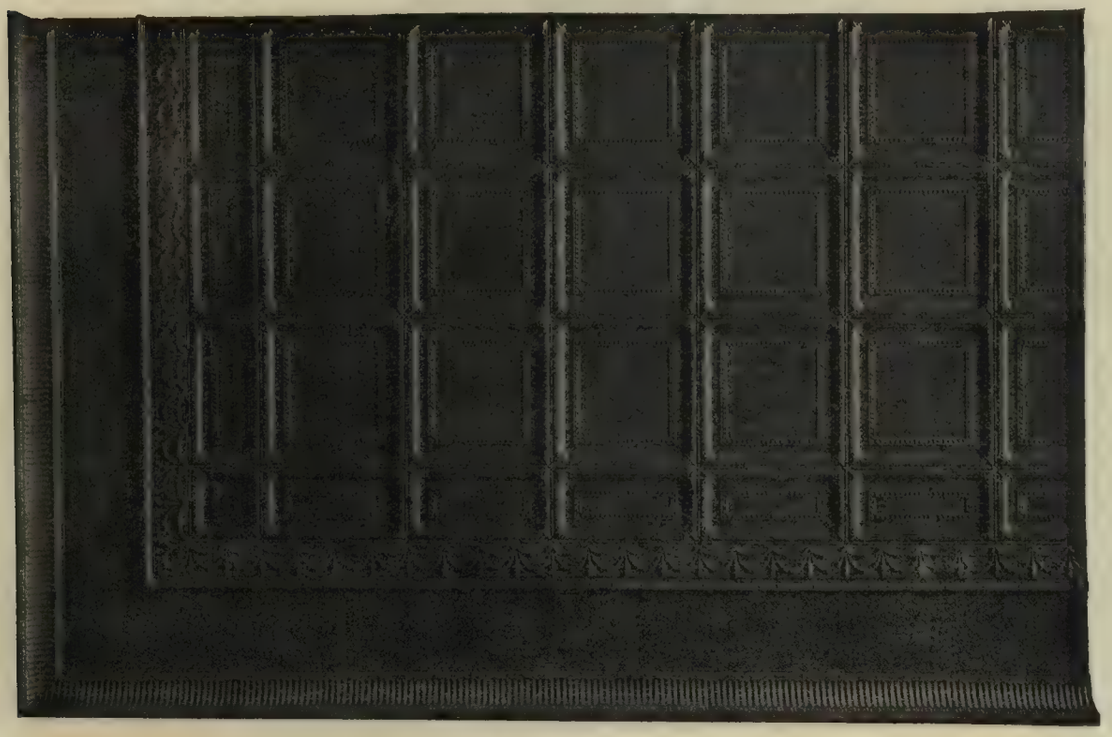
This deep panel can be applied to solid sheathing or old wood ceilings without wood strips if desired, as the beads recede to the ground. A deep and effective design.

Complete Catalog will be Sent on Application.

Metal Ceilings.

"Invisible Joint" TRADE MARK

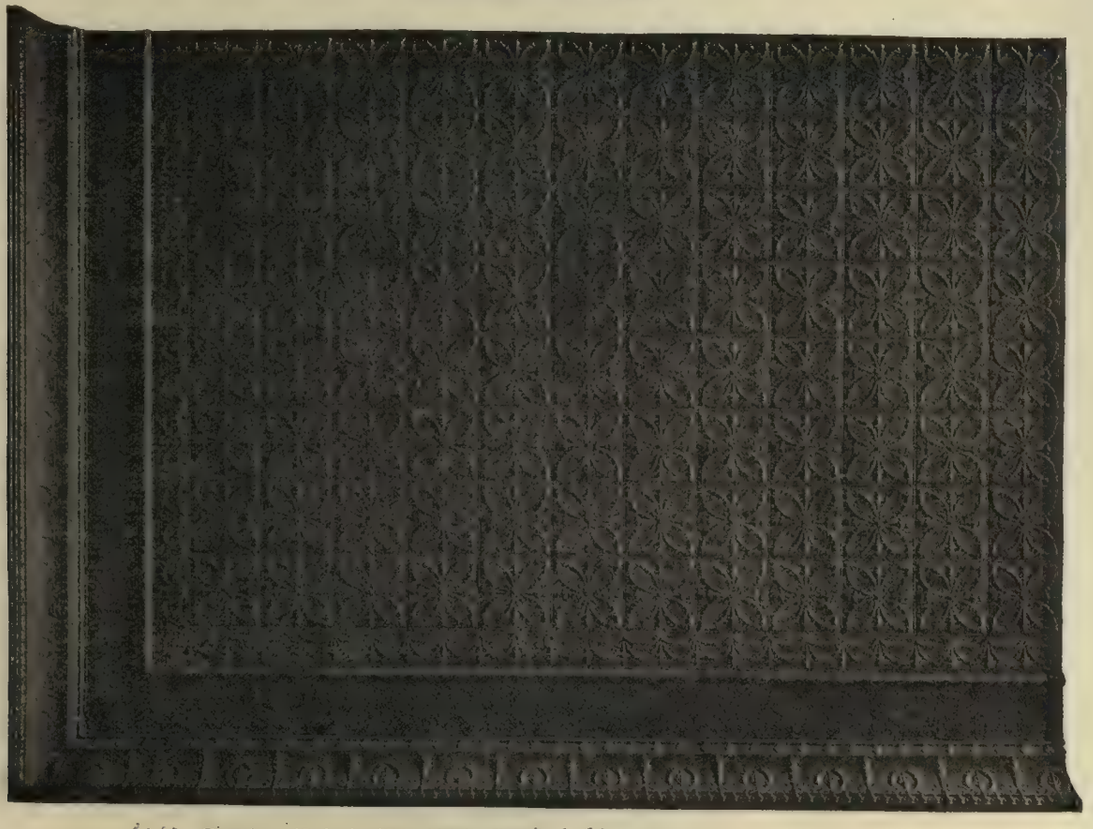
COLONIAL No. 1973



Cornice (6 in.), No. 1932; Filler, No. 1941; Panels, No. 1908.

This is an excellent ceiling design at an extremely low cost. Panels Nos. 1908 and 1909 can be applied only on furring strips.

COLONIAL No. 1967



Cornice (9 in.), No. 1931; Border, No. 1941; Plate, No. 1904.

If used for very large rooms, this design can be improved by the addition of a mould between the border and field and across the room at intervals.

Complete Catalog will be Sent on Application.

Metal Ceilings.

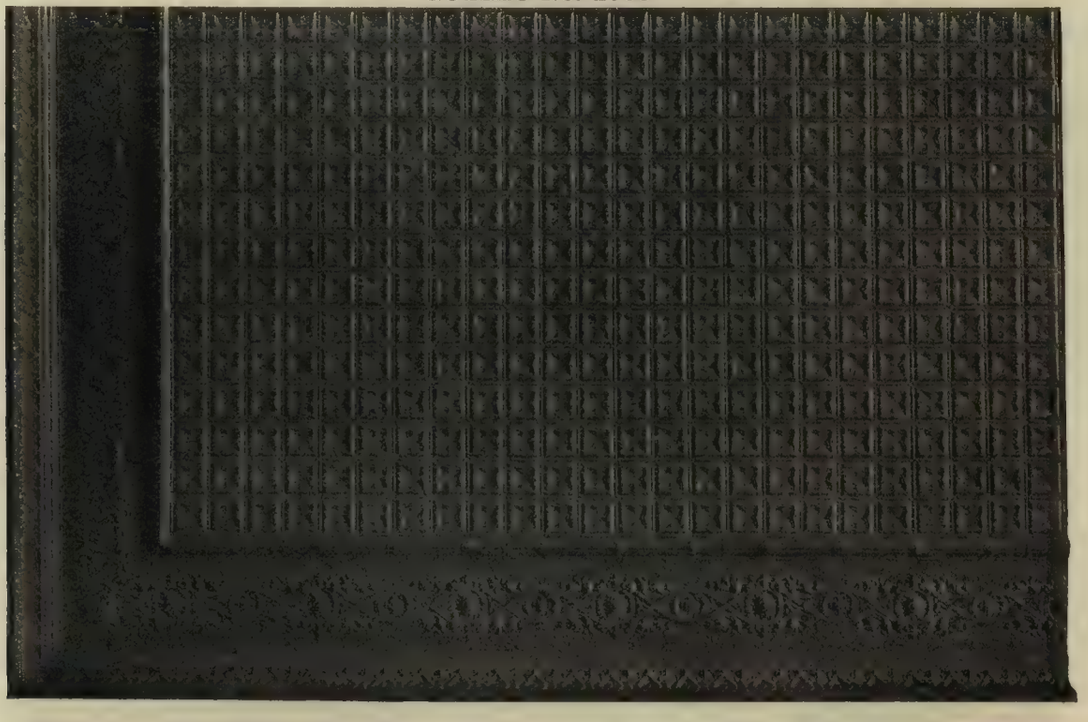
"Invisible Joint"

GOTHIC No. 1773

Cornice (12 in.), No. 1730; Filler, No. 1740; Moulding, No. 1720; Moulded Border, No. 1715; Field, No. 1702.

In rooms in which the ceiling follows the roof rafters forming slopes at the sides, to a point where it is carried straight across on jack rafters, this style of ceiling is suitable, the plates occupying the level portion of the ceiling with the cornice, filler, mould and border on the sloping sides.

GOTHIC No. 1766



Cornice (6½ in.), No. 1731; Filler, No. 1740; Moulding, No. 1722; Plate, No. 1706.

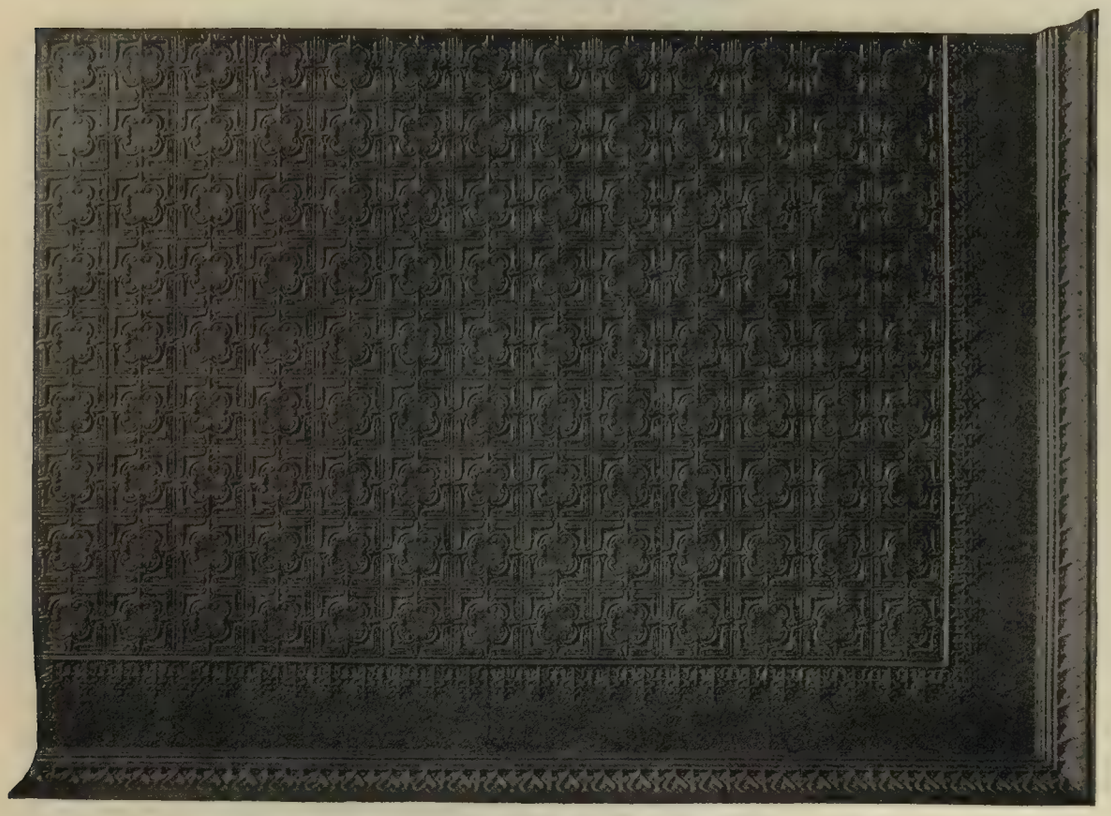
The Gothic style of ornament has been adapted almost exclusively for ecclesiastical purposes: The patterns which we show are pure in style and have been specified by the best church designers in the country.

Complete Catalog will be Sent on Application.

Metal Ceilings.

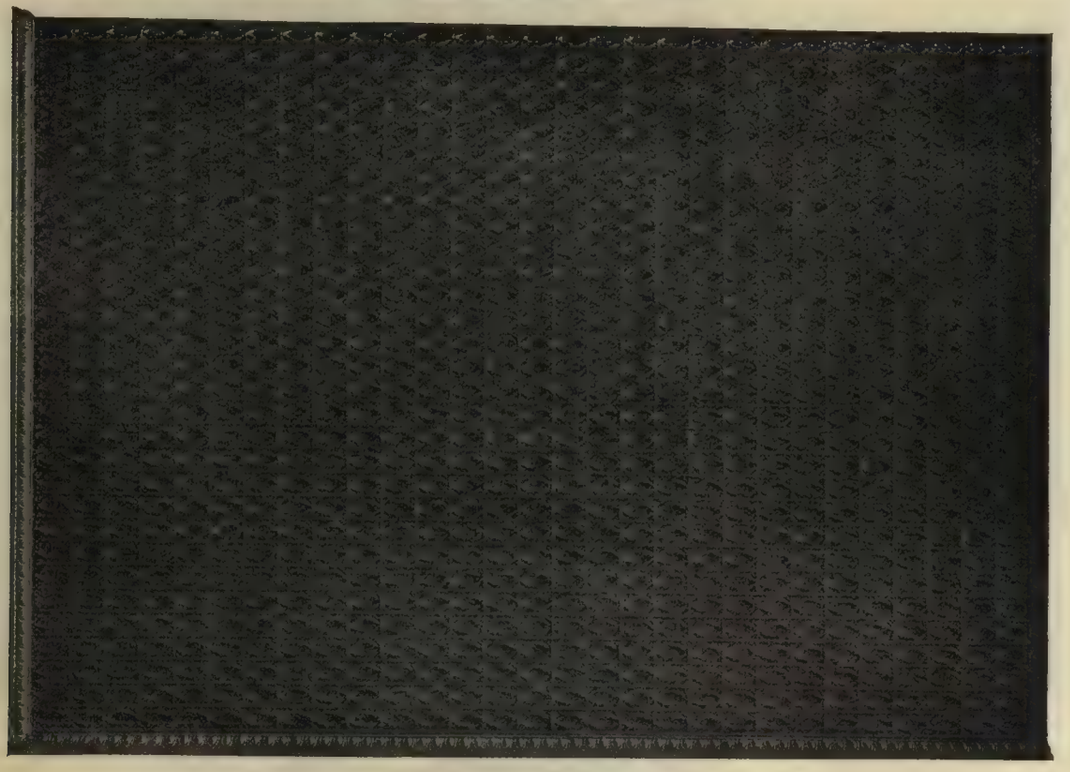
"Invisible Joint" TRADE MARK

MISCELLANEOUS No. 1125



Cornice (6½ in.), No. 1731; Filler, No. 2141; Plate, No. 1604.
This design is suitable for rooms of any size and can be applied to advantage in rooms of irregular shape.

MISCELLANEOUS No. 1066



Cornice (3 in.), No. 1134; Plate, 24x96 in., No. 1001.
A very cheap pattern which possesses all the advantages of any other steel ceiling, except that it is made for economy and utility rather than for beauty. **Complete Catalog will be Sent on Application.**

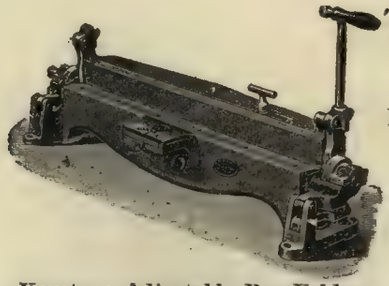
Tinners' Machines.

NIAGARA FOLDING MACHINES



Keystone Adjustable Bar Folders.

No. 1—Adjustable Gauge, Adjustable Stop, Will Fold No. 22 Iron not Less than $\frac{1}{16}$ in. Wide, Interchangeable Parts.

Length, Inches	30	36	42
For Locks, Inches.....	$\frac{3}{32}$ to 1	$\frac{3}{32}$ to 1	$\frac{1}{8}$ to 1$\frac{5}{8}$
Ap. Weight Each, Lbs.	230	275	510
Each	$76.00	114.00	171.00

Bends the edges of light sheet metal at various angles to form locks, square joints, etc., and forms rounded edges ready for inserting a wire.

NIAGARA ADJUSTABLE PIPE FOLDERS

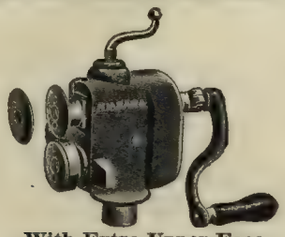
Steel Rod on Edge of Lower Bar.

Each

No. 5—30 in. Long, Adjustable Gauge for Locks from $\frac{1}{16}$ to $\frac{3}{8}$ in. Wide, Edges can be Turned on Sheets Longer than the Machine.....$28.00

Weight Each About 85 Pounds.

SUPERIOR ENCASED LARGE BURRING



With Extra Upper Face.

Extra Heavy Frame, Removable Faces, Adjustable Bronze Bearings, Interchangeable Parts.

Each

No. 11—2$\frac{1}{8}$ in. Between Shaft Centers, with Standard $21.00

Weight Each About 35 Pounds.

Treadle Attachment—To be Used in Place of Crank Screw 8.00

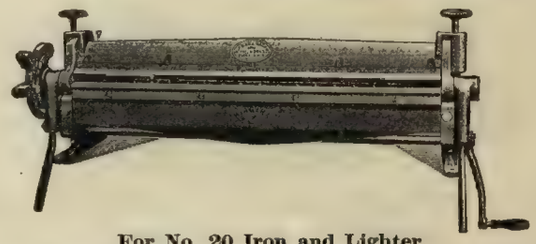
Heavy Sheet Iron Folders.

Extra Heavy, Adjustable Gauge, with Counterbalanced Folding Bar.

Each

No. 4—30 in. Long, for Locks from $\frac{1}{4}$ to 1 in., No. 20 Iron, Weight Each About 190 Lbs.....$60.00

UNIVERSAL FOLDER AND BRAKE



For No. 20 Iron and Lighter.

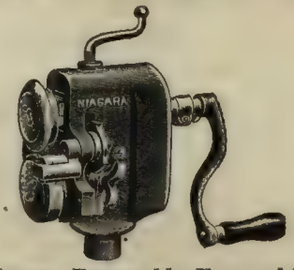
Solid Steel Folding Bar, Upper Edge $\frac{3}{8}$ in. Wide, Removable Reinforcing Bar, Combined Width 1 in., Removable Folding Blade, Adjustable Back Gauge from $\frac{1}{4}$ to 10 in., Back Gauge Rods Graduated in $\frac{1}{16}$ in., Adjustable Stops.

Each

No. 10—42 in. Long, Will Turn Sharp or Rounded Edges, Like a Folder, and Sheets can be Bent Any Distance from Both Ends, as on a Brake $140.00

Weight Each About 475 Pounds.

SUPERIOR ENCASED WIRING



Extra Heavy Frame, Removable Faces, Adjustable Bronze Bearings, Interchangeable Parts.

Each

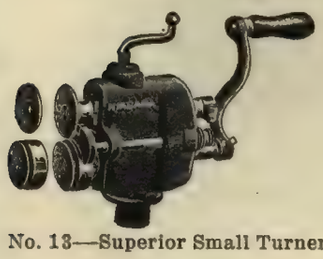
No. 12—2$\frac{7}{8}$ in. Between Shaft Centers, with Standard $28.00

Weight Each About 41 Pounds.

Treadle Attachment—To be Used in Place of Crank Screw 8.00

SUPERIOR ENCASED TURNING

Extra Heavy Frame, Removable Faces, Adjustable Bronze Bearings, Interchangeable Parts.



No. 13—Superior Small Turner.

Small.

With Extra Upper and Lower Faces. Each

No. 13—Small, 2$\frac{1}{8}$ in. Between Shaft Centers, with Standard $22.50

Weight Each About 38 Pounds.

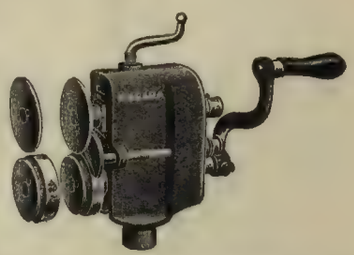
Large.

With Extra Upper and Lower Faces. Each

No. 14—Large, 2$\frac{7}{8}$ in. Between Shaft Centers, with Standard $23.00

Weight Each About 42 Pounds.

Treadle Attachment—To be Used in Place of Crank Screw 8.00



No. 14—Superior Large Turner.

Tinners' Machines.

NIAGARA

SUPERIOR SETTING DOWN

For No. 24 Iron and Lighter.

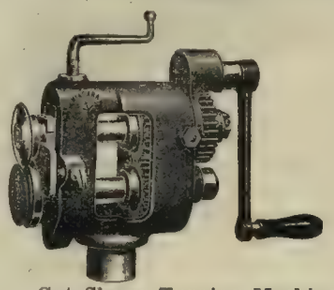
Turns Down and Compresses the Flange of the Bottom on to the Flange at the End of the Body, Thereby Forming a Joint.

Each

Superior Setting Down—For Seams ⅛ to $\frac{5}{16}$ in.....**$22.00**

Weight Each About 38 Pounds.

HEAVY BUFFALO, WIRING, TURNING AND BURRING



Cut Shows Turning Machine.

For No. 20 Iron and Lighter, Back Geared.

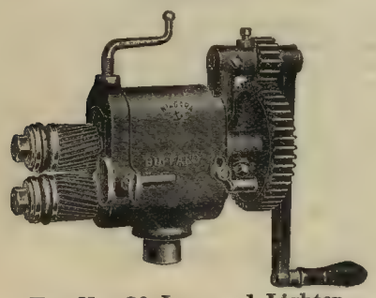
Extra Heavy, with One Pair of Faces and Gauge for Wiring, Turning or Burring, and Large Standard. Each

Wiring Machine—3 in. Diameter Faces, Weight Each About 105 Lbs.....**$48.00**

Turning Machine—3 in. Diameter Faces, Weight Each About 95 Lbs..... **46.00**

Burring Machine—2¾ in. Diameter Faces, Weight Each About 95 Lbs..... **44.00**

BUFFALO CRIMPER AND BEADER



For No. 20 Iron and Lighter.

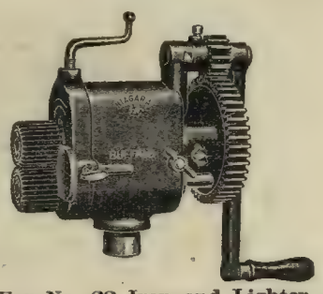
Hardened Steel Rolls, 1¾ in. Crimping Rolls, 1 in. Beading Rolls, with One Pair of Plain Collars, Two Speeds.

Each

No. 15—1$\frac{13}{16}$ in. Between Shaft Centers, Weight Each 60 Lbs. **$21.35**

Intended to facilitate joining lengths of Sheet Metal Pipe. The connecting gears are cut of steel, and the parts are interchangeable.

BUFFALO CORNICE MAKERS' CRIMPERS



For No. 22 Iron and Lighter.

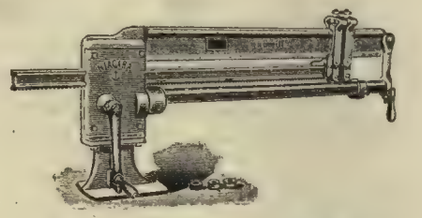
Operated Either from Back Gear Shaft, at Reduced Speed, for Heavier Stock, or with the Handle on the Lower Shaft, at Fast Speed.

Each

No. 1—With Crimping Rolls Only, Shafts do Not Extend Beyond Outer Edge of Rolls, to Enable Operator to Crimp Close up to a Bend.....**$21.35**

Weight Each About 57 Pounds.

NIAGARA GROOVERS



For No. 24 Iron and Lighter.

Reversible Round Horn for Work 2 in. Diameter and Larger, with Stop.

Each

Niagara Groover—30 in. Long, with Two Flat and Three Grooved Rolls, $\frac{5}{32}$, ¼ and ½ in. Wide, Width of Grooves in Horn $\frac{5}{32}$, ¼, ⅜ and ½ in.....**$50.00**

Weight Each About 190 Pounds.

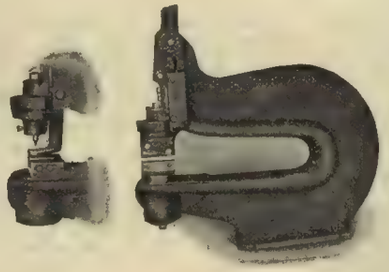
EXCELSIOR FOOT SQUARING SHEARS

For No. 20 Iron and Lighter.

High Grade Steel Knife Welded to Wrought Iron, Easily Removed, with Front, Back, Bevel and Side Gauges, Graduated Scale Divided in Sixteenths Inches Marked on Bed. Each

Excelsior Squaring Shears—30 in. Long, Weight Each About 440 Lbs.....**$89.00**

NIAGARA LEVER SHEARS AND PUNCHES



For Iron ⅛ Inch and Lighter.

Knives 4 in. Long, with Two Cutting Edges, Arranged to Swivel, Will Punch ¼ in. Hole Through ⅛ in. Iron or the Equivalent.

Each

No. 55—18 in. Throat, Weight Each About 315 Lbs..**$70.00**

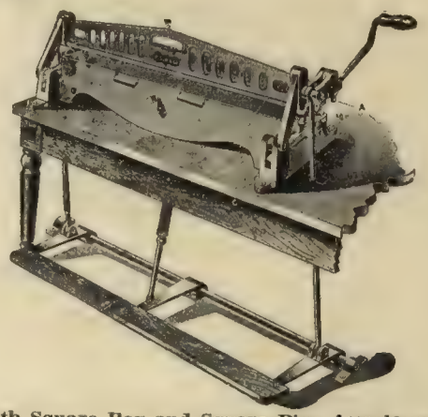
Tinners' Machines.

TIN FOLDING MACHINES

Stow's Patent Improved Adjustable Bar Folders.

	Each
No. 50A—17 in., Will Turn Locks from ⅛ to ⅛ in., For Tin, Weight Each 60 Lbs.	$47.50
No. 52A—20 in., Will Turn Locks from ⅛ to 1 in., For No. 22 Iron and Lighter, Weight Each 100 Lbs.	57.00
No. 54A—30 in., Will Turn Locks from ⅛ to 1 in., For No. 22 Iron and Lighter, Weight Each 180 Lbs.	76.00
No. 56 —42 in., Will Turn Close Locks Only, from ⅛ to 1½ in., For No. 20 Iron and Lighter, Weight Each 415 Lbs.	152.00

These Machines will Turn Locks from ⅛ to 1½ inches in width, will form Square Joints or Angles, turn Narrow or Wide Locks, turn a Round Edge for Wiring and form These Locks on Medium Plate with ease. They will also form Open or Close Locks. By Open Locks we mean such as are suitable for Wiring Straight Work and are formed by dropping the Wing DD below the Level of Gripping Jaw.



With Square Box and Square Pipe Attachment.

	Each
No. 054—30 in., Will Turn Locks from ⅛ to 1 in., Weight Each 275 Lbs.	$95.00

With this Machine an edge can be turned as wide as one inch, and any intermediate width as narrow as ⅛ inch with the Attachment. Square Pipe can be formed of any size usually required, in sections 30 inches long or less. In case the folder only is to be used the attachment B can be turned on the lines marked C and rest on the bench out of the way.

STOW'S PATENT IMPROVED ADJUSTABLE BAR FOLDERS

For No. 22 Iron and Lighter.

Nos. 152A and 154A.

	Each
No. 152A—20 in., Will Turn Locks from ⅛ to 1 in., Weight Each 100 Lbs.	$57.00
No. 154A—30 in., Will Turn Locks from ⅛ to 1 in., Weight Each 180 Lbs.	76.00

These Folders will turn Locks of the same widths and are adapted to the same kind of work as Nos. 52A and 54A Folders, but have an improved device for setting and moving the Gauge. The movement of the Gauge is almost instantaneous, operated by means of a Hand Wheel in front and center of machine and a Set Screw in front and at the left of the machine holds the Gauge firmly in place. The Parts of these Folders are interchangeable, and correspond with the parts of Nos. 52A and 54A Folders, excepting HH and No. 30.

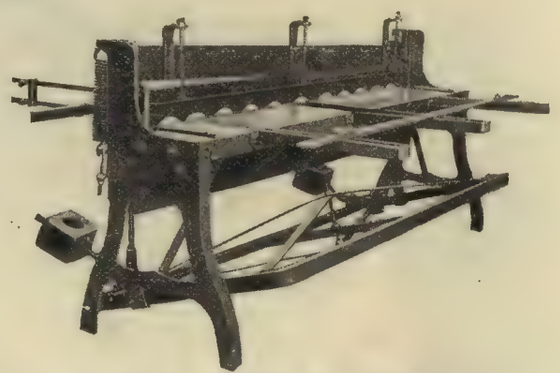
Each	$.....	.....	.....



For No. 18 Steel and Lighter.

Steel Construction Throughout, Cast Steel Ends and Legs, Expansion Steel Treadle, Front, Back, Bevel and Side Gauges, Highest Grade Shear Steel Removable Knives, Adjustable Working Parts.

Each

No. 8—96 in. Long, with Steel Hold Down, Works Automatically with Top Cutting Bar.....$.....
Weight Each About 2500 Pounds.

STOW'S IMPROVED

For No. 18 Iron and Lighter.

Extra Heavy Front Extension Arms and Improved Patent Quick Acting Back Gauge with Adjustable Rods for Supporting and Leading Edge of Material to Face of Gauge.

Each

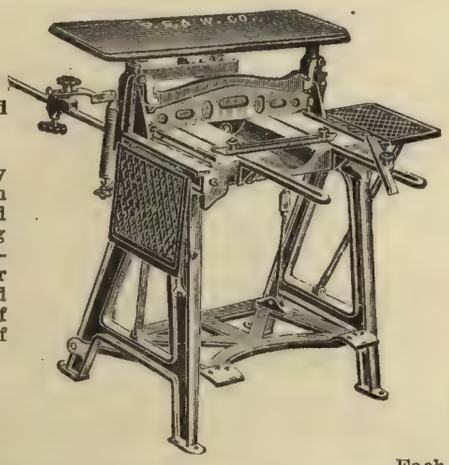
No. 30A—31 in. Long, **without Side Extension Table**..**$85.00**
Weight Each About 475 Pounds.

For No. 18 Iron and Lighter.

Extra Heavy Front Extension Arms and Improved Patent Quick Acting Back Gauge with Adjustable Rods for Supporting and Leading Edge of Material to Face of Gauge.

Each

No. 130A—31 in. Long, **with Side Extension Tables,**
Weight Each About 500 Lbs.....**$ 88.40**
No. 136A—37 in. Long, **with Side Extension Tables,**
Weight Each About 785 Lbs..... **136.00**



For No. 18 Iron and Lighter.

Extra Heavy Front Extension Arms and Improved Patent Quick Acting Rear Gauge with Adjustable Rods for Supporting and Leading Edge of Material to Face of Gauge.

Each

No. 300A—31 in. Long, with Side Extension Tables and **Hold Down Attachment**.....**$96.00**
Weight Each About 510 Pounds.

For No. 16 Iron and Lighter.

Extra Heavy, Extra Heavy Front Arms and Patent Quick-Acting Improved Rear Gauge, with Adjustable Rods for Supporting and Leading Edge of Material to the Face of Gauge.

Each

No. 0130A—31 in. Long, with Side Extension Tables, **without Hold Down Attachment**.....**$126.65**
Weight Each About 640 Pounds.

EXTRAS FOR STOW'S IMPROVED SQUARING SHEARS

Per Pair

Cutting Blades, for Nos. 30, 130 and 300.....**$26.65**
Cutting Blades, for No. 0130 ..... **26.65**

Each

Side Springs **$1.70**

Tinners' Machines.

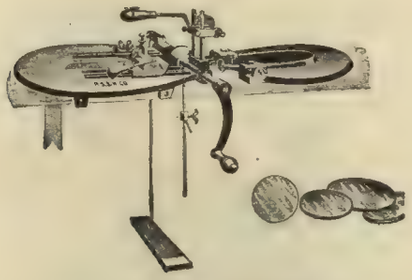
SLITTING OR SQUARING SHEARS

Continuous Cutting or Gap Shear.

Foot Power, for No. 18 Iron and Lighter, with Hold-Down Attachment and Side Extension Tables, Bed Plate Graduated in Inches and Fractions, with Adjustment Gauges for Side Extension Tables.

	Each
No. 85A—37 in. Long, 15 in. Throat, Weight About 275 Lbs.	$340.00
No. 88A—37 in. Long, 18 in. Throat, Weight About 1450 Lbs.	400.00

SAVAGE'S PATENT COMBINATION CIRCULAR SHEARS

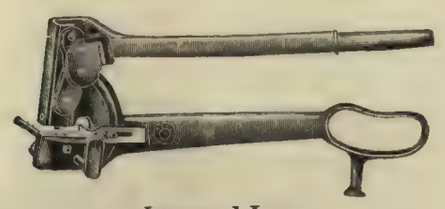


For XX Tin and Lighter.

Will Cut Circles from 2½ to 23 in. Diameter, with Four Pairs of Dies, One Pair Each 2⅛, 3, 4⅞ and 7⅝ in. Diameter.

	Each
No. 261—Without Burring Attachment, Weight About 190 Lbs.	$64.00
No. 262—With Burring Attachment, Weight About 200 Lbs.	76.00

PORTABLE LEVER PUNCH



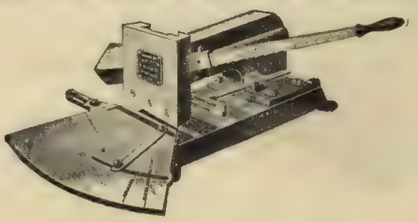
Improved Lever.

	Each
No. 10—Can be Used on Material as Thick as No. 20 Gauge, Three Punches, One Each ⅛, 3/16 and ¼ in., and Three Dies.	$12.80

Weight Each About 10 Pounds.

The illustration shows the method of construction of this handy and useful tool. The toggle movement is powerful, and it works easily and rapidly. It is made to combine light weight with strength. The gauges, both back and side, are easily adjusted. Depth of throat 1¼ inch.

COMBINED BENCH AND SLITTING SHEARS



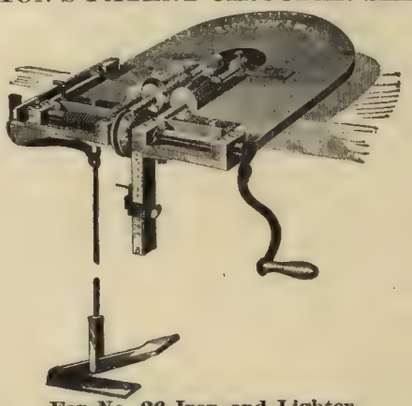
The above illustrations show some of the shapes which can be cut with this shear from the center of a sheet of Plate Metal.

For No. 18 Iron and Lighter.

Stationary Lower Blade, Adjustable Upper Blade, Removable Front Table, with Gauge.

	Each
No. 7—6 in. Blade, 9½ in. Throat, Gauges Can be Set to Any Desired Angle Between 45 and 90 Degrees, Weight Each About 160 Lbs.	$37.50

NEWTON'S PATENT CIRCULAR SHEARS

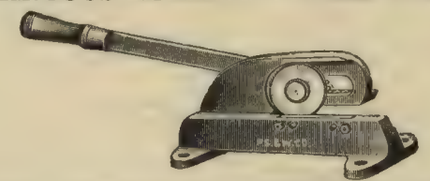


For No. 26 Iron and Lighter.

Will Cut Circles from 3 to 14 in. Diameter, with Two Pairs of Discs, One Pair Each 2⅜ and 5⅞ in. Diameter.

	Each
No. 267—Weight Each About 100 Lbs.	$39.60

CONTINUOUS ROLLING CUTTER SHEARS



Especially Adapted to Tin and Sheet Metal Workers.

	Each
No. 11—Will Cut No. 20 Iron, Weight Each 4 Lbs.	$ 8.00
No. 12—Will Cut No. 16 Iron, Weight Each 11 Lbs.	12.00

These Shears are operated by a pinion lever engaging in a rack and cutting with the forward roll of the cutting disc.

The motion of the circular cutting disc is about one-third of its circumference. The cutting disc is provided with three slots, which correspond with three pins on the cutting disc bolt; this enables the operator to change the cutting disc to six different positions; three on each side—the disc being reversible.

The lower or stationary straight cutter blade has two cutting edges, the ends of the cutter are beveled to match the heads of the bolts which draw the cutter blade in recess of shear stock. Two set screws which press this cutter blade in opposite directions are the means to adjust the lower cutter perfectly to the upper cutter disc.

Tinners' Machines.

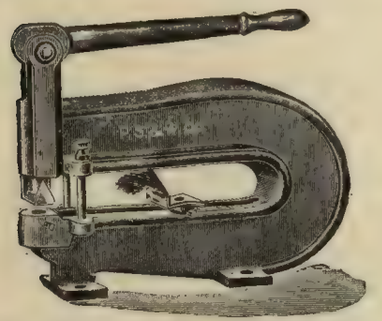
PORTABLE LEVER PUNCHES

Compound Lever.

	Each
No. 2—23 in. Long, Drop Forged Parts, Dies Easily Changed or Adjusted, Will Cut 5/16 in. Hole Through 1/4 in. Iron	**$24.50**

Weight Each About 15 Pounds.

IMPROVED SAMSON PUNCH



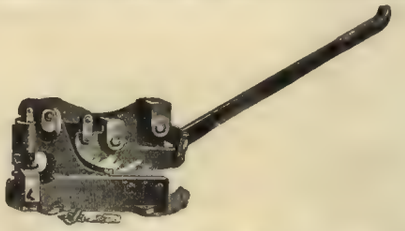
Bolt Fastened, Wrought Iron Links.

	Each
No. 5—With Three Sets of Dies and Punches, 1/8, 5/16 and 1/4 in., Depth of Gap 15 in., Will Punch No. 9 Iron with Stay Bolts and No. 12 Iron without Stay Bolts, Will Center on 30 in. Sheets without Stay Bolts, and on 7 in. Sheets with Stay Bolts, Weight Each 140 Lbs.	**$40.00**
Extra Punches, for No. 5	**1.15**
Extra Dies, for No. 5	**2.25**

Bolt Fastened, with Adjustable Gauge, Wrought Iron Links.

	Each
No. 6—With Three Sets of Dies and Punches, 1/4, 5/16 and 3/8 in., with Stripper for Same, Depth of Gap 15 in., Will Punch 1/4, 5/16 and 3/8 in. Holes in 3/8 in. Iron with Stay Bolts and 1/4 in. Hole in 1/4 in. Iron and 5/16 and 3/8 in. Holes in 5/16 in. Iron when Used without Stay Bolts, Will Center on 30 in. Sheets without Stay Bolts and on 7 in. Sheets with Stay Bolts, Weight Each 250 Lbs.	**$80.00**
Extra Dies, for No. 6	**2.25**
Extra Punches, for No. 6	**3.35**

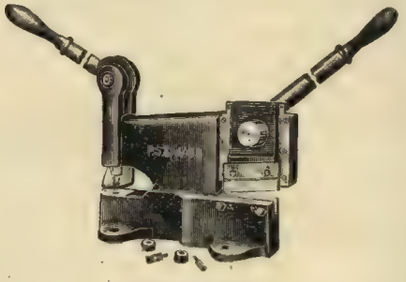
COMBINED SHEARS AND PUNCHES



These Machines are Suitable for Both Cutting and Punching Metal. They May be Used for Cutting 1/8 in. Iron and 5/16 and 1/4 in. Narrow Bars.

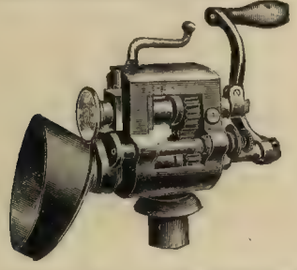
	Each
No. 1—4 1/2 in. Cut, with Four Punches, One Each, 1/8, 5/16, 1/4 and 5/16 in., Suitable for 1/8 in. Iron and Lighter, Will Punch the Center of a Circle 5 1/4 in. in Diameter, Weight Each 100 Lbs.	**$32.00**
No. 2—5 1/2 in. Cut, with Five Punches, One Each, 1/8, 5/16, 1/4, 5/16 and 3/8 in., Suitable for 5/16 in. Iron and Lighter, Will Punch the Center of a Circle 5 1/2 in. in Diameter, Weight Each 120 Lbs.	**40.00**
Extra Punches, for Nos. 1 or 2	**1.15**
Extra Dies, for Nos. 1 or 2	**2.25**

COMBINED PUNCH AND SHEAR



Extra Heavy.

	Each
No. 3—6 in. Cut, with Three Punches, One Each, 1/4, 5/16 and 3/8 in., Suitable for 3/8 in. Iron, Will Punch Center of a Circle 10 in. Diameter and Will Cut Bar Iron 1/4 x 1 1/2 in., 3/8 x 3/4 in. or 1/2 in. Square, and No. 8 Sheet Iron Lengthwise or Crosswise, with Two Levers, One for Punching End and the Other for Cutting End, Weight Each About 400 Lbs.	**$120.00**
Extra Punches, for No. 3	**2.25**
Extra Dies, for No. 3	**3.35**



COLUMBIAN ELBOW EDGING MACHINES

For No. 24 Iron and Lighter.

	Each
No. 551—With Standard and One Pair of Rolls, Weight Each About 25 Pounds	**$20.00**

	Per Pair
Extra Elbow Edging Rolls or Faces	**$4.75**

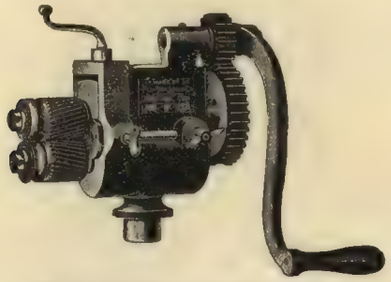
The above cut shows the position of an elbow in turning the edge, also the form of a crease made by the machine to enter the corresponding section in completing the elbow.

The Rolls or Faces are sold separate from the Machine and can be used with and are readily adapted to either Columbian or Encased Small Turning Machines. In using this Machine one-third of the time spent in putting Elbows together can be saved by the operator.

The above cut shows the position of the pipe or elbow in forming the bead to receive the creased section, as shown in the illustration at the left.

Tinners' Machines.

ENCASED COMBINED STOVE PIPE CRIMPER AND BEADER

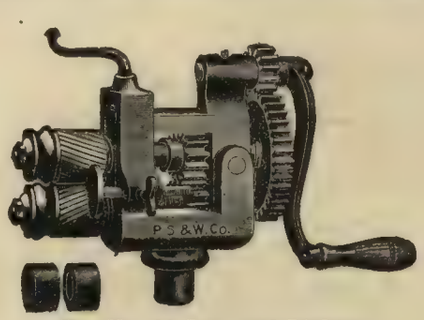


For No. 22 Iron and Lighter.

Back Geared, Adjustable Wedge between Rear Bearings which Regulates the Relative Depth of Crimp and Bead, Steel Rolls, Machine Cut Steel Gears.

	Each
No. 6—With Spiral Crimping and Beading Rolls, with Standard, Weight Each About 47 Lbs.....	**$20.00**
Extra Upper or Lower Rolls.....	**2.80**

STOVE PIPE CRIMPER AND BEADER



For No. 22 Iron and Lighter.

Back Geared, Adjustable Wedge between Rear Bearings which Regulates the Relative Depth of Crimp and Bead, Steel Rolls, Machine Cut Steel Gears.

	Each
No. 07—With Straight Crimping and Beading Rolls, with Standard, Weight Each About 48 Lbs..	**$20.00**
Extra Upper or Lower Rolls.....	**2.80**

These Machines are designed to facilitate the making and putting together of metal pipe of different diameters. They crimp and turn in the edges of Stove and Conductor Pipe, so that the lengths are put together easily. Are also provided with beading rolls, which bead the pipe at the same time it is corrugated. Are substantially and well made; have cut gearing and steel rolls. When Crimping only is desired, substitute the Collars in place of the O. G. Rolls.

STOVE PIPE CRIMPER

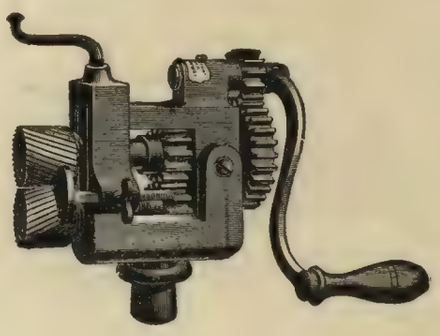
For No. 24 Iron and Lighter.

Not Geared, Intended for Light Work, Built Strongly and Runs Very Smoothly, for Crimping Only.

	Each
No. 8—With Spiral Crimping Rolls and Standard....	**$16.70**

Weight Each About 24 Pounds.

STOVE PIPE OR CORNICE MAKERS' CRIMPER



For No. 22 Iron and Lighter.

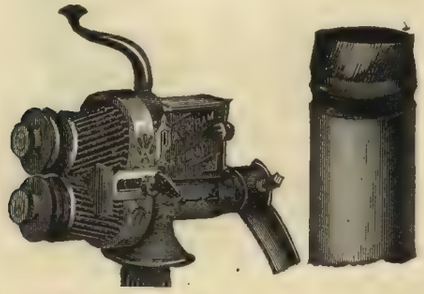
Back Geared, For Crimping Only.

	Each
No. 17—With Spiral Crimping Rolls and Standard...	**$18.35**

Weight Each About 46 Pounds.

The Rolls on this machine are attached to arbors in a manner that leaves the ends or faces of Rolls flat or flush, and makes them adapted for crimping close up to a bend or angle.

PACKHAM'S STOVE PIPE CRIMPER AND BEADER



For Stove and Conductor Pipe.

	Each
No. 3—With Standard, Weight Each About 24 Lbs...	**$13.35**
	Per Pair
Extra Upper or Lower Rolls.....	**$4.50**

LIGHTNING STOVE PIPE MACHINE

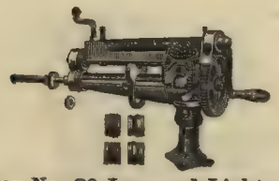
Adjustable.

Will rapidly and perfectly close the Seams or Groove of Nested Stove Pipe. Adaptable for putting together all Gauges and Sizes of Stove Pipe, including Taper Joints. Can also be used for closing Seams on Furnace Pipe and other Sheet Metal articles.

	Each
Lightning—Weight Each About 63 Lbs.....	**$24.00**

Tinners' Machines.

STOW'S PATENT BEADING MACHINES



For No. 20 Iron and Lighter.

	Each
No. 1A—13 in., with Three Pair Rollers and Rotary Stand, Size of Beads, 1 in. Ogee, 1 in. Triple, ⅜ in. Single, Weight Each About 128 Lbs.	$58.00
No. 2A—10 in., with Three Pair Rollers and Rotary Stand, Size of Beads, 1 in. Ogee, 1 in. Triple, ⅜ in. Single, Weight Each About 117 Lbs.	56.25
No. 3A—7½ in., with Three Pair Rollers and Rotary Stand, Size of Beads, ⅞ in. Ogee, ⅞ in. Triple, ⅜ in. Single, Wt. Each About 90 Lbs.	47.25

Extra Parts for Nos. 1A to 3A.	Per Pair
Extra Wrought Iron Rollers—For Nos. 1A and 2A	$ 7.80
Extra Wrought Iron Rollers—For No. 3A	6.70
Crimping Rolls—For Nos. 1A and 2A	13.35
Crimping Rolls—For No. 3A	11.15
	Each
Extra Stands—For Nos. 1A, 2A and 3A	$2.80
Guide Rests—For Nos. 1A, 2A and 3A	2.80
Beader Cranks or Beader Crank Screws	1.15

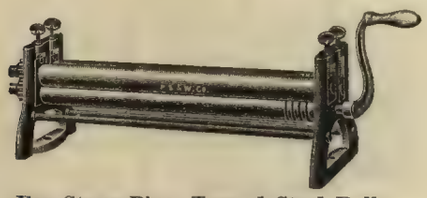
For No. 26 Iron and Lighter.

	Each
No. 4—6 in., with Four Pair Rollers and Rotary Stand, Size of Beads, ¾ in. Ogee, ⅝ in. Triple, ½ in. Triple Coffee Pot, ⅛ in. Single, Weight Each About 50 Lbs.	$35.60
No. 5—4 in., with Five Pair Rollers and Rotary Stand, Size of Beads, 7/16 in. Astragal, 7/16 in. Ogee, ⅜ Triple Coffee Pot, ⅛ in. Double, ⅛ in. Single Bead, Weight Each About 37 Lbs.	30.15

Extra Parts for Nos. 4 and 5.	Per Pair
Extra Wrought Iron Rollers—For No. 4	$4.50
Extra Wrought Iron Rollers—For No. 5	2.80
Crimping Rolls—For No. 4	7.80
Crimping Rolls—For No. 5	4.50
	Each
Guide Rests—For Nos. 4 and 5	$2.80
Extra Stands—For Nos. 4 and 5	2.25
Cap and Crank Screw—For Nos. 4 and 5	4.50

NOTE—Prices on above Beading Machines do not include Crimping Rollers.

PIPE FORMERS



For Stove Pipe, Turned Steel Rolls.

Nos.	1	2
Diameter Rolls, Inches	2	1¾
Length Rolls, Inches	30	30
Ap. Weight Each, Lbs.	140	115
Each	$28.50	27.00

For Tin Pipe, Turned Steel Rolls.

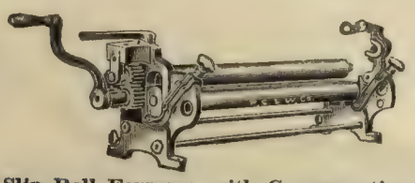
Nos.	31	32	35
Diameter Rolls, Inches	1½	1½	1
Length Rolls, Inches	20	16	12
Ap. Weight Each, Lbs.	60	51	30
Each	$15.00	13.50	18.00

	Per Pair
Extra Gears or Cogs—For Stove Pipe Formers	$1.15
	Per Set
Extra Thumb Screws—For Stove Pipe Formers, In Sets of 4	$4.50

For Stove Pipe, with Compensating Gear.

Nos.	11	12
Diameter of Rolls, Inches	1¾	2
Length Rolls, Inches	30	30
Ap. Weight Each, Lbs.	115	140
Each	$28.50	30.00

In these Formers the Cogs attached to Gripping Rolls do not mesh with each other, but with two Gears so hung that when Gripping Rolls are moved the mesh of Gearing is unchanged. This assures uniformity of action and durability for the Cog; hence the Gears run smoothly without danger of slipping or breaking with whatever thickness of metal is used.



Patent Slip Roll Formers, with Compensating Gear.

Easily Adjusted by Means of Quick-Acting Levers on Each End in Rear of Machine, Special Hard Steel Rolls, Machine Cut Steel Gears.

Nos.	100	200	101
Diameter Rolls, Inches	2	1¾	1½
Length Rolls, Inches	30	30	20
Ap. Weight Each, Lbs.	150	127	75
Each	$33.00	30.00	18.00

Nos. 100 and 200 are Stove Pipe Formers, No. 101 is a Tin Pipe Former.

Patent Slip Roll Formers, with Compensating Gear.

Back Geared, Finely Finished Special Rolled Hard Steel Rolls, Machine Cut Steel Gears, Geared 2 to 1, For No. 22 Iron and Lighter.

No.	01
Diameter of Rolls, Inches	2
Length of Rolls, Inches	30
Ap. Weight Each, Lbs.	160
Each	$52.50

Tinners' Machines.

SHEET IRON FOLDERS

CHAMPION

No. 11.

For No. 22 Iron and Lighter. — Each

No. 11—33 in., Will Turn Locks from 1/8 to 1/4 in., Weight Each About 100 Lbs. $22.80

This Folder has an improvement consisting of a round steel rod, against which the fold is completed, thereby preventing the edge of the frame from being worn off, thus rendering the folding plate more durable and insuring a lock of uniform width the entire length, as variations in the hardness of the material will have no effect upon the uniformity of the lock.

WRIGHT'S PATENT

For No. 22 Iron and Lighter.
Will Turn Locks 1/8 and 1/4 in.

	Each
No. 0—42 in., Weight Each About 125 Lbs.	$38.00
No. 1—32 in., Weight Each About 80 Lbs.	22.80

WRIGHT'S IMPROVED

For No. 22 Iron and Lighter.

Each

No. 12—32 in., with Steel Strips, Will Turn Locks 1/8, 1/4, 1/2 and 5/8 in., Weight Each About 88 Lbs. $28.50

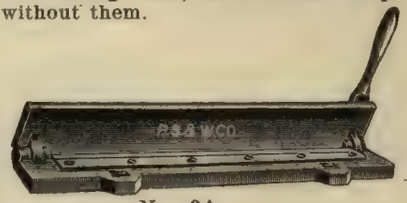
No. 12 will turn Locks of different widths on any length of sheet. To turn an edge longer than the length of the machine, use the Round Rod, placing it so that the Sheet will be put into the Machine over it and turn the Folding Bar against its round surface, making a slight bend the entire length of the Sheet, and repeat this operation of bending until the Lock is finished, or far enough to close it down in the ordinary way. In turning edges on long Sheets it will be well to turn the edge slightly at first and repeat the process of bending until finished. To turn wider Locks than the depth of the Folding Plate, use the Steel Strips under the plate to increase the width, and operate the Machine in the same manner as without them.

IRON BOTTOM

For No. 24 Iron and Lighter.
Will Turn Locks 1/8 to 1/2 in.

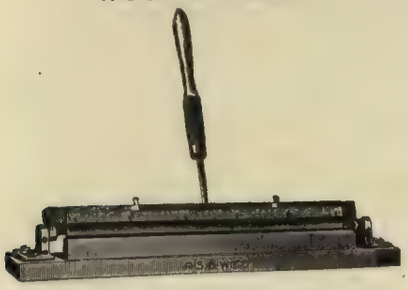
Nos.	2A	3A
Length, Inches	30	39
Ap. Weight Each, Lbs.	55	70
Each	$13.30	22.80

No. 3A has Handle in the Center.



No. 2A.

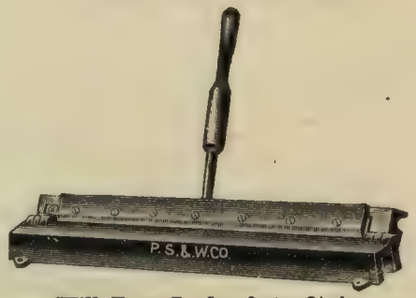
WOOD BOTTOM



For No. 22 Iron and Lighter.
Will Turn Locks 1/8 to 1/2 in., with Milled Bar and Adjustable Gauge.

Nos.	38	39
Length, Inches	48	30
Ap. Weight Each, Lbs.	185	75
Each	$38.00	19.00

STOW'S IMPROVED



Will Turn Locks 1/8 to 5/8 in.

Nos.	10A	15	20
Length, Inches	30	42	60
For Iron, No.	24	24	26
Ap. Weight Each, Lbs.	75	110	250
Each	$19.00	34.20	47.50

These Machines are so constructed that the Gauge always moves upon a line parallel with the edge of the Folding Plate. The principle of folding is the same as in the Wood Bottom Folder.

BOILER EXPANDERS

Each

No. 5—Boiler Expanders, for Holding Bodies of Wash-boilers in Place while Bottoms are being Double Seamed $2.80

Weight Each About 2 Pounds.

CLEAT FOLDERS

Each

No. 481—For Making Cleats for Standing Seam Roofing Complete in One Operation $3.60

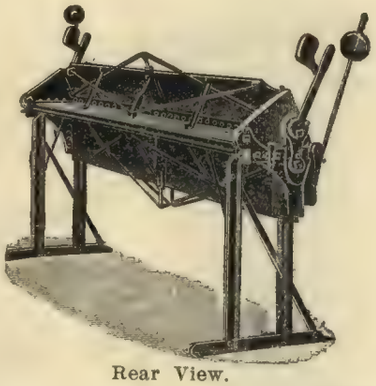
Weight Each About 2 Pounds.

Tinners' Machines.

STEEL CORNICE BRAKES

Front View.

Made of Bessemer Steel, Hinges and Jaw Connecting Links are of Crucible Steel Castings, Steel Angle Bar Bolted to Apron to give additional Leverage when Bending Extra Heavy Material, Independent Operating Handle Levers, Angle Bar and Special Steel Bar are Removable from the Apron and Narrow Opposing Members can then be formed. Apron Edge is ⅛ in. from which ¼ in. is Detachable. Balance Weights on Apron Offer Easy Operation. The Weight on Lever Handles permit the Jaw being Opened to any Point thereby leaving workman free to handle material. Furnished with Five Formers for making Moulding.



Rear View.

Each

No. 1 —Length of Forming Edge 12 ft. 1 in., Will Bend No. 18 Gauge with Edge of 1 in. or More, Complete with Angle Steel Extension and Five Formers, Weight About 4300 Lbs.; Designed for Cornice and Other Light Work.. **$850.00**

No. 2 —Length of Forming Edge 10 ft. 1 in., Forms 1 in. Edge and Wider on No. 16 Gauge, Complete with Angle Bar and Five Formers, Weight About 2500 Lbs.; Adapted for Various Work..... **520.00**

No. 2B—Length of Forming Edge 10 ft. 1 in., Forms ¾ in. Edge and More on No. 18 Gauge, Complete with Angle Bar and Five Formers, Weight About 1900 Lbs.; Suitable for Cornices and Other Light Work..... **420.00**

No. 2C—Length of Forming Edge 8 ft. 1 in., Forms 1 in. Edge and Wider on No. 14 Gauge, Complete with Angle Bar, Weight About 2000 Lbs.; Suitable for Both Heavy and Light Work **420.00**

No. 3 —Length of Forming Edge 8 ft. 1 in., Forms 1 in. Edge and Wider on No. 16 Gauge, Complete with Angle Bar and Five Formers, Weight About 1500 Lbs.; Suitable for Moderately Heavy and Also Light Bending and Cornice Work **310.00**

No. 4 —Length of Forming Edge 8 ft. 1 in., Forms ¾ in. Edge and Wider on No. 18 Gauge, Complete with Angle Bar and Five Formers, Weight About 1000 Lbs.; Suitable for Cornice and Other Light Work..... **220.00**

No. 3B—Length of Forming Edge 6 ft. 1 in., Forms ¾ in. Edge and Wider on No. 16 Gauge, Complete with Angle Bar and 5 Formers, Weight About 1200 Lbs.; Suitable for a Variety of Light Work..... **240.00**

No. 4B—Length of Forming Edge 6 ft. 1 in., Forms ¾ in. Edge and Wider on No. 18 Gauge, Complete with Angle Bar and Five Formers, Weight About 800 Lbs.; Well Adapted for Automobile and Manufacturing Work..... **180.00**

No. 4C—Length of Forming Edge 5 ft. 1 in., Forms ¾ in. Edge and Wider on No. 18 Gauge, Complete with Angle Bar and Five Formers, Weight About 750 Lbs.; Well Adapted for Automobile and Manufacturing Work..... **150.00**

No. 5 —Length of Forming Edge 4 ft. ½ in., Forms 1 in. Edge and Wider on No. 14 Gauge, Complete with Angle Bar and Five Formers, Weight About 800 Lbs.; Well Adapted for Automobile and Manufacturing Work..... **150.00**

No. 6 —Length of Forming Edge 4 ft. ½ in., Forms 1 in. Edge and Wider on No. 16 Gauge, Complete with Angle Bar and Five Formers, Weight About 500 Lbs.; Suitable for Medium and Also Light Bending..... **120.00**

No. 5B—Length of Forming Edge 3 ft. ½ in., Forms 1 in. Edge and Wider on No. 14 Gauge, Complete with Angle Bar and Five Formers, Weight About 650 Lbs.; Well Adapted for Automobile and Manufacturing Work..... **120.00**

No. 6B—Length of Forming Edge 3 ft. ½ in., Forms 1 in. Edge and Larger on No. 16 Gauge, Complete with Angle Bar and Five Formers, Weight About 400 Lbs..... **100.00**

BISHOP'S QUICK WORKING FORMS

The Tool.

The Work.

Cast Iron.

Inches	3½	4	4½	5	6
Each	$0.95	1.20	1.25	1.45	1.90

For closing end of Eave Trough in corrugations, as shown in illustration. And end can be closed much quicker, neater and cheaper than in any other way. A cut through can have an end put in both parts, preventing waste. Old work can be closed from a ladder. The frost will not burst the end out.

Tinners' Machines.

WIRE BAIL FORMERS

Each

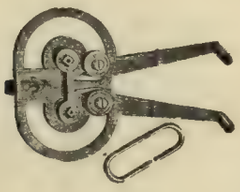
No. 3—Miller's Wire Bail Former, for Forming Wire Bails for Pails, Weight Each About 2 Lbs.... **$2.70**

WIRE RING FORMERS

Each

No. 475—Wire Ring Former or Winder, Weight Each About 14 Lbs..... **$5.40**

OVAL HANDLE FORMERS



Miller's.

Each

No. 5—For Forming Oval Rings of Wire, Weight Each About 36 Lbs..... **$5.40**

By an adjustable Gauge the operator is enabled to form No. 7 Wire Oval Handles $2\frac{1}{16}$x$1\frac{5}{16}$ and $3\frac{1}{8}$x$1\frac{1}{8}$ in.

WIRE CUTTERS AND BAIL FORMERS

Van Bramer's.

Each

No. 490—Patent Wire Cutter and Bail Former, Weight Each About 30 Lbs..... **$18.00**

A cheap and durable machine. It takes wire from the coil and gauges and cuts it to the desired length. It cuts smoothly and easily ¼ in. wire, as well as all smaller sizes from 2 up to 60 in. in length.

WIRE ROOFING FOLDERS

Common.

Nos.	33	13	3
Size, Inches	30	20	14
Ap. Weight Each, Lbs.	15	11	9
Each	$5.60	4.00	4.00

Improved, with Gauge.

Nos.	123	113
Size, Inches	30	20
Ap. Weight Each, Lbs.	15	11
Each	$8.00	5.60

ROOFING CLEATERS AND NAILERS

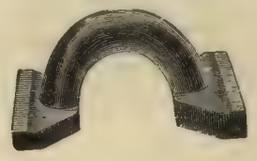
Each

Rapid Roofing Cleater and Nailer—Weight Each About 2¾ Lbs. **$4.20**

Adapted to tin and sheet metal roofs of various kinds and will nail flat seam roofs rapidly.

With one operation it folds the cleat and nails it to the sheathing.

ROOFING DOUBLE SEAMERS



Each

No. 4—To Match Roofing Tongs, Weight Each About 9 Lbs. **$1.40**

Tinners' Tools.

ROOFING DOUBLE SEAMERS

BURRITT'S

No. 742.

Per Set of 2 Pairs

No. 742—For Tin Roofing, in Sets of 2 Pairs, One Common or Narrow Gauge, which Follow 1 and 1¼ in. Edging Tongs and Finish a Double Lock ¾ in. High, the First Seamer Measures 1 in. and the Last Seamer ¾ in., and One Wide Gauge Double Seamer which Follow 1¼ and 1½ in. Edging Tongs and Finish a Double Lock 1 in. High, the First Seamer Measures 1¼ in., the Last Seamer 1 in., Weight Each About 40 Lbs.....**$36.00**

As an additional assistance in ordering, would state that the following numbers will be found on the different Seamers:

Numbers 3 and 5 on the first pair wide gauge Seamers.
Numbers 4 and 6 on the last pair wide gauge Seamers.
Numbers 7 and 8 on the first pair common gauge Seamers.
Numbers 9 and 10 on the last pair common gauge Seamers.

GUTTER TONGS

Per Pair

Gutter Tongs—Weight Per Pair 9 Lbs.....**$8.00**

ROOFING TONGS

Common.

Per Pair

No. 7—Sizes ½, ¾, 1, 1¼, 1½, and 1¾ in., Weight Per Pair 7 to 10 Lbs.....**$4.80**

SQUEEZING TONGS

Per Pair

No. 6—With Pipe Handles, Weight Per Pair About 28 Lbs. **$2.40**

ROOFING TONGS

Per Pair

No. 1—Reese's Improved, with Adjustable and Removable Gauge, Weight Per Pair 11½ Lbs.....**$14.50**

These Tongs will turn any edge from ¾ to 10 inches by simply adjusting the thumb screw and sliding the gauge to the desired position. They are adapted to edging and bending all kinds of ordinary sheet metal. Can be used on No. 22 Iron.

Per Pair

No. 2—Reese's, Adjustable Gauge, Weight Per Pair 9 Lbs.....**$6.40**

These Tongs will turn any size edge from ¾ to 3 in. by simply adjusting the Thumb Screw and sliding the Gauge to the desired width. Are light and strong and adapted to bending all kinds of ordinary sheet metal.

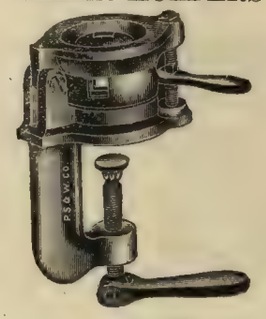
Improved, Polished. Each

No. 3—9x9 in., Weight About 18 Lbs. $5.60

This Bench Plate is so made that it can be readily inserted in any bench of ordinary thickness, and revolves so that different tools may be used in the same position.

SHEAR HOLDERS

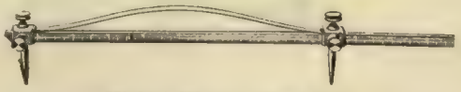


Each

No. 5—Stow's Improved, with Clamp, Weight Each 18 Lbs. $4.80

The advantages of this Shear Holder are at once apparent. The Stand, Clamp and Wrench are always attached, the tinner can use it anywhere on his bench in any part of his shop, and it will hold the bits firmly at any angle desired.

MAGIC PATTERN RULES



Nickel Plated Steel Bar. Each

No. 5—4 ft. Long, 1/16 in. Square, Marked in Circumference Inches on the Front and in Inches and Eighths on the Back, with Two Slides, Trammel Points, Three Flexible Steel Ribbons of Different Gauges and One 19x23 in. Pattern Chart, in Hinged Wooden Case. $8.50

For laying out Elbow Pattern the left hand slide is fastened to the end of the bar by the Set Screw, and the right hand slide is set according to the diameter of Elbow that is wanted. A flexible Steel Ribbon on the top of the Bar is then raised to the required height according to angle of Elbow wanted, one glance at the chart giving such height necessary according to the Elbow required. The chart is mounted on linen and very durable, and contains besides the Elbow diagram, also rules for cutting all kinds of flaring oval, cylindrical, cone-shaped vessels, etc., with the aid of the Magic.

STEEL STRAIGHT EDGES

Special Smooth High Carbon Steel, Finished Edges, One Edge Beveled.

Length, Feet	4¼	6⅛	8½	10½
Each	$3.90	4.70	6.25	7.80

TINNERS' BENCH RULES

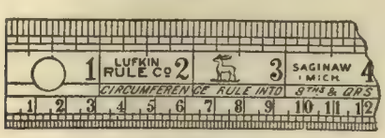
Tempered Steel, 1¼ in. Wide, 16 Gauge, Marked One Side Circumference Rule, Opposite Side Table of Measurements.

Each

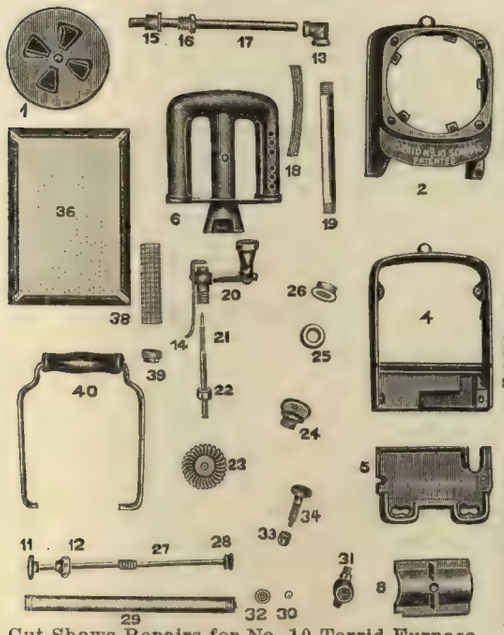
No. 10—Plain, 3 ft., Weight Each About ¾ Lb. $4.45

No. 20—Nickel Plated, 3 ft., Weight Each About ¾ Lb. 5.60

Open Stock.



Nos. 10 and 20.



Cut Shows Repairs for No. 10 Torrid Furnace.

Each

No. T18—Generating Wire. .06

No. T19—Generating Pipe. .12

No. T20—Needle Valve. .65

No. T21—Needle, for Valve. .22

No. T22—Stuffing Nut. .11

No. T23—Wheel Handle. .12

No. T24—Filler Plug . .23

Per Dozen

No. T25—Filler Washer . $0.06

SOLDERING FURNACES TORRID

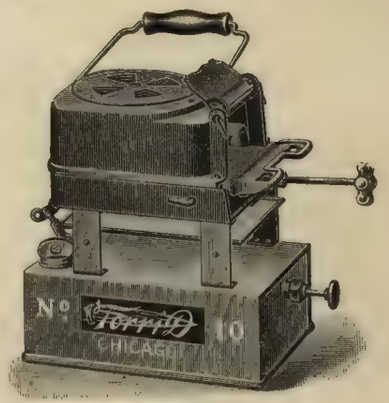
For Gasoline.

Each

No. 10—18 Gauge, Drawn Galvanized Steel Tank, Cast Horse Shoe Burner, 10 in. Brass Set Air Pump, Cast Metal Hood, Capacity of Tank 1 Gallon, Height 12 in. $14.50

Weight Each About 15 Pounds.

This Furnace is especially constructed for Sheet Metal Workers, Tinners, Pattern Makers, etc. It is noiseless, odorless and smokeless.



No. 10.

LIST OF REPAIRS FOR No. 10 TORRID SOLDERING FURNACE

Discount on Application.

Each

No. T1—Register Cover. $0.40

No. T2—Hood . .50

No. T4—Hearth Plate . .50

No. T5—Iron Rest . .35

No. T6—Burner (No Fittings). 1.00

No. T8—Flame Plate . .18

Each

No. T26—Filler Socket . $0.17

No. T27—Pump Rod . .12

Per Dozen

No. T40—Bail Handle . .12

No. T41—Tank Complete . 2.50

Tinners' Tools.

SOLDERING FURNACES.

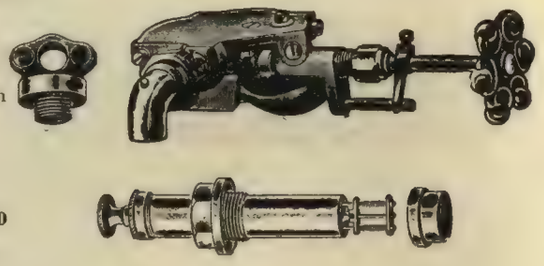
SPECIAL.

For Gasoline.

Each

No. 5—12 in. High Over All, 8½ in. Diameter at Base, 6 in. Diameter at Top, Heavy Galvanized Iron Tank, Capacity 5 Pints, Thoroughly Braced, Will Stand 50 Lbs. of Pressure, Swivel Joint on Burner, with Air Pump $10.00

Weight Each About 12 Pounds.



LIST OF REPAIRS FOR No. 5 SPECIAL SOLDERING FURNACE.

	Each		Each
Burner and Swivel	$2.20	Air Valve	$0.30
Burner Only	1.70	Needle Point	.30
Swivel Only	.55	Filler	.30
Pump	.50	Filler Plug Only	.30
Pump Collar	.11	Sheet and Malleable Iron Top	1.50
Bulb	.25	Base, with Burner and Swivel	3.00

NOTE—When Ordering Parts, Give Number and Name of Part Wanted.

GEM SOLDERING FURNACES.

For Gasoline.

20½x7x15 in. High, Sheet Steel Base, Brass Pump, 7x5½x3 in. Hood, 4¼x1¾ in. Cast Iron Cylindrical Slotted Burner, Capacity 3 Quarts.

Tinners' and Roofers'.

Each

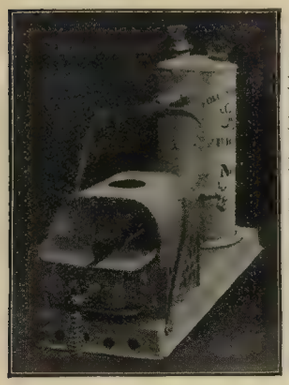
No. 3—Galvanized Reservoir, without Lead Pot and Plumbers' Hood $14.10

No. 03—Galvanized Reservoir, with Lead Pot and Plumbers' Hood 15.80

No. 30—Copper Reservoir, without Lead Pot and Plumbers' Hood 16.90

No. 33—Copper Reservoir, with Lead Pot and Plumbers' Hood 18.80

Weight Each Crated About 22½ Pounds.



Nos. 3 to 33.

Tinners', Roofers' and Plumbers'.

Each

No. 7—7x5¼x3 in Hood, Galvanized Reservoir.... $15.25

Weight Each About 20 Pounds.

No. 7.

No. 2.

TINNERS' FIRE POTS.

For Charcoal.

Each

No. 2—Cast Base and Top, Japanned Sheet Iron Body, Weight Each About 15 Lbs..... $4.50

LIST OF REPAIRS FOR THE GEM GASOLINE SOLDERING FURNACES, Nos. 3 to 33 and No. 7.

Issued Feb. 1, 1914, Canceling all Previous Prices.

No.	NAME	DESCRIPTION.	Weight	Price
00	Chimney	Screen protecting drip cup	2 ozs.	$0.05
0	Drip Cup	Part that holds gasoline	1 lb.	.25
01	Supporting Bottom	Part supporting drip cup	1 lb.	.10
02	Bracket	Part supporting bottom is bolted to	1 lb.	.10
1	Hood	Part that covers the soldering coppers	2 lbs.	.40
2	Front Resting Plate	Part that soldering coppers rest on	2 lbs.	.40
3	Back Resting Plate	Part that points of soldering coppers rest on	1 lb.	.30
4	Drip Cup, old style	Part that holds the oil for heating generator valve in starting	1 lb.	.20
5	Cylinder or Slotted Burner	Cylindrical slotted part that supplies the flame, 5⅛ long	2 lbs.	.75
6	Side Pieces	Parts supporting furnace and protecting flame (2) two for	1 lb.	.15
7	Ring	Iron part around bottom of reservoir, attached to base	1 lb.	.10
10	Slide Rod, old style	Part that drip cup slides on	4 ozs.	7
11	Steel Base	Part that furnace and reservoir rests on	3 lbs.	.50
13	Handle	Malleable iron to support reservoir and carry furnace	1 lb.	.50
14	Mixing Tube	Conveys gas from needle point to mixing chamber	2 ozs.	.10
16	Bolts	For bolting front and back resting plates together. Length 6¼ in., (2) two for	4 ozs.	.10
17	Generator Valve	Valve that regulates and generates the gas	1 lb.	.85
18	Oil Faucet	Valve that goes between furnace and reservoir	1 lb.	.60
19	Generating Pipe	Pipe that fits in furnace over slotted burner, drawn steel tubing	1 lb.	.50
20	Air Faucet	Brass casting that screws on top of reservoir	1 lb.	.75
21	Patent Rubber Bulb and Tube	Part fits on tube of air faucet for supplying pressure	4 ozs.	.60
22	Rubber Valve	Part that works in metal coupling of bulb—are lost occasionally (2) two for	1 oz.	5
23	Galvanized Iron Reservoir	Tank that holds the gasoline. These prices include air faucet and pipes, excluding rubber bulb, ready to fit oil faucet	5 lbs.	2.50
23-S	Galvanized S. Res. for Star	Tank that holds gasoline for No. 10 Star, including Filler Plug and Pump	5 lbs.	3.00
23-P	Galv. S. Res. for No. 3 and 7 Gems	Including Leakless Pump and Filler plug	6 lbs.	3.00
23-LP	Res. for No. 11 Gem, G Steel	Including large Pump and Filler plug	6 lbs.	3.50
24	Copper Reservoirs	Same Tanks for No. 3 and 7 Gems, including air valve	6 lbs.	3.50
24-P	Copper Res. for No. 3 and 7 Gem	Including Pump and Filler plug	6 lbs.	4.00
	Plumber's Lead Pot		6 lbs.	.50
	Plumber's Hood		4 lbs.	.50
F. Pl	Plumber's Plug and Collar	For top of reservoir	1 lb.	.30
S. P	Small Pump and Collar	Goes into top of reservoir	1 lb.	.85
L. P	Large Pump and Bracket	Goes outside reservoir of No. 11 Gem	1 lb.	1.25

NOTE—In Ordering Parts Always Give Furnace Number and Number of Part.

Tinners' Tools.

SOLDERING FURNACES

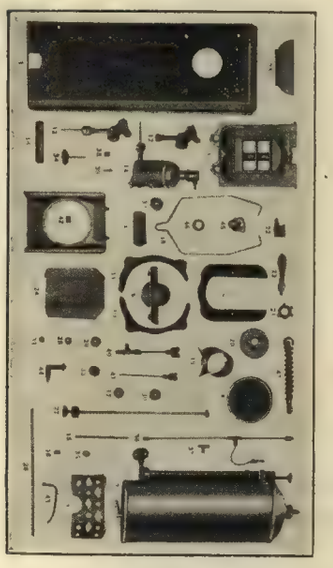
DOUBLE BLAST

Without Lead Pot and Plumber's Hood.

Each

No. 20—5x12 in., Galvanized Steel Reservoir, Aluminum Finished, No. 24 Smooth Sheet Iron Base, Heavy Wire in Bottom, Japanned, 10 in. Brass Pump, 1 in. Diameter, Independent Generating Valve, Brass Generator **$16.10**

Weight Each, Crated, About 29 Pounds.



LIST OF REPAIRS FOR No. 20 DOUBLE BLAST SOLDERING FURNACES

Part No.	Description	Price
1	Base .....Ex. 2 Lbs.	$0.50
2	Tank, complete with pump, No. 45 filler plug and No. 44 elbow..Ex. 3 lbs.	2.50
3	Main casting with mixing tube.....Ex. 3¼ lbs.	.60

Gasoline Blow Torches.

"ALWAYS RELIABLE"

Heavy Drawn Brass Reservoir.

	Each
No. 1—Capacity 1 Quart, Special Bronze Metal Burner, Fitted with "Neverleak" Pump, Weight Each About 4 Lbs.	$6.20
No. 2—Capacity 1 Pint, Special Bronze Metal Burner, Fitted with "Neverleak" Pump, Weight Each About 3 Lbs.	5.90

Heavy Drawn Brass Reservoir.

	Each
No. 3—Capacity 1 Quart, Special Bronze Metal Burner, Fitted with "Neverleak" Pump, **Adjustable Soldering Iron Rest**, Weight Each About 4¼ Lbs.	$6.65
No. 57—Same Description as No. 3, but Constructed of Lighter Material, Weight Each About 4 Lbs.	5.00

Flat Brass Reservoir.

	Each
No. 5—Auto, Capacity 1 Pint, Special Bronze Metal Burner, Fitted with 'Neverleak" Pump, Weight Each About 4 Lbs.	$7.80
No. 6—Auto, Same as No. 5, but **with Soldering Iron Rest**, Weight Each About 4¼ Lbs.	8.20

Round Body.

	Each
No. 7—Infant, Capacity ⅛ Pint	$2.00

Weight Each About ⅜ Pound.

"RED HOT"

Heavy, Seamless Drawn Brass Reservoir.

	Each
No. 9—Capacity 1 Quart, Concave Brass Bottom, Improved Patented Automatic Pump Sets in a Sleeve or Cylinder which Forms the Handle, Special Bronze Metal Burner	$5.00

Weight Each About 4 Pounds.

Heavy, Seamless Drawn Brass Reservoir.

	Each
No. 10—Capacity 1 Quart, Concave Brass Bottom, Improved Patented Automatic Pump Sets in a Sleeve or Cylinder which Forms the Handle, Special Bronze Metal Burner, **with Soldering Iron Rest**	$5.55

Weight Each About 4¼ Pounds.

Gasoline Blow Torches.

"RED HOT"

Heavy, Seamless Drawn Brass Reservoir.

Each

No. 11—Capacity 1 Pint, Concave Brass Bottom, Improved Patented Automatic Pump Sets in a Sleeve or Cylinder which Forms the Handle, Special Bronze Metal Burner.....**$4.45**

Weight Each About 3 Pounds.

Heavy, Seamless Drawn Brass Reinforced Reservoir.

Each

No. 23—Capacity 1 Quart, Concave Brass Bottom, Improved Patented Automatic Pump Sets in a Sleeve or Cylinder which Forms the Handle, Improved Special Bronze Generator Metal Burner with Back-Flow, **with Soldering Iron Rest** **$8.30**

Weight Each About 4¼ Pounds.

Heavy, Seamless Drawn Brass Reinforced Reservoir.

Each

No. 14—Capacity 1 Quart, Patented Automatic Pump in Tank, Special Generator Metal Burner with Back Flow Burner, **with Soldering Iron Rest**..**$8.90**

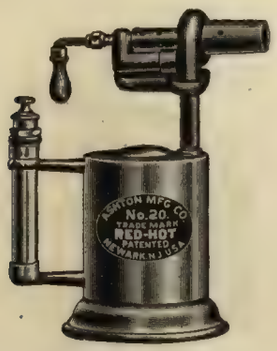
Weight Each About 4¼ Pounds.

Heavy, Seamless Drawn Brass Reinforced Reservoir.

Each

No. 16—Capacity 1 Pint, Patented Automatic Pump in Tank, Special Generator Metal Burner with Back Flow Burner, **with Soldering Iron Rest**..**$7.75**

Weight Each About 3 Pounds.



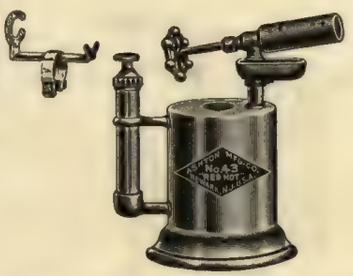
"Hand Brazier."
Heavy, Seamless Drawn Brass Reinforced Reservoir.

Each

No. 20—Capacity 1 Quart, Patented Coil Principle, Concave Brass Bottom, Improved Automatic Pump Sets in Sleeve or Cylinder which Forms the Handle, Special Burner, Producing the Highest Degree of Heat.....**$9.45**

Weight Each About 5 Pounds.

This soldering copper attachment is supplied with No. 43 torch free of charge.



Heavy, Seamless Drawn Brass Reservoir.

Each

No. 43—Capacity 1 Quart, Single Spring Automatic Pump in Handle, Bronze Metal Burner, **Detachable Soldering Iron Rest**.....**$4.45**

Weight Each About 4⅛ Pounds.

Tinners' Tools.

Solid Forged Steel.

Per Dozen

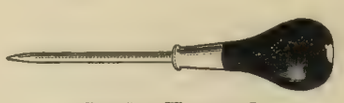
No. 1T—6½ in. Long Over All, Polished Finish Point, Oil Tempered, Natural-Finished Body.....$2.70

Weight Per Dozen About 1⅛ Pounds.
One Dozen in a Box.



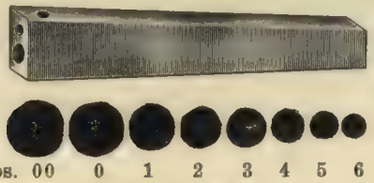
Stanley Hurwood.

Per Dozen

No. 8—7½ in. Long Over All, 3¾ in. Best Crucible Steel Blade, ¼ in. Diameter Needle Point, Blade, Shank and Head Formed of One Piece of Steel, Stained Black Wood Handle.....$4.50

Weight Each About 3 Pounds.
One Dozen in a Box.

TINNERS' RIVET SETS AND HEADERS



Nos. 00 0 1 2 3 4 5 6

Full Size of Holes.

No. 46—Forged Steel, Gun Metal Finish.

Size Nos.	00	0	1	2
For Iron Rivets, Lbs.	14	10, 12	8	6
Each	$0.75	.75	.63	.63
Size Nos.	**3**	**4**	**5**	**6**
For Iron Rivets, Lbs.	4, 5	2½, 3	1¾, 2	1½
Each	$0.50	.50	.37	.37

Average Weight Per Dozen About 5 Pounds.
One-half Dozen in a Box.

FARMERS' RIVET SETS AND HEADERS

Solid Forged Steel, Oil Tempered, Polished Face, Natural Finish Body.

Nos.	7	8	9
For Rivets, Nos.	7	8	9
Per Dozen	$2.25	2.25	2.25

Average Weight Per Dozen About 5 Pounds.

One-half Dozen in a Box.

Tinners' Tools.

HAND GROOVERS

Forged Steel.

Nos.	00	0	1	2	3	4	5	6	7	8
Size of Groove, Inches	½	7/16	13/32	3/8	5/16	¼	3/16	5/32	1/8	1/16
Each	$0.90	.90	.76	.76	.60	.60	.45	.45	.30	.30

Average Weight Per Dozen About 12 Pounds.

HOLLOW PUNCHES

⅜ to 1½ Inch.

Forged Steel.

1⅝ to 2½ Inch.

Wrought Shank.

Inches	⅜	½	⅝	¾	⅞	1	1⅛	1¼	1⅜	1½	1⅝	1¾	2	2¼	2½
Each	$0.46	.60	.76	.90	1.06	1.20	1.36	1.50	1.65	1.80	1.95	2.10	3.00	3.37	3.75

All Sizes to and Including 1½ in. are Forged Steel. Sizes Larger than 1½ in. are Wrought Shank.

Average Weight Per Dozen About 20 Pounds.

LANTERN CHISELS

Inches	½	1
Each	$0.11	.18

Average Weight Per Dozen About 5 Pounds.

WIRE CHISELS

Inches	¼	⅜	½	⅝	¾	⅞
Each	$0.07½	.08¼	.09	.10	.11	.12
Inches	1	1⅛	1¼	1½	1¾	2
Each	$0.13	.14	.16	.18	.22	.26

Average Weight Per Dozen About 10 Pounds.

SOLDERING COPPERS

Pointed Pattern, for General Use.

Nos.	1	1½	2	2½	3	4
Ap. Wt. Per Pair, Lbs.	1	1½	2	2½	3	4
Per Pound	$....	....	....	....	....	....

Nos.	5	6	8	10	12
Ap. Wt. Per Pair, Lbs.	5	6	8	10	12
Per Pound	$....	....	....	....	....

Flat Pattern, for Bottoms.

Nos.	14	15	16
Ap. Weight Per Pair, Lbs.	4	5	6
Per Pound	$....	....	....

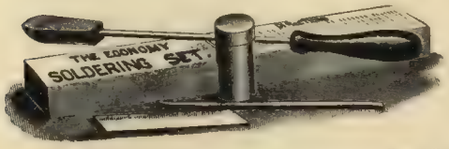
Roofing Pattern, with Shield.

No. 11—Roofing Coppers, Square Point, Wood Handle and Riveted Shield ..... Per Pound $.....

Weight Per Pair About 11 Pounds.

Tinners' Tools.

FAMILY SOLDERING SETS



Per Dozen Sets

No. 10—Consists of One Light Soldering Copper, One Box of Resin, One Tin Scraper and One Piece of Solder, Weight Per Dozen Sets About 5 Lbs. **$2.25**

No. 15—Consists of One 6 Oz. Soldering Copper, One Scraper, One Piece of Solder and One Box of Resin, Weight Per Dozen Sets About 10 Lbs. **3.90**

One Set in a Box.

PLUMBERS' SCRAPERS

Per Dozen

No. 1—6 in. Long, Extra Quality, Forged Steel Blade, Wood Handle **$6.70**

Weight Per Dozen About 2½ Pounds.

MELTING LADLES

No. 10—Malleable Iron Bowl and Handle.

Size of Bowl, Inches.....	3	4	5	6
Ap. Wt. Per Dozen, Lbs..	10	13	24	30
Per Dozen	$2.55	3.50	5.55	6.35

PILLEY QUICK CLEANERS

Per Dozen

No. 25—2 in. Wide, 6 in. Long, Finest Steel Spring Wire Brush, Malleable Iron Head and Handle **$2.80**

For cleaning Files, Flanges, Fly Wheels, Castings, Brasses, Machinery, Wagon and Carriage Springs, Etc. Tinners and Roofers will find it very valuable in removing Rust from any surface before soldering.

Weight Each About 5 Pounds.

One Dozen in a Box.

Welding Compound.

BORAX-ETTE
FOR STEEL
TRADE MARK
REGISTERED AUG. 22 1905
A PERFECT WELDING FLUX
PREPARED ESPECIALLY FOR WELDING
FAR SUPERIOR TO COMMON BORAX

BORAX-ETTE

Per Box

Borax-Ette Welding Compound—In 5 Lb. Boxes **$0.56**

For Welding all Grades of Steel, especially adapted for Plow Work.

CHERRY HEAT

Per Box

Cherry Heat Welding Compound—In 5 Lb. Boxes **$0.78**

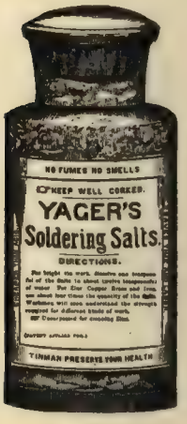
The Best Flux known for Welding.

The Best Flux known for Welding

IRON to IRON, Malleable in Malleable STEEL to STEEL,

Cherry Heat Welding COMPOUND. NEW CITY

And MALLEABLE Iron to Steel.

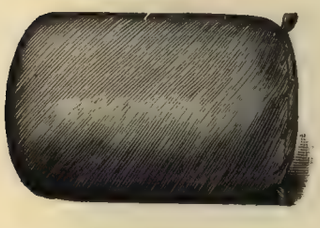


Yager's Soldering Salts.

Per Bottle

No. 1—In ½ Lb. Bottles..... **$0.78**

No. 5—In 5 Lb. Bottles..... **4.50**



Borax.

Per Pound

Borax—Best Crystal Refined **$0.15**

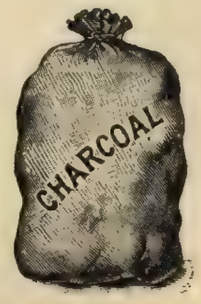
100 Pounds in a Bag.

Resin.

Per Pound

Resin—Extra Quality **$0.09**

About 500 Pounds in a Barrel.



Charcoal.

Per 100 Lbs.

Charcoal—Best Quality **$2.45**

About 70 Pounds in a Bag.

Screw Anchors.

Without Screws.

Made of Composition Metal in one piece, and are so constructed that the screw cuts its own thread. This enables their use with any Wood Machine or Special Screws, its efficiency with all styles being equal. They will not break, chip, mark or deface the finest marble or tile. The Lead Composition is Non-Rusting.

Two Hundred Pounds in a Keg.

Considering weight, Malleable Iron Washers are as cheap as Cast Iron Washers. 400 per cent. stronger than cast washers. Nut Locking feature in no way interferes with their use as plain washers. Standard diameter same as cast washers; thickness about one-half of cast washers. Saves 66⅔ per cent. weight to structure. Saves one-half to one inch in length of bolts. Saves 66⅔ per cent. of all freight charges and hauling to structure.

Width, Inches	⅝	⅝	1
App. Wt. Doz., Lbs.	1	1⅛	2¼
Per Dozen	$0.33	.35	.54

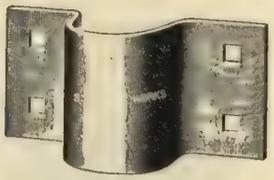
Two Dozen in a Box.

No. 996—Wrought Steel, Plain.

Length of Side, In.	4½	4½	4½
Width, Inches	¾	⅞	1
App. Wt. Doz., Lbs.	2	2¼	2½
Per Dozen	$0.45	.50	.60

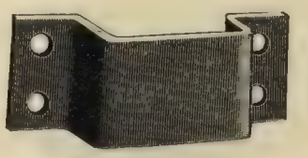
Two Dozen in a Box.

Wagon Stake Irons.



Wrought Steel.

Nos.	9933	9934
Width, Inches	2⅝	3¾
For Stakes, Inches	2	2
Per Pound	$0.14	.14



Pressed Steel.

Nos.	75	76	77	78
Size, Inches	6x1½	6x2	6x2½	6x3
Pocket, Inches	1¾x3	1¾x3	1¾x3	1¾x3
Ap. Weight Each, Lbs.	⅞	1 1/16	1⅛	1¼
Each	$0.14	.16	.18	.20

Mending Plates.

No. 995—Wrought Steel.

Length, Inches	2	2½	3	3½	4
Width, Inches	⅝	⅝	¾	¾	⅞
Ap. Wt. Dozen, Lbs.	1	1½	2	2½	3
Per Dozen	$0.23	.27	.32	.35	.40

Two Dozen in a Box.

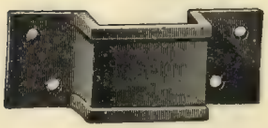
Bar Staples.

No. 1230—Wrought Steel.

Width, Inches	1½	2
Length Sides, Inches	2½	2½
Projection, Inches	2	2
Ap. Weight Per Dozen, Lbs.	8	12
Per Dozen	$1.15	1.60

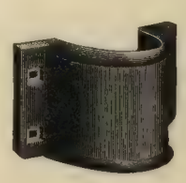
Malleables.

EXPRESS STAKE IRONS



Nos. 5995B and 5995C.

Nos.	5995B	5995C
For Staples, Inches	1½x2¾	1½x3
Depth, Inches	2¾	2¾
Length Over All, Inches	7¼	7½
Per Pound	$.....	.....



No. 6010F.

WAGON STAKE IRONS

No.	6010F
For Staples, Inches	1⅞x2⅛
Depth, Inches	2¾
Per Pound	$.....

CORNER IRONS

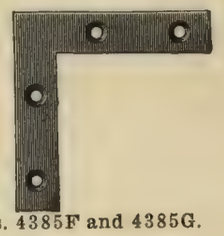
Nos. 4380A and 4380B.

Beveled Edge.

Nos.	4380A	4380B
Width, Inches	⅝	¾
Length, Inches	3½	3½
Per Pound	$.....	.....

Square Edge.

Nos.	4385F	4385G
Width, Inches	¾	⅞
Length, Inches	3½	4
Per Pound	$.....	.....



Nos. 4385F and 4385G.

CORNER IRONS

No. 4455B.

No.	4455B
Width, Inches	¾
Length, Inches	5x5
Per Pound	$.....

SEAT CORNER IRONS

No. 4410B.

No.	4410B
Width, Inches	1 1/16
Length, Inches	2⅝
Per Pound	$.....

Malleables.

WHIFFLETREE COCKEYES

Cast Threads.

Nos.	70A	70B
Screw Shank, Inches	⅜	7/16
Length, Inches	3	3¼
Per Pound	$	

WHIFFLETREE HOOKS

Oval Ferrules, in Pairs Right and Left.

Nos.	125A	125B
Small End, Diameter, Inches	1¼ x1⅜	1¼ x1 5/16
Large End, Diameter, Inches	1 5/16 x1 7/16	1 7/16 x1 11/16
Depth, Inches	1⅛	2⅛
Length, Inches	4¼	4¾
Per Pound	$	

DOUBLETREE STAPLES

Threaded, with Nuts.

No.	215B	215C
Center to Center, Inches	3¼	3¼
Length of Shank, Inches	5	6
Diameter of Shank, Inches	½	½
Entire Length, Inches	7¾	8¾
Per Pound	$	

WHIFFLETREE BRACES

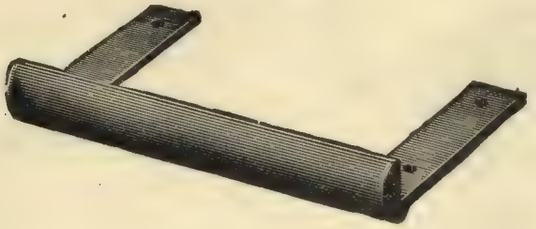
No.	640C
Inside, Inches	3¾
For Bolt, Inches	⅜
Per Pound	$

SEAT SPRING HOOKS

No.	5920C
Length, Inches	3½
Per Pound	$

Has 1 in. Hook at one end and 1½ in. Hook at other end.

WEAR IRONS



For Lumber Wagons.

No.	1680
Length, Inches	7
Width, Inches	4
Flange, Inches	1
Per Pound	$

THUMB NUTS

Blank, Low Pattern.

Nos.	5490A	5490B	5490C
Hole, Inches	¼	5/16	⅜
Height, Inches	11/16	¾	⅞
Per Pound	$		

Tapped, U. S. Standard Threads.

For Bolts, Inches	¼	5/16	⅜	7/16	½
Per 100	$				

PICKET PINS

Fluted Pattern.

	Per Dozen
No. 50—15½ in. Long Over All, Japanned, with Swivel.	$1.90

Malleables.

LARIAT SWIVELS

Nos.	7720B	7720C
Length, Inches	3	3 1/8
Eye, Inches	5/8	3/4
Per Pound	$.....	.....

CHAIN SWIVELS

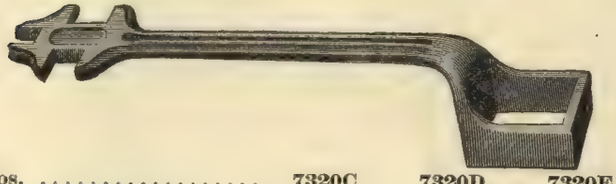
Light Pattern.

Nos.	7710B	7710D
Length, Inches	2 1/2	2 7/8
Eye, Inches	1/2	3/8
Per Pound	$.....	.....

Heavy Pattern.

Nos.	7715H	7715C	7715D
Length, Inches	3 3/4	4 1/4	4 3/4
Eye, Inches	1/2	1/2	5/8
Per Pound	$.....	.....	.....

WRENCHES



Nos.	7320C	7320D	7320E
For Axle Nuts, Inches	1	1 1/8	1 1/4
Opening, Inches	1/2, 5/8, 3/4	1/2, 5/8, 3/4	1/2, 5/8, 3/4
Length, Inches	9 1/2	10	10
Per Pound	$.....	.....	.....

Nos.	7345C	7345A
Opening, Inches	1/8, 3/8, 1/2 & 3/4, 7/8, 1 1/8	1/2, 5/8, 3/4 & 7/8, 1, 1 1/4
Length, Inches	9	10 1/2
Per Pound	$.....	.....

CLEVISES

Nos. 395 to 431.

Doubletree, Oval Band Pattern, with Screw Pin.

Nos.	395	410	420
Width Inside, Inches	2	2 1/2	2
Entire Length, Inches	4 1/2	4 1/2	6
Per Pound	$.....	.....	.....
Nos.	**427**	**430**	**431**

Entire Length, Inches	6	6	8
Per Pound	$.....	.....	.....

Doubletree, Round Pattern, with Screw Pin.

Nos.	480	500
Width Inside, Inches	2	2
Entire Length, Inches	4 1/2	5 1/4
Per Pound	$.....	.....

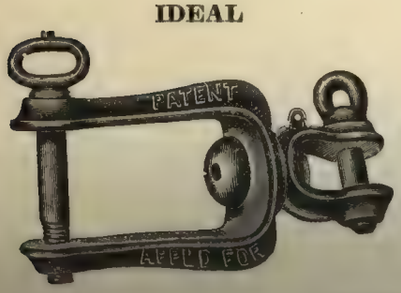
Doubletree, Ribbed Pattern, with Screw Pin.

No.	368
Width Inside, Inches	2 1/4
Entire Length, Inches	5 1/2
Per Pound	$.....

Malleables.

CLEVISES

IDEAL



Per Dozen

No. 2839—2⅜ in. Wide Inside, 4 in. in Clear from Center of Pin, ¾ in. Swivel Clevis Opening, with Screw Pin...$4.50

IDEAL, SWIVEL HINGE HOOK

Per Dozen

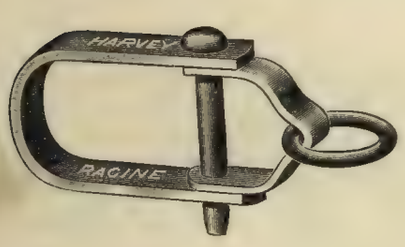
No. 2839½—6¾ in. Long Over All, ½ in. Opening of Hook, ¾ in. Opening of Swivel Clevis $3.90

EVENER, SWIVEL HOOK

Per Pound

No. 2831—For 2½ in. Beam, 4 in. Clear in Length, 9¼ in. Entire Length, with Swivel Hook .....$

STEEL CLEVISES



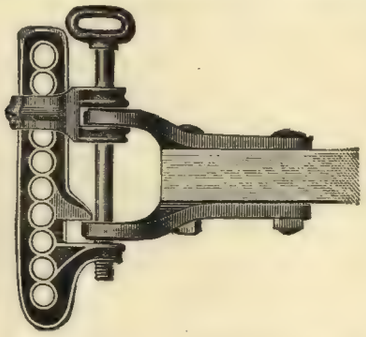
Steel, Lock Pin.

Per Dozen

No. 151—4¾ in. Long Over All, 2 in. Opening, with Lock Pin and Ring.....$1.35

Weight Per Dozen About 10 Pounds.

STOWELL'S CROSS CLEVISES



Per Dozen

No. 23—8½ in. Cross Bar, 10 Holes, Weight Complete 2 Lbs. $4.50

Can be adjusted to fit any size of Wood or Steel Beam, saves carrying a large stock of various sizes of Cross Clevises, uses a Screw instead of a Linch Pin and requires only one Pin instead of two.

CLEVISES

End, with Screw Pin.

No.	173
Width Inside, Inches	1
Entire Length, Inches	4
Per Pound	$

Twisted End, with Screw Pin.

No.	177
Width Inside, Inches	¾
Entire Length, Inches	4
Per Pound	$

SWIVEL SHACKLE

Per Dozen

No. 2824—4⅝ in. Long, ¾ in. Opening, ½ in. Eye...$

PLOW LINKS

Per Pound

No. 2800A—3 in. Long, 1⅜ in. Wide Inside.....$

Weights and Tables.

EXTRACTS FROM RULES AND CONDITIONS

OF

WESTERN CLASSIFICATION No. 52.

Rules.

All Articles will be charged at gross weight, without regard to weight given by shippers and inserted in bills of lading; except that when an estimated weight is given in the Classification such estimated weight will apply unless the actual weight is greater.

Weights, actual and estimated.

Any person (and any officer or agent of any), corporation, or company, or any agent or officer thereof, who shall deliver property for transportation to any common carrier subject to the provisions of this Act, or for whom, as consignor or consignee, any such carrier shall transport property, who shall knowingly and willfully, directly or indirectly, himself or by employee, agent, officer, or otherwise, by **false billing, false classification, false weighing, false representation of the contents of the package or the substance of the property, false report of weight, false statement,** or by any other device or means, whether with or without the consent or connivance of the carrier, its agent, or (agents) officer, **obtain or attempt to obtain transportation for such property at less than the regular rates then established and in force on the line of transportation;** or who shall knowingly and willfully, directly or indirectly, himself or by employee, agent, officer, or otherwise, by false statement or representation as to cost, value, nature, or extent of injury, or by the use of any false bill, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, knowing the same to be false, fictitious, or fraudulent or to contain any false, fictitious, or fraudulent statement or entry, obtain or attempt to obtain any allowance, refund, or payment for damage or otherwise in connection with or growing out of the transportation of or agreement to transport such property, whether with or without the consent or connivance of the carrier, whereby the compensation of such carrier for such transportation, either before or after payment, shall in fact be made less than the regular rates then established and in force on the line of transportation, shall be deemed guilty of fraud, which **is hereby declared to be a misdemeanor,** and shall, upon conviction thereof in any court of the United States of competent jurisdiction, within the district in which such offense was wholly or in part committed, **be subject for each offense to a fine of not exceeding five thousand dollars or imprisonment in the penitentiary for a term of not exceeding two years, or both, in the discretion of the court;**

Provided, That the penalty of imprisonment shall not apply to artificial persons.

Articles falsely described.

Freight subject to Western Classification will be received and carried under the carrier's common law or statutory liability for loss or damage.

Carriers' liability.

When parts or pieces constituting one or more complete articles are offered to carriers for transportation at one time by one shipper to one consignee and destination, they will be rated at the classification provided for the complete article whether set up or knocked down as specified in the Classification.

Charges on complete articles shipped in pieces.

When rate for carload is not named the classification which is given will govern regardless of quantity, and no two or more articles shall be shipped in mixed carloads at carload rate, unless so provided for in the Classification.

Ratings on mixed carloads and on articles for which no C. L. ratings are shown.

Section 1. Freight, when delivered to carriers to be transported at less than carload or any quantity ratings, must be marked in accordance with the following requirements and specifications, except as provided in Section 2 (b) of this Rule, or otherwise provided in specific items in this Classification. If these requirements and specifications are not complied with, freight will not be accepted for transportation.

Marking freight.

Section 2. (a) Each package, bundle or loose piece of freight must be plainly, legibly and durably marked by brush, stencil, marking crayon (not chalk), rubber type, metal type, pasted label (see Note 1), tag (see Note 2), or other method which provides marks equally plain, legible and durable, showing the name of the consignee, and of Town or City and State to which destined.

When consigned to a place of which there are two or more of the same name in the same State, the name of the County must also be shown.

When consigned to a place not located on the line of a carrier, it must also be marked with the name of the station at which the consignee will accept delivery.

When consigned "To Order," it must be so marked and further marked with an identifying symbol or number which must be shown in shipping order and bill of lading.

Marking specified.

NOTE 1. Labels must be securely attached with glue or equally good adhesive.

Labels.

NOTE 2. Tags must be made of metal, leather, cloth or rope stock or sulphite fibre tag board, sufficiently strong and durable to withstand the wear and tear incident to transportation; and

When such cloth or board tag is tied to any bag, bale, bundle or piece of freight, it must be securely attached through a reinforced eyelet.

Tags used to mark wooden pieces or wooden containers must be fastened at all corners and center with large-headed tacks or tag fasteners; or

Tags may be tied to wooden pieces when the freight would be injured by the use of tacks or tag fasteners.

Tags tied to bags, bales, bundles or pieces must be securely attached by strong cord or wire, except that when tied to bundles or pieces of metal, they must be securely attached by strong wire or strong tarred cord.

Tag requirements.

(b) A shipment that fully occupies the visible capacity of a car, or that weighs 24,000 lbs. or more, when shipped from one station, in or on one car, in one day, by one shipper for delivery to one consignee at one destination, need not be marked.

Freight exempt from marking.

(c) The marks on bundles, packages or pieces must be compared with the shipping order or bill of lading, and corrections, if necessary, made by the shipper or his representative before receipt is signed.

Comparing marks with shipping order or bill of lading.

(d) Old consignment marks must be removed or effaced.

Old marks to be removed.

(e) Freight in excess of full cars, except where such excess is the result of carrier's failure to furnish car ordered by shipper, must be marked as required for less than carload freight.

Freight in excess of full cars to be marked.

Packages containing articles differently classified.

Where not otherwise specified in the Classification, any package containing articles of more than one class will be charged at the L. C. L. tariff rate for the highest classed article contained therein.

Ratings applicable on different kinds of packages.

Unless otherwise provided for in the Classification, all freight shipped in crates, racks, bales, bags or bundles will take when shipped in crates or racks the next class higher (greater) than in boxes, and when shipped in bales, bags or bundles one class higher (greater) than in crates. Where same rating is provided for articles shipped in bundles or boxes, the rating given will apply upon shipments of the same articles crated. When no rating is shown for articles in boxes, the rating shown for the same article in crates will apply. When not otherwise specified in the Classification, where the same rating is provided for articles shipped in crates or boxes, the same articles shipped in bundles will take the next class higher (greater.) When not otherwise specified in the Classification, the rating given on shipments in boxes shall apply upon shipments in barrels or kegs, and vice versa. The terms "boxed," "in boxes," and "in barrels' used in the Classification are intended to mean completely enclosed, and will apply only on such packages made of wood, and the term "crated" or "in crates" to mean enclosed on all sides, including bottom, with frame work, so as to allow of their being taken in and out of a car within the crate, and so as to fully protect the article from damage by contact with other freight, and the terms "in bags" and "in sacks" to mean bags or sacks made of other material than paper. All parts of articles provided for boxed or crated must be fully protected, as above stated, in order to entitle them to ratings provided, otherwise they are ratable as not boxed or crated. Shipments made in basket work packages (woven wood and wire), or in boxes with slatted tops, are ratable as crated. Shipments in pressed steel kegs are ratable same as if shipped in wooden kegs. Shipments in iron, steel or indurated fibre pails are ratable same as if shipped in wooden pails. Chests filled goods are ratable the same as boxes filled with goods. Covers of chests must be securely fastened with nails or screws. Liquor packages smaller than barrels are ratable as kegs. Carriers shall have the right to decline shipments in insecure packages.

Maximum charge for L. C. L. shipments.

The amount charged for less than a carload of freight should not exceed the charges on a minimum carload weight of the article.

Minimum charge for articles loaded on open cars.

Shipments, including freight returned for repairs, loaded on open cars, are subject to a minimum charge equal to that for 5,000 lbs., at 1st Class rate, for each car used. Maximum charge provided by Rule 15 to be observed.

Minimum charge for articles too large to be loaded through side doors of 36 ft. cars.

An article too large to be loaded through the side door of a 36 ft. box or stock car, or too long to be loaded through the end window thereof, shall (unless otherwise specified in the Classification) be charged actual weight, and class rate, provided that in no case shall the charge for the entire shipment be less than 5,000 lbs. at first class rate.

Machinery on open cars.

Shipments of Machinery, Implements and other commodities loaded on open cars must have all easily breakable and detachable parts removed and boxed and securely fastened to cars with metal straps or enclosed in machinery or implements.

Empty packages returned.

When empty packages are offered for shipment at the rates provided in this Classification for returned empty packages, the Agent must satisfy himself that they have been used, when filled, in the transportation of a regular consignment and that they are returned to consignors of the orignal filled packages. If Agents have reason to believe that the packages, when filled, were originally forwarded by Express, they will make a note to that effect on the way bill, and charge at the regular rates for new packages.

Freight subject to transfer.

All freight is subject to transfer en route as the necessity or convenience of the carriers require, and should be loaded in such a manner that it can be transferred and reloaded without injury.

Freight likely to damage other freight.

Carriers shall have the right to refuse to receive any freight offered for shipment which is likely to damage other freight or cars.

Charges on articles K. D.

Where the Classification provides separate ratings for articles S. U. and K. D., the charges on any article shipped K. D. should not exceed what would accrue on the same article when shipped S. U.

When freight is consigned to a place not located on the line of a railroad, each package, bundle or piece must be marked with the name of the station at which the consignee will accept delivery, or, if destined to a place reached by a water line, the name of the railroad station, at which delivery is to be made to such water line, must be marked on each package, bundle or piece.

Freight consigned to a place of which there are two or more of the same name in the same State, must have the name of the County marked on each package, bundle or piece, and also shown on the shipping receipt.

Freight consigned to shipper's order.

The issuing of bills of lading for shipments consigned "to order" will not be permitted, unless the name of the person, firm or corporation to whose order the shipment is consigned, is plainly shown after the words "to order" and issuing bills of lading for freight consigned to shipper's order at one point, notifying consignee at another point, will not be permitted, except where consignees are located at prepay stations or interior points, in which case freight must be consigned to the nearest convenient open station.

Articles of less value than freight charges.

Any shipment which, in the judgment of the forwarding railroad agent, would not, at forced sale, bring the amount of the freight charges at destination, must be prepaid or guaranteed.

Articles nested.

The term "nested", as used in the Classification, covers a series of two (2) or more like articles, fitting one within another.

Articles in the rough, in the white, and finished.

A. The Classification of articles in the rough applies to such articles when sawed, hewn, planed or bent, and before any further manufacturing process has begun.

B. The Classification of articles in the white applies after the manufacturing process has begun (and may include one coat of priming), but not when the article has been painted or varnished.

C. The Classification of articles finished applies to the article after it has passed the stage of manufacture covered by sections "A" and "B" of this Rule.

Read Rules and Conditions Carefully.

EXPLANATION OF CHARACTERS.

The Figures Given After the Articles Signify:

1=First Class.
2=Second Class.
3=Third Class.
4=Fourth Class.
5=Fifth Class.
1½=One and One-half Times First Class.
D1=Double First Class.
2½=Two and One-half Times First Class.
3T1=Three Times First Class.
3½T1=Three and One-half Times First Class.
4T1=Four Times First Class.

(Progression of Classes Above First Class is by One-half).
Classes A, B, C, D, and E Refer to Table of Rates.
C. L.=Car Load.
K. D.=Knocked Down.
L.C.L.=Less Than Car Load.
Min. Wt.=Minimum Weight.
N.O.I.B.N.=Not Otherwise Indexed by Name.
S. U.=Set Up.
The Figures on Left Side of Column are for Convenience in Referring to Rating.

Rakes, in bundles, boxes or crates:
Wooden 1
Iron 2
Razor Strops, boxed..... 1
Reels, Hose:
Garden or Lawn, N. O. I. B. N.:
S. U. ..... D 1
K. D. in packages..... 1
Iron, K. D., in packages..... 2
Refrigerators:
N. O. I. B. N. (with or without Beer Pump Attachment inside), and Slides, (slides in packages). 2
Registers, in boxes or crates..... 3
Riddles, in bundles.. ..... D 1
Riddles, in boxes..... 1
Rims, Bicycle:
*Steel, boxed or crated..... D 1
Wooden, Finished .....2½ T 1
Rings, Hog, in boxes or kegs.... 4
Rivets, Copper:
N. O. I. B. N..... 1
In boxes, barrels or casks..... 2
Rivets, Iron, in boxes, kegs or barrels:
Coppered Iron 3
Plain 4
Rivets, Tubular or Slotted, in boxes, barrels or kegs..... 1
Rods, Cleaning, boxed 1
Rods, Fishing, Jointed, boxed.... 1
Rollers, Barn Door, in boxes or crates 3
Rollers, Garden and Lawn..... 2
Rolling Pins, boxed or crated.... 2
Rope and Lath Yarn, N. O. I. B. N.:
In bundles 1
In bales, boxes or barrels..... 2
Rope, Wire, N. O. I. B. N., in coils or on reels 4
Rosin, in barrels or boxes..... 4

S

Saddlery, N. O. I. B. N.:
In boxes 1
In bales 1
Sad Irons, Electric and Gasoline. 1
Sad Irons, N. O. I. B. N., and Sad Iron Stands, in boxes or barrels 4
Sad Iron Handles, in packages.. 2
Sad Iron Handles, shipped with the Irons of which they form a part, are ratable same as Sad Irons.
Safes and Safe Doors, (iron), loaded and unloaded by owner:
Each weighing less than 5,000 lbs. .....
Each weighing 5,000 lbs., and les than 10,000 lbs..... 3
Each weighing 10,000 lbs. and over 2
Sash Balances or Pulley, in boxes, kegs or barrels..... 1
Sash Weights:
N. O. I. B. N..... 2
Strung on cord or in barrels or boxes 2
Sawbucks, K. D..... 4
Saws:
On boards 1
In boxes 2
Circular Saws and Frames..... 1¼
K. D., in pieces..... 1
Circular Saw Frames, completely K. D., in racks or bundles..... 2
Drag Saws:
With horse power..... 2
Without horse power, K. D., in bundles 2
Scales, warehouse, track and wagon, small parts, boxed..... 2
Scales, Assayers and prescription boxed ..... D 1
Scales, N. O. S., and Scale Beams:
Boxed 2
Not boxed 1
Scale Beam Boxes 2
Scale Frames (for platforms of wagon scales), Steel, completely K. D. 4
